S.82.13

MEMORANDUM

To: SENATE

From: THE SENATE COMMITTEE ON UNDERGRADUATE STUDIES

Subject: (1) Bachelor of General Studies Regulations - Proposed Changes
(2) New Course - G.S. 498-10
Individual Study Project

Date: December 17, 1981

Actions undertaken by the Senate Committee on Undergraduate Studies at its meeting of December 1, 1981 give rise to the following motions.

MOTION 1:

"That Senate approve and recommend to the Board of Governors, the proposed changes in regulations for the B.G.S. degree, as set forth in S.82.13 as follows:-

From: "REQUIREMENTS FOR THE BACHELOR OF GENERAL STUDIES DEGREE

The Bachelor of General Studies is a non-specialist degree program in Arts, Education, Interdisciplinary Studies and Science. Students are not required to specialize in any subject. They may qualify with entry on records for a Minor or Minors in academic areas. They may not declare specific disciplinary Majors for credit on the B.G.S. degree program. Requirements for the degree are:

1. 120 academic semester hours with a minimum Grade Point Average of 2.0, including
2. At least 45 upper division hour credits.

With the exception of EDUC 401-8, 402-7 and 405-15, courses taken from any of the faculties may be used to satisfy the requirements for the degree, but students are cautioned that they are subject to the prerequisite requirements of the various departments. For this reason, it is essential that students entering the program contact the Dean's office for counselling and advising. Course loads of more than 16 hours per semester in lower levels work and more than 18 hours per semester upper levels work, require the written consent of the Dean of Interdisciplinary Studies or his/her delegate."

or Minors in academic areas. They may not declare specific disciplinary Majors for credit on the B.G.S. degree program. Requirements for the degree are:

1. 120 academic semester hours with a minimum Grade Point Average of 2.0, including
2. At least 45 upper division semester hour credits.
3. Completion of a Program of course work approved by the Faculty.

After a student first declares the B.G.S. degree as his/her academic goal, registration will require that an approved program of courses be on file in the office of the Dean of Interdisciplinary Studies. Students should normally consult a faculty advisor in the Dean's office before declaring the B.G.S. as their goal and the faculty advisor will work with the student to develop a program of courses to achieve the student's academic objectives. Students are encouraged to regularly consult with an advisor regarding their course selection and any significant deviation from the approved plan (i.e. a total of more than two courses) requires prior approval.

With the exception of EDUC 401-8, 402-7, 405-15, and Co-operative Education practicum courses and other practicum courses, courses taken from any of the faculties may be used to satisfy the requirements for the degree, but students are cautioned that they are subject to the prerequisite requirements of the various departments. Course loads of more than 16 hours per semester in lower levels work and more than 18 hours per semester in upper levels work, require the written consent of the Dean of Interdisciplinary Studies or his/her delegate."

Rationale:

Students taking advantage of the freedom inherent in the requirements for the B.G.S. degree could often improve their programs if they had appropriate advice. The modified regulations will ensure that a student discusses his/her academic goals with a faculty advisor and works out an approved program. It is not intended that approval for a proposed program will be unreasonably withheld (i.e. unless the courses selected appear to result in a program which is academically unsound, involves courses with substantial overlap, etc.).

Some further changes are expected to come forward later to Senate, but require consideration by the SUAB before coming to Senate.

MOTION 2:

"That Senate approve and recommend approval to the Board of Governors the proposed new course, G.S. 498-10 Individual Study Project.

Rationale:

Existing courses allow a student to take a 5 credit Individual Study Project or a 15 credit Individual Study Semester. In some cases a 10 credit project would be more suitable. Note that a student will not be able to use both G.S. 499-15 and G.S. 498-10 for credit towards a degree.
