

ANNUAL REPORT

S. 73-34

SENATE COMMITTEE ON SCHOLARSHIPS, AWARDS AND BURSARIES

Preamble:

This is the first year the Senate Committee on Scholarships Awards and Bursaries has functioned under the new terms of reference (for details regarding these and events leading to their adoption, see 1972 annual report). The Committee and Subcommittees have held eleven meetings in which procedures, as they related to various areas, were discussed. Most of these areas of activity will be described separately in the following pages.

It soon became apparent that the difficulty of scheduling business meetings, which could be attended by all members, was directly proportional to the size of the Committee. The work load was subsequently divided between a number of subcommittees described herein. The overall duties of the Committee have continued to expand particularly in the area of graduate student awards, and also in the expanding area of private bursaries and awards, e.g. Tenth Anniversary Fund.

The membership of the Senate Committee on Scholarships, Awards and Bursaries consists of the following:

<u>MEMBERS</u>	<u>CONDITIONS</u>	<u>TERM</u>	<u>EXPIRY DATE</u>	<u>NAME</u>
Chairman	Appointed by Senate	3 years	Sep 30/73	A.M. Unrau
Faculty Member (Arts)	Appointed	2 years	Sep 30/73	W.E. Williams

Organization of Committee: Formation of Subcommittees and their duties and functions:

1. Scholarships (undergraduate):

The normal term will be 1 year, renewable where appropriate.
The members of this Subcommittee are:

S. Hean	Student Representative
R. Rennie	Science (Faculty Member)
J. Trivett	Education (Faculty Member)
W. Williams	Arts (Faculty Member)
A. Unrau	Ex-officio
D. Clarke	Convener

This Subcommittee is charged with determining the distribution of S.F.U. Open, S.F.U. Entrance, Private Entrance and Continuing Scholarships. This Subcommittee serves as do other member Committees of the Parent Committee in an advisory role in the area of bursary allocations. Requests for reconsideration of their applications for scholarships are ordinarily processed by the Chairman of the Senate Committee and the Financial Aid Officer. Complex cases are referred to the members of the above Subcommittee.

A summary of the number of scholarships awarded and a budgetary breakdown as well as a summary of bursaries awarded and the corresponding budgetary breakdown is given in Appendix A.

A number of aspects of the scholarship program are presently under review and a more detailed report of such activities will be described in the next annual report. A number of investigations or studies are now underway as a result of easier access to computerized records. The Subcommittee has, among such projects, requested a review of procedures used in bursary allocations. A review of grade trends within the university, faculties and departments and courses is to be undertaken to determine whether any discrepancies exist in the award of Government Scholarships and S.F.U. Open Scholarships.

The Subcommittee has taken action in the area of S.F.U. Bursary and S.F.U. Scholarship awards to students attending University on a part-time basis. The original method whereby such students might qualify has been modified such that their award is pro-rated based on the number of semester hours in which they were registered (below 12 hours) and proceed to register during the receipt of the Scholarship (if below 12 hours). This aspect is also being considered as it may relate to the continuing education program. It goes without saying that the Senate Committee wishes to recognize academic excellence achieved through full-time programs. However, similar standards achieved by students who are enrolled in part-time programs, evening programs, etc. through necessity could be equally meritorious. Recognition of the latter is possible through the use of a pro-rating system.

The Entrance Scholarship Program was significantly expanded in the last year. Previous to this, S.F.U. attempted to attract (with moderate success) some of the top students of the Province by offering thirty scholarships (Gordon Shrum Entrance Scholarships) to Secondary School students who attained first class standing in the B.C. Government Scholarship Examinations. These scholarships have of course been retained, but in addition, a relatively large number of first and second class awards were offered to students who had attained a high average in their school examinations. In the combined offering, over 93% of students offered the Shrum and S.F.U. Entrance Scholarships proceeded to register at S.F.U.

The number of students of scholarship standing entering S.F.U. from Regional Colleges has increased beyond our projected figure. This was reflected in the "over-expenditure" of funds allocated to this area. It may be expected that this number will further increase.

A shortage of funds still prevents the Subcommittee from adequately rewarding high standards of scholarship, particularly in the 3.70 to 4.00 g.p.a. range. We are also hampered (frustrated) in our efforts to at least afford minimal recognition to students who attain very commendable g.p.a.'s (approximately 3.2). This is by now a somewhat perennial problem, however, the Subcommittee again wishes to draw your attention to this with the hope of sustaining (and accelerating) the apparent rate of improvement.

