#### CHANGE OF COURSE REQUIREMENTS FOR HONORS

FROM: Archaeology Majors who wish admission to the Honors program must hold a 3.0 Cumulative Grade Point Average and to remain in the program must maintain that average. Also necessary are: the successful completion of the Honors Reading and Honors Essay Archaeology courses, and 10 credit hours in other courses approved in advance, over and above the requirements for a Major. In addition, the following is required: successful completion of ARC. 376, or MATH 101, or CMPT 103 and 105; or PSYC 210, or a statistics course approved by the Department.

TO: Archaeology Majors who wish admission to the Honors program must hold a 3.0 Cumulative Grade Point Average, and to remain in the program must maintain that average. Also necessary are: the successful completion of the Honors Reading-ARC. 493-5 and Honors Essay-ARC. 499-5, and 10 credit hours in other courses approved in advance, over and above the requirements for a Major.

RATIONALE: The present wording allows students to meet the Honors requirements without taking ARC. 376 (i.e. by taking MATH 101 only). Since the requirement for a Major is MATH 101 (prerequisite to ARC. 376) and ARC. 376, this implies that the Honors requirement is less stringent than the Majors requirements.

## MEMORANDUM

To ALL FACULTY

From J. Nance

Subject Archaeology Degree Requirements

Date September 3, 1981

A couple of problems have arisen because of the wording used in our degree requirements (pp. 98 and 99 of the Undergraduate Studies Calendar). These need to be corrected.

Pg. 98 - second paragraph, first line, states: "Arc 223, 333, 335, and 480 may be substituted for any of the above group courses upon the written consent of the Department prior to registration."

My concern here is for substitutions for Group 1 courses. It is my understanding that our Group 1 courses were those we considered 'core' courses and felt that all students should have. In fact, three paragraphs later, we state exactly that (for majors). Group II are "technically-oriented" courses, and Group III are areal and topical courses. Thus, while 333, 335 and 480 (Special Topics and Directed Studies courses) could conceivably be properly substituted for Group 1 courses (if the content suggests a suitable substitution), Arc. 223 (Prehistory of Canada) is basically an area course (Group III) and probably should not be substituted for Groups I and II. Confusion and a lack of clarity about what may be substituted for what is creating difficulty for Ingrid in advising students.

I propose that paragraph 2, pg. 98, be replaced with the following:

Special Topics and/or Directed Studies courses may be substituted for Group II or III courses, provided a) the content of the Special Topics and/or Directed Studies course suggest a suitable substitution, and b) written consent of the Department is obtained prior to registration.

Pg. 99- last sentence, under "Course Requirements for Honors"

~~The present wording allows~~ <sup>to</sup> The way this is written means that students can meet Honors requirements without taking Arc. 376 (i.e. by taking Math 101 only). Since the requirement for a Major is Math 101 (prerequisite to Arc. 376) and Arc. 376, this implies that the Honors requirement is less stringent than the Majors requirement. //This final sentence also conflicts with the preceding sentence, which states that Honors students are required to complete:

"...10 credit hours in courses approved in advance, over and above the requirements for a Major."  
(emphasis added).

I propose that we drop the final sentence under "Course Requirements for Honors".
