

SIMON FRASER UNIVERSITY

S.77-123.

MEMORANDUM

To..... Mr. Harry Evan, Secretary,

Senate

Subject..

From Jack Blaney, Chairman,
Senate Committee on Continuing
Studies

Date... October 7, 1977

For Senate's information I enclose statistical reports on the University's extension credit programs and credit-free programs for the period September 1, 1976 to August 31, 1977.

The Senate Committee on Continuing Studies intends to forward to Senate, for information and discussion, a report on the status of and possible direction for continuing studies at Simon Fraser University; several policy issues will be identified.

SENATE COMMITTEE ON CONTINUING STUDIES

REPORT ON

EXTENSION CREDIT COURSES

September 1, 1976 - August 31, 1977

This report describes course and student enrollee figures for the undergraduate extension credit courses offered by the Departments and Faculties of the University for the period September 1, 1976 through August 31, 1977. Overall, 438 extension courses were offered: 364 on the campus, 49 at off-campus locations, and 25 as directed independent study (correspondence) courses. The total number of enrollees in these courses was 14,152 -- 21.5% of the total university undergraduate course enrollees for the same period. Further, the number of enrollees was 2,093 (17.4%) greater than for the period September 1, 1975 through August 31, 1976. While a large part of this growth is attributable to the greater number of course offerings (438 vs. 385 for 1975-1976), about one-fifth of it is due to an increase in enrollees on a per course basis (average of 32.3 enrollees per course for 1976-77 vs. 31.3 for 1975-76).

I. On-Campus Undergraduate Extension Credit Programs

During the period September 1, 1976 through August 31, 1977, three hundred sixty-four undergraduate courses were offered on campus during the evenings of the three semesters and during the Intersession and Summer Session. The number of courses offered was 7% greater than for 1975-76 (364 vs. 340). The total number of course enrollees was 12,823, an increase of 14.2% relative to 1975-76 (11,229 enrollees). The number of enrollees per course also increased, from 33.0 during 1975-76 to 35.2 during 1976-77.

...2

Note: For purposes of this report, an undergraduate extension credit course is defined as one that was offered on-campus for undergraduate degree credit after 4:30 on weekdays during the Spring, Summer, and Fall Semesters, during the days and evenings of Intersession (May-June) and Summer Session (July-August), or any undergraduate credit course offered off-campus.

The number of courses offered and the number of course enrollees, by faculty, for the three semesters of 1976-77 and the corresponding semesters of 1975-76, are presented in Table 1.

II. Off-Campus Undergraduate Extension Credit Programs

A. Kelowna Program

The number of course enrollees in the second year of the Kelowna Program was 211. This figure is 77 (57.5%) greater than for the first year of the Program (1975-76). Table 2 presents a summary of the number of courses offered and the number of course enrollees for the four semesters that the Program has been in operation.

B. Senior Citizens Certificate Program

The Senior Citizens Certificate Program began in January, 1977. Two courses were offered in centres in Burnaby with a total of 70 course enrollees.

C. Certificate Program in British Columbia Studies

This program began in January, 1977. One course was offered at the Vancouver Centennial Museum with 33 course enrollees.

D. External Professional Development Program

The Faculty of Education's External Professional Development Program was offered at Chilliwack, Kamloops, Kelowna, Penticton, Prince George, Salmon Arm, and Vernon. The total number of course enrollees was 359.

E. Environmental Education Program

This program, offered by the Faculty of Education, was held in Kamloops during the 1977 Summer Session. Two courses were offered with a total of 83 course enrollees.

F. Outward Bound Program

The Outward Bound Teachers' Practicum, offered by the Faculty of Education in cooperation with the Outward Bound Mountain School in Keremeos, was held during the 1977 Summer Session. Two courses were offered with a total of 19 course enrollees.

III. Directed Independent Study Courses

Eight Directed Independent Study (Correspondence) Courses were available in Semester '76-3, nine in Semester '77-1, and eight in Semester '77-2. A total of 554 course enrollees were recorded for the 25 course offerings, an average of 22 enrollees per course. The total number of enrollees for 1975-76, based on a total offering of 15 courses (5 different courses), was 134.

Ten Directed Independent Study Courses are presently available.

IV. Special Audit Students

Beginning in January, 1976, a number of regular day and evening credit courses were open to persons who wished to attend courses but who either did not desire or were not qualified for admission to the University. Thirty-eight persons enrolled on this basis during the period January-

August, 1976. For the period of this report, 109 persons enrolled as Special Audit Students -- 39 during Semester '76-3, ⁵¹48 during Semester '77-1, and 19 during Semester '77-2.