A further concern of the Subcommittee is the relative shortage of endowed scholarships. It is realized that such would accumulate more slowly, however, it is felt that every effort should be expended in the gradual build-up of this area.

Members of Senate are also reminded that a major change has recently been announced in the administration of Provincial Government Scholarships. As of April 1, 1973, 17% of the students in attendance (12 hours student basis) will receive a flat \$100.00 in cash. It is distressing that no differentiation will be made with respect to the academic standing of the students within this 17% group. In the past, the S.F.U. fine grade point range has been from roughly 2.8 to 4.3. This was formerly divided into First (3/4 tuition fee), Upper Second (1/2 tuition fee) and Lower Second (1/3 tuition fee). Although the lower range g.p.a. will presently make a small gain, the students striving to attain First Class standing will unfortunately be in effect penalized for their efforts. I have been given to understand that this change was in the making well before the recent Government changeover. I have discussed this matter with a senior Government Official and was left with the impression that more emphasis will be placed on the Bursary Program (fortunate) and less on the Scholarship Program (unfortunate). The new procedure has some inherent shortcomings which need not be discussed in detail here.

2. Simon Fraser University, Athletic and Recreation Awards

NOTE: It has been noted that these awards are still described as scholarships in the local news media. It should be emphasized that the above are awards, the receipt of which requires a set academic standing (ordinarily a 2.2 fine g.p.a. in the previous semester, minimum of 12 hours) and excellence in performance in a given area of athletics, recreational activity or cultural activity. At S.F.U., it was decided at its inception that these awards would be made in an above board manner, which is not necessarily the practice at other Canadian Universities. The performance level has and is expected to continue at a high skill level. It is this latter aspect which probably is the primary reason which has catalyzed such a mad scramble by the Western Canadian Athletic Conference to invent a "valid" reason why S.F.U. should not be admitted to that conference.

Awards Subcommittee

1) Fall 1972, Athletic and Recreational Awards Subcommittee

As an interim procedure a Subcommittee was established to administer business pertaining to Athletic and Recreational Awards for the 1972(3) semester only.

A. The Subcommittee Membership is as follows:

J. Borden	Chairman
R. Rennie	Science (Faculty Member)
R. Debo	Arts (Faculty Member)
S. Nicol	Student Representative (for first meeting only, no replacement for balance of semester.)
A. Unrau	Ex-officio
L. Davies	Ex-officio
M. Hendy	Ex-officio
B. Robertson	Ex-officio
D. Clarke	Ex-officio

B. Awards

The Subcommittee administered awards to 67 and 11 eligible nominees for Athletic and Recreational Awards, respectively.

Awards in individual sports were as follows:

<u>SPORT</u>	<u># OF PARTIAL AWARDS</u>	<u># OF FULL AWARDS</u>
<u>Men's Athletics</u>		
Basketball	8	12
Football	2	28
Swimming	0	9

<u>SPORT</u>	<u># OF PARTIAL AWARDS</u>	<u># OF FULL AWARDS</u>
<u>Men's Athletics continued</u>		
Wrestling	0	1
<u>Women's Athletics</u>		
Basketball	3	0
Field Hockey	3	0
Track	1	0
<u>Men's Recreational</u>		
Hockey	0	1
Soccer	8	0
Swimming	1	0
Water Polo	1	0
<u>Women's Recreational</u>		
No awards were made.		

For corresponding budgetary amounts, please see the appropriate section of Appendix A.

C. Other Significant Action

1. Two students, J.M. Ciccone and S. Graham were deleted from eligibility for S.F.U. Athletic Awards, since they were recipients of B.C. Government Awards for \$1,000.00 and \$500.00 respectively. (Reference: Minutes of Subcommittee, Thursday, October 5, 1972). The rationale was that S.F.U. Awards should be retained for those students who did not receive aid from other sources.

Messrs. Ciccone and Graham appealed the Subcommittee's decision and were successful in regaining eligibility for S.F.U. Awards. (Reference: Minutes of Subcommittee, Wednesday, November 8, 1972). The appeal was granted primarily on the basis of commitments in the respective Statements of Intent at the time the two student athletes agreed to attend S.F.U.

