SIMON FRASER UNIVERSITY

S.72-132

MEMORANDUM

To..... Senate

From..... Dr. P. Wagner
Chairman
Senate Library Committee

Subject CHANGES TO LOAN POLICY

Date..... November 7, 1972

At the time the Recall System was designed, it was not possible for the Loan Division to efficiently update a single penalties list for the Reserves, General Loans and Audio Visual Equipment areas. Therefore, it was necessary to create three categories of loan and stipulate that if a person was suspended from borrowing it would be only with respect to the particular loan category of the infringement.

The Library now wishes to have Reserve Loans (cat. ii) combined with General Loans, etc. (cat. i) for the purpose of imposing penalties.

REASONS:

1. Staff in the Loan Division have discovered that to prevent a student from using the Reserve Loans material while allowing him to continue his use of the General Collection does not create sufficient hardship to make him want to clear the penalty incurred in Reserve Loans. Staff explain that students thus affected are able to find duplicate or substitute material in the General Collection, or get their friends to check out Reserve material for them. The effectiveness of this high-use Reserve Loans area has been eroded by this weakness in the penalty system.
2. Staff in the Loan Division have devised an efficient, mechanized procedure for updating a single penalties list for the Reserve Loans and General Collection areas, thus making it possible for us to operate almost as we originally intended.
