

MEMORANDUM

SENATE.
.....
.....From..... SENATE COMMITTEE ON UNDERGRADUATE
STUDIES.....
.....Subject..... CHANGES - GERONTOLOGY.
.....Date..... 17 NOVEMBER 1983.
.....

Action undertaken by the Senate Committee on Undergraduate Studies at its meeting of November 15, 1983 gives rise to the following motion:

MOTION: "That Senate approve and recommend approval to the Board of Governors, as set forth in S.83-93 , the proposed changes in Gerontology, including:-

i). Replacement of GEOG 444-5 - Regional Planning II
by GEOG 382-3 - Population Geography

ii). Addition to the optional courses of
S.A. 460-4 - Special Topics (when given as
Medical Anthropology)

iii). New course: GERO 401-3 - Aging and the Environment"

SCUS 83-61

MEMORANDUM

Mr. H. M. Evans, Registrar and Secretary to the Senate Committee on Undergraduate Studies.	From Janet Blanchet, Faculty of Interdisci- plinary Studies.
Subject Gerontology Curriculum. Addition of optional courses.	Date November 8/83.

(ISC 83-22).

At a meeting of the Faculty of Interdisciplinary Studies Undergraduate Curriculum Committee held today members of the committee approved the following changes in the listing of Gerontology Diploma Program optional courses:

Removal of GEOG 444-5, Regional Planning II

Replacement by GEOG 382-3, Population Geography

Addition of S.A. 460-4, Special Topics, Medical Anthropology

Would you please place this item on the next agenda of the Senate Committee on Undergraduate Studies for consideration.

Enclosure.

Janet Blanchet

ISC. 83-22.

SIMON FRASER UNIVERSITY

MEMORANDUM

To Janet Blanchet FIDS	From Ellen Gee Gerontology
Subject S.A. 460-4 (Special Topics: Medical Anthropology).	Date Nov. 8, 1983

Further to the FIDS Undergraduate Curriculum Committee meeting of November 8, 1983, please place S.A. 460-4 (Special Topics: Medical Anthropology) on the list of optional courses for the Gerontology Diploma Programme. This was approved at the FIDS Undergraduate Curriculum meeting.

MEMORANDUM

To.....Members of the Committee.....

From...J. Blanchet, Secretary.....
Faculty of Interdisciplinary Studies
Undergraduate Curriculum Committee....

Subject...Gerontology Curriculum.....

Date...November 1/83.....

The Steering Committee of the Gerontology Program wishes to remove the following optional course from its Calendar entry:

GEOG 444-5, Regional Planning II.

The above-noted course should be replaced by:

GEOG 382-3, Population Geography.

I am placing this item on the agenda of the Faculty of Interdisciplinary Studies Undergraduate Curriculum Committee for your consideration.

J. Blanchet

SENATE COMMITTEE ON UNDERGRADUATE STUDIES

NEW COURSE PROPOSAL FORM

1. Calendar Information

Department: Gerontology

Abbreviation Code: GERO Course Number: 401

Credit Hours: 3 Vector: 0-3-0

Title of Course: Aging and the Environment

Calendar Description of Course:

Impact of the macro- and micro-environment as it affects the aged. This course will include discussion of planned housing and institutional living arrangements, territoriality and the need for privacy, home range and use of space, urban planning, responsive design of housing and care facilities, effects of relocation and institutionalization.

Nature of Course Seminar

Prerequisites (or special instructions):

60 semester hours credit. Recommended: GERO 300

What course (courses), if any, is being dropped from the calendar if this course is approved: None. When this course was offered in the past it was offered as G.S. 411-Selected Topics and as PSYC 456 - Seminar in Adult Development and Aging.

2. Scheduling

How frequently will the course be offered? Once a year

Semester in which the course will first be offered? 85-1

Which of your present faculty would be available to make the proposed offering possible? Dr. Gloria Gutman

3. Objectives of the Course

1. To acquaint students with current theories and issues relating to aging and the built environment.

2. To assist students in discovering how to develop and design more appropriate environments for the aged.

4. Budgetary and Space Requirements (for information only)

What additional resources will be required in the following areas:

Faculty

Staff

Library

Audio Visual

Space

Equipment

None

5. Approval

Date: NOV 7, 1983

8 Nov 83

GERONTOLOGY 401 - Aging and the Built Environment

Course Description

Impact of the macro- and micro-environment as it affects the aged. This course will include discussion of planned housing and institutional living arrangements, territoriality and the need for privacy, home range and use of space, urban planning, responsive design of housing and care facilities, effects of relocation and institutionalization.