In addition, the Subcommittee agreed "that student athletes normally continue to be eligible for S.F.U. Awards regardless of their support from other bodies outside the jurisdiction of the University." (Reference: Minutes of Subcommittee, Wednesday, November 8, 1972). This decision allows athletes to receive the same type of treatment given to other students who are eligible for S.F.U. Scholarships, Awards and Bursaries regardless of their receipt of B.C. Government Scholarships and Bursaries, or any Award from private sources.

2. The Subcommittee made a particular effort to ensure that information concerning award winners was passed on to the University News Service. As a result, several favorable articles have appeared in B.C. newspapers, particularly in rural areas. (See Appendix B for the University Services news release.)

In addition, the Subcommittee developed and approved a data sheet entitled "S.F.U. ATHLETIC OR RECREATIONAL AWARD WINNER." (See Appendix C). This data sheet must accompany the award nomination for each athlete. Commencing in 1973(1) the data sheets will be turned over to the University News Service after the awards are given, and will be released selectively to local newspapers, particularly in rural areas outside the city of Vancouver.

II) Spring 1973, Awards Subcommittee

A formal Awards Subcommittee was established in 1973(1) to administer Athletic, Recreational and University Awards.

A. The Subcommittee Membership is as follows:

J. Borden	Chairman
R. Rennie	Science (Faculty Member)
R. Debo	Arts (Faculty Member)
W. Steward	Student Representative
A. Unrau	Ex-officio
L. Davies	Ex-officio
M. Hendy	Ex-officio
B. Robertson	Ex-officio
D. Clarke	Ex-officio

B. Athletic and Recreational Awards

The Subcommittee administered awards to 64 and 26 eligible nominees for Athletic and Recreational Awards, respectively.

Awards in individual sports were as follows:

<u>SPORT</u>	<u># OF PARTIAL AWARDS</u>	<u># OF FULL AWARDS</u>
<u>Men's Athletics</u>		
Basketball.....	6	13
Football	1	20
Swimming	0	10
Track and Field	0	4
Wrestling	0	3

<u>SPORT</u>	<u># OF PARTIAL AWARDS</u>	<u># OF FULL AWARDS</u>
<u>Women's Athletics</u>		
Basketball	2	1
Floor Hockey	3	0
Track	1	0
<u>Men's Recreational</u>		
Hockey	2	6
Soccer	6	0
Water Polo	2	1
<u>Women's Recreational</u>		
Volleyball	8	0
Special Award for Canoeing		1

C. University Awards

The Subcommittee administered University Awards to 25 eligible nominees for their contributions during 1972(3). Awards were granted for contributions in the following areas of endeavor:

- Student Government
- University Affairs
- Student Clubs
- Administration of Day Care Co-Op
- Administration of Residence
- Theatre
- Student Newspaper
- Others

D. Other Significant Action

1. In its meeting of October 5, 1972, the interim Athletic and Recreational Awards Subcommittee had passed the following two part motion:

"The Subcommittee recommends:

1. That the Athletic Department seriously reconsider the distribution of awards according to the number of participants in each men's and women's sport."
2. That in view of the increased number of participants in an increased number of sports, that the budget for Athletic Awards be increased accordingly."

At its meeting of January 12, 1973, the Subcommittee noted the need for increased support for athletes of both sexes in expanding athletic and recreational sports programs was even

more apparent than previously. Accordingly, and at the Subcommittee's request, the October 5, 1972 motion and the January 12, 1973 observations were formally communicated to the Vice-President, Administration, for consideration in the forthcoming budget deliberations (Reference: Letter from Borden to Suart, January 16, 1973).

3. Graduate Scholarships and Awards

R. Debo	Arts (Faculty Member)
T.J. Mallinson	Education (Faculty Member)
M. Shillow	Student Representative
A. Unrau	Science (Faculty Member)
D. Clarke	Convener

Since discussions regarding matters of policy and recommended procedures will obviously directly affect graduate students, a graduate student (e.g. President, Graduate Student Society) will be seconded to the above Subcommittee.

Because certain restrictions exist regarding candidature for scholarships funded by such bodies as the National Research Council and Canada Council, a very real need for S.F.U. Graduate Scholarships was identified. This is the second year in which ten annual S.F.U. Graduate Scholarships have been available. The competition for these awards is of a very high order and the Subcommittee fully supports the continued efforts by the Dean of Graduate Studies to increase the number of such scholarships.

