S.79-13

To.....Senate.....	From..Senate Committee on Continuing..
.....	Studies.....
Subject.....Statistical Reports.....	Date..January 16, 1979.....

For the information of Senate the following reports, covering the period September 1, 1977 to August 31, 1978, are attached:-

Report on Extension Credit (Evening, Intersession, Summer Session and Off-Campus) Courses

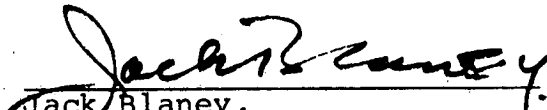

Report on Certificate & Diploma Programs

Report on Credit-Free Activities by,

- (i) Academic Departments
- (ii) Administrative & Academic Service Departments

The purpose of these reports is to provide basic statistical data on all Department and Faculty courses offered beyond the campus and the "regular" semester periods, and on all (or most) non-credit activities offered by university departments. The Committee notes that these reports do not constitute a report on the Office of Continuing Studies.

REPORT ON EXTENSION CREDIT COURSES

September 1, 1977 - August 31, 1978

For purposes of this report, the undergraduate extension credit course offerings and course enrollee figures for the period September 1, 1977 through August 31, 1978 are partitioned into on-campus (courses offered during the evenings - after 4:30 p.m. - of the regular semesters and during days or evenings of Interession and Summer Session), off-campus classroom based courses, and directed independent study (correspondence) courses. A summary of the numbers of course offerings of each type and the numbers of course enrollees by course type is presented in Table 1, together with comparison figures for 1976-77. Overall, a total of 14,802 course enrollees was recorded in the 500 undergraduate on- and off-campus and directed independent study courses of the Departments and Faculties of the University. The number of course enrollees was 3.4% greater than for the same period of 1976-77. Additionally, the number of enrollees in these courses represented about 22.4% of the total number of enrollees at the University.

I. On-Campus Undergraduate Extension Credit Programs:

The number of enrollees in the on-campus extension programs increased slightly (1.7%) during 1977-78 relative to 1976-77. However, the per course enrollment decreased slightly, from an all-time high of 35.2 in 1976-77, to 33.5 during 1977-78. A summary of the number of courses and course enrollees by Faculty for each programming period for 1977-78 and for 1976-77

is presented in Table 2. Although each Faculty except Arts showed a decline in course enrollees for 1977-78 relative to 1976-77, the differences are small and should not be regarded as presaging a trend.

II. Off-Campus Undergraduate Credit Programs

A summary of the numbers of off-campus courses, by program, and course enrollees, is presented in Table 3. The number of course enrollees in these programs increased by about 20% relative to 1976-77 although the per course number of enrollees dropped slightly to 14.6 from 15.3. Much of the increase in the number of courses offered off-campus during 1977-78 was possible because of additional funding by Universities Council for interior programming.

III. Directed Independent Study Courses

Thirteen different courses were available in this instructional mode during 1977-78, four more than during 1976-77. Ten courses were offered during the Fall Semester, 1977, with a total of 147 enrollees; 12 during the Spring Semester, 1978, with 247 enrollees; and 11 during the Summer Semester, 1978, with 236 enrollees. The total number of course enrollees was about 14% greater than recorded during 1976-77.

IV. Special Audit Students

The number of students attending classes as special audit students (neither for credit nor audit) was 168 for 1977-78. The number of such students during 1976-77 was 109.
