MEMORANDUM

To..... Mr. Harry Evans.....
..... Secretary of SCUS.....
Subject..... Calendar Changes - AME Program.....

From..... Professor P. Stigger, Coordinator.....
..... Africa/Middle East Studies Program.....
Date..... 9th October, 1975.....

Following is a brief description of Calendar changes for the Africa/Middle East Studies Program.

These courses have been included under "Courses with Africa/Middle East Content" for the following reasons.

On p. 279 of the Calendar, the additional course, *Hist. 293-3 - Cultural and Intellectual History, is a presentation on History which has been omitted previously but would qualify if it contained sufficient Africa or Middle East content.

On p. 280 the courses noted below, approved by Senate in 1974 as part of the new Sociology and Anthropology curriculum, have been judged to contain sufficient Africa/Middle East course content to be used by students for credit towards the minor:

*S.A.	203-4	Race Relations
*S.A.	280-4	Peasant Society
*S.A.	463-4	Liberation Movements and Colonialism
S.A.	475-4	West Africa
S.A.	476-4	East Africa

*S.A.	495-4	Selected Regional Areas
*S.A.	496-4	Directed Readings in Anthropology
*S.A.	497-4	Directed Readings in Sociology

Courses marked with an asterisk count toward the program's requirements only when taught by faculty associated with the program. It is intended to designate the following courses (already included in the present program) with asterisks to indicate that students must check the content to ensure it is sufficient to count towards the minor. (NOTE: These courses are already included in the program; the intent is to clarify their status as variable content courses.)

*ARC.	272-3	Archaeology of the Old World
*ARC.	385-3	Fossil Man
*ECON	355-5	Economic Development
