Acting under its delegated authority at its meeting of July 28, 1981, SCUS reported that it had approved change of description and change of prerequisite for CMPT 360-3 - Computation for Statistical Data Processing.

P. Cripps suggested that the information reports of the Senate Committee on Undergraduate Studies (through Papers S.81-120, 81-121, 81-122, 81-123) would be more useful if submitted in a summary, rather than synopsis, form. His position was supported by the student caucus. The Secretary provided a brief history of the terms of reference of SCUS and the decision of Senate to delegate certain of its powers to that Committee, with intent that SCUS exercise power of decision and that a number of relatively routine items that had occupied the time

S.M. 14/9/81

of Senate in debate and decision be removed to the SCUS level and that report to Senate be at its next meeting in a brief summary form. J. Munro expected that if more information is required than that now provided any interested Senator would request it from the Secretary. Some members indicated their desire for more routine provision of information. The Chairman noted the concerns expressed.

iii) Senate Library Committee

a) Paper S.81-124 - Annual Report - 1981/82

T. Dobb responded to a number of questions in connection with the operation of the Library. N. Reilly expressed concern regarding serial cut-backs which he said had caused considerable distress in some departments. He suggested that the closest possible cooperation is necessary between the Library and the affected departments.