The Subcommittee is presently examining the existent terms of reference relating to the distribution of graduate student stipends. These stipends (presently \$1,200.00 per semester - students ordinarily eligible for one such award in their degree program) are financed from the President's Research Fund. The awarding of these stipends is relatively routine and at this time, the necessary qualifications of the applicants are certified by the Office of the Dean of Graduate Studies.

The allocation of the 1972 S.F.U. Graduate Scholarships are shown in Appendix A. Allocations of Graduate Stipends are also shown in the same Appendix.

Appeals

The very nature of this term would imply that a separate "Appeals" Committee would have to exist. In view of this, appeals regarding sundry decisions of the of the Senate Scholarship Committee and those of the Subcommittees have been regarded as "requests for reconsideration". All such requests should be in writing so that they may be dealt with in an appropriate manner. It is fully realized that this is a very sensitive area, particularly as it relates to awards of bursaries and university awards where value judgments have to be made. The procedure for consideration of these requests is briefly summarized in Appendix D.

Emergency Loan Fund

This fund, originally made possible by individual donors, was set up to provide a short term interest free loan to students who, while in financial difficulty at present, expected to be able to repay this loan within thirty days.

Two significant events took place in 1972. On February 11, 1972, G. Suart transferred an additional \$4,000.00 into this fund when it appeared students would not be serviced due to lack of funds. Secondly, the Scholarship Committee approved a procedure whereby loans delinquent for more than eight months would be written off and the fund reimbursed for the appropriate amount.

Publicity

A greater effort is being directed toward informing potential S.F.U. students of the type of financial aid available at S.F.U., particularly in the areas of S.F.U. Entrance and Continuing Scholarships and Government Loans, Bursaries and Scholarships. Information leaflets, posters, etc. are being circulated to various schools and it is hoped that high school counsellors will make this information available to all teachers and graduating seniors who may be interested in investigating various programs offered at S.F.U.

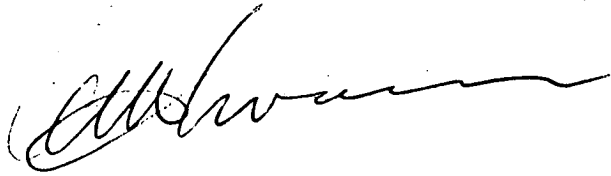

It is of course obvious that direct personal contact of S.F.U. officials with prospective students would be the most desirable and probably the most effective. It is the impression of the Chairman that the once apparent barrier which resulted from the various activities and consequent unfavorable publicity is gradually being removed.

An effort is also being made to announce, with the permission of the students involved, the winners of various S.F.U. Scholarships and Awards in the respective local new media. Since we strongly feel that S.F.U. has a worthwhile scholarship and award program, announcements of such awards will further contribute toward educating the B.C. community as to what our University has to offer.

The Chairman of this Committee has in the past and again wishes to raise the question of notation of receipt of awards, scholarships and prizes on student transcripts. I still receive transcripts of students from other universities which signify any awards, other than bursaries, which the student has received. Why does it seem so difficult to recognize our scholarship winners, medalists, etc. in a similar way? I would urge that this be considered in the respective quarters and instituted.

I wish to gratefully acknowledge the valuable input of the various members of the Senate Scholarship Committee toward the effective operation of the Committee.

Finally, I am confident that I speak for all the Committee members in paying tribute to Mr. D.L. Clarke and Mr. J. Falk and the entire staff of the Financial Aid Office for their efficient and invaluable services. The Committee could not function without their services. I am also grateful for the continued interest and support from senior administrative and academic officers of the University.

FINANCIAL AID FISCAL ALLOCATIONS

The following report consists of a review of the disbursements and in a few cases, procedures for those disbursements of the various types of assistance awarded to Simon Fraser University students during the past three semesters, 1972 - 1, 1972 - 2, and 1972 - 3.

CANADA STUDENT LOANS

The Financial Aid Office reviews, processes and makes recommendations to the Department of Student Affairs, Victoria, B.C. for all Simon Fraser students receiving loans from the Province of B.C. *.

This is a plan introduced by the Federal Government to assist students who, without loan assistance would be unable to pursue full time post secondary studies at a specified educational institution. The maximum loan for an academic year is \$1,400.00. Total loans to any student cannot exceed \$9,800.00. A loan of up to \$700.00 may be authorized for a single semester which is part of a longer program of study. Borrowers under the plan are required to repay principal and interest by regular monthly instalments.

