The following courses are recommended for approval by Senate. If approved, these courses will be offered in the Fall Semester 1966.

French 150-3

For students whose theoretical knowledge is equivalent to or greater than that required of our French 201 students but who lack the requisite active control. It will entail two Sections weekly at which students will work through all the grammar drill material performed in French 100 and French 101 and two language laboratory sessions consolidating this. A very considerable amount of memorization and drill will have to be done at home and extra attendance at labs will be recommended.

P.S.A. 348-5 Soviet Politics

This course is a further course in the series of regional studies which is already in the Calendar.
