MEMORANDUM

ADDENDA I

To.....SENATE

From.....SECRETARY OF SENATE

Subject.....PAPER S. 81-126
.....S. 81-127

Date.....OCTOBER 2, 1981

1. The wording for Paragraph 3, marked with an asterisk (*) for Paper S.81-126 and S.81-127 was to be changed. The wording of those paragraphs, when the motion is made, will be as follows:

"To remain in a Minor or Major or similar program in [Business Administration] [Computing Science], a student will be expected to maintain a minimum level of CGPA of 2.25 or higher. The usual higher average requirement to continue in an Honors program will continue to be applied. If, after acceptance, the student is discontinued in a program then for re-entry the student must meet applicable new entry standards."

2. Paper S.81-127, page 3, item 3, will have added at the end a sentence on appeals, as follows:

"Appeals may be directed to the Chairman of the Department who will ensure that consideration is given as appropriate."

MEMORANDUM

To..... SENATE

From..... H. M. EVANS

SECRETARY OF SENATE

Subject..... SENATE MEETING, OCTOBER 5, 1981

Date..... OCTOBER 1, 1981

-
- I. Enrolment Limitations - School of Business Administration, S.81-126;
 - II. Computing Science, S.81-127
 - 1. Proposed Enrolment Limitations
 - 2. Proposed New Course CMPT 101-4;
CMPT 103-4 - Change of Title and Prerequisite

The Agenda and Support Papers for the October 5, 1981 meeting of Senate were distributed several days ago, with indication that Papers S.81-126 and S.81-127 were in draft form awaiting review and possible modification by the Senate Committee on Academic Planning and the Senate Committee on Undergraduate Studies. It was further indicated that if revisions were made the necessary new pages would be distributed on Friday, October 2.

Some changes for the two papers were approved by SCAP and SCUS and some new pages are necessary. The changes are such that they can be included in the blue motion sheets without necessity of reflecting them directly by full new support paper pages.

Specifically the support papers distributed earlier should be retained and brought to Senate (but do not show all modifications); the new blue motion sheets (S.81-126 and S.81-127 and dated October 1, 1981) distributed with this memorandum should replace the blue motion sheets distributed earlier.

These new blue motion sheets incorporate the changes and substance of the proposals in the original papers and should focus points for Senate discussion. The blue sheets as usual also are being used to give some indication of the items discussed at SCAP and/or SCUS.

Herewith are the new replacement blue sheets for:

S.81-126 - Enrolment Limitations - School of Business Administration
S.81-127 - Computing Science, etc.

It may be of some help to members of Senate, particularly new members, to note that Paper S.81-126 is a paper designed to vary some aspects of regulations approved one year ago by Senate relating to Business Administration.

Computing Science has not had regulations in those areas of enrolment restrictions. Paper S.81-127 is a paper designed to establish regulations similar to those of Business Administration of one year ago, with a lead-in section akin to the present varying action of Business Administration, i.e. to establish the base in the regulation section but to up-date it through the varying clause of the lead-in motion. The Computing Science proposals also contain some clauses not in the earlier or up-dated Business Administration proposal; some have proven to be somewhat controversial. Further information appears on the individual blue sheets from SCAP/SCUS.

1. The third paragraph of S.81-126 and of S.81-127 was noted at SCAP and SCUS to be incomplete. A rewording will be provided at Senate
2. A proposed wording to indicate the provision for appeals in the Computing Science paper will be provided at Senate.