Payments commence six months after the borrower ceases to be a full time student at a specified educational institution. No payments are made while the borrower is a full time student nor for six months thereafter. Interest during this period is paid by the Federal Government on behalf of the student.

Need for loan assistance is determined by Provincial Loan Authorities in accordance with administrative criteria established for use throughout Canada. A parental contribution table is an integral part of the criteria and it is applied in all cases where the student has not established financial independence by having married, or having completed successfully four full years of post-secondary education, or having reached the age of 21 years and having had at least twelve consecutive months full time employment. Students are expected to save a substantial amount of any income from summer or other employment. Lack of funds due to unessential spending may not be considered as unavoidable need for loan assistance. Students who apply for loans should consider carefully the repayment obligation being undertaken.

A student in need of a Canada Student Loan, must, as a first step, obtain an application form from the institution he plans to attend. The application must be completed carefully and accurately by the student, and where applicable, by his parents. Applications require declarations by both the student and his parents that all information provided is correct.

* It is estimated that \$35,000.00 - \$40,000.00 is borrowed by non B.C. residents through other provinces.

When the application is completed it must be submitted to the Financial Aid Officer of the British Columbia educational institution to be attended. Students planning to attend institutions outside of British Columbia, will send applications directly to: Student Awards Branch, Division of Post-Secondary Services, Department of Education, Parliament Buildings, Victoria, B.C.

If the student's application is approved, he will receive a Certificate of Eligibility. He then takes it to his bank and the loan is applied to his account. Students are advised to keep in constant touch with the bank from which they secure their loan.

Students are reminded that in order to retain their interest free status, they must obtain a Schedule 2 form from the bank and have their full time enrolment confirmed each semester by the Financial Aid Office.

Confirmation of enrolment must be obtained during the semester concerned and cannot be made retroactive.

B.C. GOVERNMENT BURSARIES

The Government of the Province of British Columbia annually provides funds to assist British Columbia students resident in the Province to commence or to continue an acceptable full time

program of post-secondary study at designated post-secondary educational institutions in the Province. Under special circumstances a bursary may be made available to a student from British Columbia who is pursuing a course of acceptable professional study at a designated institution in another Province of Canada when that course is not provided within British Columbia.

1. Eligibility

To qualify for the grant of a bursary (money that does not have to be repaid) a student must have achieved a passing grade - with no failure. For a student entering the first year of post-secondary studies from Grade XII, the qualifying course load is not less than six subjects. For an undergraduate proceeding to a higher undergraduate year, the qualifying course load consists of 15 units or 30 semester hours, *in two consecutive terms or semesters*. These bursaries are not granted to students in graduate studies, nor to those who are registered as "qualifying" or "unclassified".

Provincial Bursaries are available only to those students who demonstrate definite financial need and who are proceeding to an acceptable full program of post-secondary study comprising two consecutive terms or semesters in a specified university, public college or the British Columbia Institute of Technology. Separate application for a bursary is not made. The grant of a bursary will be considered on the basis of information provided on the form entitled "APPLICATION FOR FINANCIAL ASSISTANCE FROM PUBLIC FUNDS" which will be submitted by every student seeking financial aid through the Provincial Bursary program and the Canada Student Loan plan.

2. Submission of Application

Grade XII students may obtain the necessary application form and instructions from the Principal or Counsellor at their secondary schools. *Post Secondary students* will obtain the forms and instructions from the Financial Aid Officer of the institution they are attending. Applicants must take careful note of the submission dates stated on the application form. Applications for financial assistance must be submitted to the Financial Aid Officer of the institution to be attended by the applicant.

3. Dates for Application

Periods for application are most critical. Please consult the application form for exact dates of submission. Ordinarily, application is made six to nine weeks before the semester of utilization. Please note, late applications will not be considered by the Division of Post Secondary Education.

ANNUAL TOTAL \$212,880.00**

** This amount includes approximately \$30,000.00 carried over from Fall 71 - 3. Consequently, it is important to note that S.F.U. students received fewer Government Bursaries than in 1971. We attribute this decrease to the new regulations introduced in 1972, and also to the fact that students could not apply for a bursary only. It was mandatory for them to apply for a Canada Student Loan as well.

B.C. GOVERNMENT SCHOLARSHIPS

The Financial Aid Office awards Government Scholarships to the top 17% of the full time student body, provided they made application.* The amount of the scholarship varies from 3/4 to 1/3 of the fees depending on the students' G.P.A. These monies may be applied to the students next full time semester as long as it is within nine months of the date awarded. (AWARDED ON THE BASIS OF THE SEMESTER INDICATED).