Prerequisites: 60 semester hours credit. Recommended: GERO 300

Course Format

The class will meet twice a week. The general seminar format will be interspersed with field trips designed to familiarize students with various types of physical solutions to problems of daily living encountered by the aged.

Texts

Lawton, M.P. Environment and Aging. Monterey, California: Brooks/Cole, 1980.

Pastalan, L.A. and Carson, D.H. (Eds.) Spatial Behavior of Older People. Ann Arbor, Michigan: The University of Michigan - Wayne State University Institute of Gerontology, 1970.

Gubrium, J. Living and Dying at Murray Manor. New York: St. Martin's Press, 1975.

Additional articles may be assigned on a weekly basis.

Distribution of Marks

Each student will be required to participate in a group research project and complete a final examination. The group research project will count for 50% of the final grade in the course; a final examination will provide the other 50%.

Group Research Projects

The purpose of the group research project is to provide the student with first-hand experience in designing and conducting research relating to aging and the environment. It is hoped that this experience will make the readings and classroom discussions more meaningful and relevant, as well as give the student greater awareness of the life-styles, problems and treatment of the aged in our community.

Group Research Projects (continued)

a) Composition of Group

No attempt will be made to assign students to research groups. It will be the students' responsibility to find others with whom they can work. The total membership of any one group should not exceed five (5) persons.

b) Selection of Research Problem

Each group will be free to select its own research problem. In selecting a problem, the following considerations should be kept in mind:

- 1) is it relevant to a course on environment and aging?
- 2) is it readily testable?
- 3) can the testing be conducted within a reasonable period of time?
- 4) does it require elaborate equipment?
- 5) do the procedures required to investigate the problem meet ethical standards?

c) Submission of Research Proposal

Each group will be required to submit a research proposal, which must be approved by the instructor, prior to conducting the study. The research proposal should contain the following information:

- 1) a statement of the problem to be investigated;
- 2) a summary of prior research on the topic;
- 3) a fairly detailed description of the proposed methodology, including:
 - i) the number and type of subjects and how they will be obtained
(note: 20-40 will generally suffice for projects of this type);
 - ii) the measures that will be used;
 - iii) the procedures to be followed in conducting the study, including those designed to safeguard subjects' confidentiality

NOTE: Proposals and final reports should follow APA standards and styles. A guide for writing experimental reports based on the APA model is available from the instructor.

R = Required
S = Suggested

COURSE OUTLINE

GERONTOLOGY 401 - AGING AND THE BUILT ENVIRONMENT

<u>WEEK</u>	<u>TOPIC</u>	<u>READINGS</u>
1	Introduction	R - Lawton- Chapter 1; Pastalan & Carson - Chapter 3; Lawton, Greenbaum and Liebowitz - "The Lifespan of Housing Environments for the Aging"
2	The Macroenvironment: Geographic Distribution of the Elderly; the Community and Neighbourhood; Home Range and Use of Space by an Aging Population	R - Lawton - Chapter 2; Pastalan & Carson - Chapters 8 & 9; Gutman - "The Elderly at Home and in Retirement Housing: A Comparative Study of Health Problems, Functional Difficulties and Support Service Needs"
3	The Microenvironment: The Living Arrangements of Older People; the Residential Unit; Personal Space and Territoriality	R - Lawton - Chapter 3; Pastalan and Carson - Chapters 1,4 & 5; Koncelik - "Human Factors and Environmental Design for the Aging: Physiological Changes and Sensory Loss as a Design Criteria"; Lawton and Boden - "Wish for Privacy by Young and Old"
4	Planned Housing	R - Lawton - Chapter 4; Gutman - "Issues and Findings Relating to Multi-level Accommodation for Seniors"; Gutman - <u>Senior Citizens Housing Study: Report #3</u> S - Carp - <u>A Future for the Aged</u> ; CMHC - <u>Housing the Elderly</u>
5	Institutions for the Aged: I	R - Lawton - Chapter 5; Pastalan & Carson - Chapter 7; Wehl, H. - "On the Relationship Between the Size of Residential Institutions and the Well-Being of Residents" S - CMHC - <u>Nursing Homes and Hostels with Care Services for the Elderly: Design Guidelines</u> ; Moos and Lemke - <u>"Assessing the Physical and Architectural Features of Sheltered Care Settings"</u>

Field Trip

- 6 Meetings with Research Groups -
no classes

WEEK