S.F.U. OPEN SCHOLARSHIPS

As in No. III, these scholarships are awarded to undergraduates at S.F.U. who have demonstrated good academic standing in the preceding semesters. Unlike the B.C. Government Scholarships, these monies are taken from the General University Operating Budget.

1972 - 1

443 applicants, 329 rejections, 113 recipients*

S.F.U. BURSARIES

Each semester, S.F.U. provides many of the students with a considerable amount of money through the bursary program. The majority of this money is disbursed at the beginning of each semester.

* Since the funds are quite limited in this area, the G.P.A. remains quite high. This accounts for the large percentage of rejections. Approximately 72% over the three semesters.

with a smaller amount being disbursed in the form of emergency bursaries during the course of the semester. Below you will find an account of the money we have disbursed and the number of recipients over the past three semesters.

II. Regulations, Requirements and Criteria

In an attempt to be more responsive to individual differences we have modified our procedures to include a personal review of each application.

The factors considered in making bursary recommendations can be divided into the following two types:

- A. Major Factors - these are the most important factors in determining whether or not the student will receive a bursary.
- B. Minor Factors - these are more important in determining what specific amount the bursary should be, but if a combination of one or more of these minor factors gives an indication that the student has not fulfilled his duty in regards to the major factors, his bursary application may be rejected.

A. MAJOR FACTORS

1. The applicant must have achieved a minimum of 2.00 G.P.A. in his last semester of attendance, and should register in 12 hours to receive his full award.
2. What is the extent of the student's need? Since we are not in the position to be the major source of funds for any one particular student, the applicant's need should not be unreasonable in this connection.
3. By what methods and to what extent have the students financed themselves for the present and past semesters? This involves the general factors such as student loans, part time employment savings and parental contribution.
4. Has the student conducted his financial life in the best interest to himself as a student with limited income? A general look at his expenditure patterns will be done in this factor.

B. MINOR FACTORS

1. If the student resides with his parents and/or has not substantiated financial independence, his parental income will be a factor in the amount awarded.
2. If the student is married - how many dependents does he have; what is his or his spouse's annual income; are his expenses reasonable?
3. Mode of transportation, if he owns or drives a car - year, make and date of purchase are considered.
4. If the student works part time, his wage and hours per week are considered.

5. To what extent has the student financed his education through student and/or private loans.
6. A careful analysis of his budget in the light of normal expenses and his indicated income.
7. A close look at any other factors the student may have placed in the miscellaneous section.

In the case of an applicant that is rejected by the Assistant Financial Aid Officer, the application is reviewed upon consultation with the Financial Aid Officer, and in some cases, with the Chairman of the Senate Committee on Scholarships, Awards and Bursaries.

SIMON FRASER UNIVERSITY

BURNABY 2 B.C. TELEPHONE (604) 291-3219

IMMEDIATE

December 8, 1972

Academic scholarships valued at almost \$20,000 have been awarded to 148 Simon Fraser University students.

Funded by the University as well as private and commercial donors, the various scholarships range in value from \$75 to \$500.

Ian Vogelesang, of Burnaby, won a \$100 B. C. Hydro Scholarship. Ian, still only 17, is enrolled in his third semester at Simon Fraser. He skipped Grade 12, but his university learning experience began while still a Grade 11 student at Cariboo Hill Secondary School.

At that time Ian motorcycled up Burnaby Mountain every day after school to learn about computers at the Simon Fraser Computing Centre. He became so proficient that he was chosen by the University to author a computer program designed to help new students learn about the campus.

Ian's future plans call for further computer study or possibly research in pure math.

Although these scholarships are given solely for academic excellence, many of the winners exhibit talents and interests that are not exclusively academic. Vicki Weid, of Delta, who won a \$100 Simon Fraser Open Scholarship, recently received an athletic award from the University for her track prowess.

Another Open Scholarship worth \$100 went to Paula DiFonzo of Vancouver who spends much of her spare time in community work. Miss DiFonzo is a Girl Guide lieutenant, instructs in arts and crafts at Kitsilano Community Centre and is a teacher's aid at MacDonald Elementary School. Ron Verzuh, of Burnaby, also won an Open Scholarship worth \$75. His work as a photographer-writer on Simon Fraser's student newspaper, The Peak, recently earned him an award for active participation in university affairs.

NOTE TO EDITORS: This release contains a complete list of award winners and their addresses should you wish to extract local winners for follow-up stories.

Twenty-two Simon Fraser University students have won \$3,475 in awards for active participation in university affairs.

Winners must combine a good academic record with active contributions to the community or the University's social, cultural and administrative development.

Among those given awards for contributions to the University are Keith Gilbert and Peter Doherty - both members of Senate and the Board of Governors. Ronald Friesen was given an award for his efforts in the construction of a fitness track at Burnaby's Central Valley Park. Others won awards for their involvement in student government, promotion of essential student services and work at such University functions as last Spring's Open House.

The awards and winners are as follows:

Two athletes chosen to represent Canada in international competition are among 77 winners of athletic and recreation awards presented at Simon Fraser University for the fall semester.

Sheila Strike, a member of Simon Fraser's women's basketball team, wins a \$110 athletic award. Only 17-years-old, the West Vancouver native played with the Canadian national basketball team last summer touring China and Italy. In her second semester, she is considered an excellent prospect playing at both guard and centre.

Alex Deylin, captain of Simon Fraser's men's basketball team, wins a \$225 athletic award. A senior, he was chosen for Canada's national basketball team last summer. Recurrence of a knee injury, however, forced the Burnaby resident out of international competition.

The awards go to athletes competing in nine different sports at Simon Fraser. They include: 28 football players, 18 men and three women basketball players, 10 soccer players, eight swimmers, three women field hockey players, two divers, two water polo players, one ice hockey player and one track athlete. Winners must maintain a good academic standing.

Award winners are as follows:

An actress turned student and a zoology student turned composer are among 111 summer semester scholarship winners at Simon Fraser University.

Total value of the scholarships is \$14,425.

Mrs. Janet Richmond of Coquitlam who appeared in the movie "McCabe and Mrs. Miller" as one of Julie Christie's "girls" won a \$250 Regional College Entrance Scholarship for her 3.8 average out of Vancouver City College. She and her husband, Brian, a second semester Simon Fraser student, acted professionally for five years before resuming their studies. Mrs. Richmond would like eventually to teach.

Brent Straughn of Jasper, Alberta, with a B.Sc. in zoology from the University of Washington won a \$225 BMI (Broadcast Music Industry) Canada Ltd. Scholarship for work on his "enfilony" -- a 36-minute long multi-sensory work for orchestra, chorus, four-screen film, electronic tape slides and pollution devices. A graduate student in Behavioral Science Foundations and Communications Studies, Straughn has been working on "enfilony" for three-and-a-half years and will use it for his Masters thesis when completed this fall.

He has already received \$14,000 worth of donated services, material, grants and scholarships for work on the project.

Normally worth \$450, the BMI Scholarship was split in two this year with half the award money going to Straughn and the other \$225 to Bruce Davis, a teaching assistant in communication studies. Davis, the only non-student winner, was given the scholarship for his creative work in electronic music. A full list of scholarship winners is as follows:

The James H. Edwards Scholarship -- \$200 for a high ranking student in the arts: H. K. Parkinson (Surrey).

The Madge Hogarth Scholarship in Education -- \$250 each, for excellence in the Faculty of Education: Ursula Anton (Kelowna), Stephen Moss (Yarrow).

MEMORANDUM

Dr. A. Unrau, Chairman
Senate Committee on Scholar-
ships, Awards and Bursaries

From Mr. D. L. Clarke
Financial Aid Officer

Subject Appeals - re Funds administered by the S.S.C. Date September 28, 1972

At your request, I have written this draft outline relating to student appeal procedures as it relates to the Financial Aid Office.

Though each type of award requires its respective procedures, the following statement presents the general steps taken.

1. Ordinarily, all appeals are made in writing - addressed to the Chairman of the S.S.C.
2. Consideration:
 - 2.1 The Financial Aid Officer will usually review appeals. If positive action can be taken on his level, such will be done.
 - 2.2 If the appeal concerns an exception to the S.S.C. Terms of Reference or requires a unique interpretation, the Chairman of the S.S.C. will review and rule accordingly.
 - 2.3 Appeals requiring Committee approval will be placed on the agenda of the next subcommittee meeting and/or the next full committee meeting.

This procedure coincides with your statement as per the attached memo of May 24, 1972.
