d) Paper S.84-21 - Final Exam Scheduling

Moved by T. Calvert, seconded by A. Wotherspoon,

"That Senate approve, as set forth in S.84-21, the proposals

i) To provide for a two-day break (Saturday, Sunday) between end of classes and the beginning of the exam period by shortening the exam period to twelve days. [This will eliminate the first day (usually Saturday) from the exam period. Normally exams will end on Friday (day eleven of the exam period two weeks after the end of classes)]

ii) To increase the number of time slots per day for exams from three to four.

[This is required to produce a generally conflict free exam schedule. The proposed start time for exams are 0830, 1200, 1530, 1900]

Exams will be scheduled on Friday and Saturday evenings, if required.

[These items will provide 33 time slots for day exams (11 x 3) and 11 time slots for evening exams. This number of slots is required to minimize timetable conflict problems].

iii) That in-class final exams are not to be held before the beginning of the examination period.

iv) That take-home final examinations may be assigned before the start of the examination period, at as early as is reasonable, but their return cannot be required until the commencement of the examination period."

Attention was drawn to the general background information and intent set forth in the transmittal memorandum. (Aspects of basic class scheduling are going forward from SCUS as a separate issue to Faculties for comments).

It was made clear the Student Society supports the proposals. Clarification was requested as to what classified a "final" examination and the Secretary provided brief background information and definition.

Speaking in favour of the motion, K. Rieckhoff expressed belief that the proposal was long overdue and went a long way in helping to ensure that instruction time will be used for instruction, exams will be held during the formal exam period and that there will be a reasonable break between the end of teaching and the beginning of exams.

In reply to concerns with regard to students writing three or four exams in one day and whether or not there was any formal course of appeal in such situations, Senate was assured that the administration would undertake all efforts to ensure that no student would be required to write four exams in one day and that the Registrar's Office will undertake to keep at a minimum the number of cases requiring three examinations on one day.

D. McDonald referred to the possibility of scheduling some evening exams on Saturday and of joint examinations in some cases for day and evening groups. K. Rieckhoff observed that there was no assurance that an evening student necessarily could be available during the day on Saturday and the Chairman noted the new provisions for examinations on Friday and Saturday evenings if needed. The Secretary indicated that there had been discussion at SCUS and that on this topic his office would be talking further, particularly with the Faculty of Business Administration and the Faculty of Education relative to some of these proposals.

T. Calvert indicated support for the proposal as a reasonable compromise, that it should be tried and if adjustments are required they should be based on experience. He intends to look in his Faculty at basic clash scheduling items.

R. Bruskiewich suggested that there be inclusion of a statement in the Calendar relative to examination conflicts and the requirement of no more than three exams in a day. A statement may also be placed on the exam timetable.

R. Brown expressed concern that the working of Item iii appeared to weaken some present regulations, was open to a variety of interpretations and requested clarification as to the intent. J. Munro indicated that it was not intended to change or weaken present policy but rather to give more direct emphasis and visibility to the items involved. Dropping of the phrase "in-class" in Item iii might render that item clearer.

Discussion ensued with a variety of opinions and suggestions being expressed as to possible alternatives. A. Wotherspoon moved that the proposal be referred back to SCUS for further consideration; there was no seconder.

Question was called on the main motion,
and a vote was taken.

MOTION CARRIED.

iii) SENATE COMMITTEE ON ACADEMIC PLANNING/SENATE COMMITTEE ON UNDERGRADUATE STUDIES

a) Paper S.84-22 - Extended Studies Diploma - Ethnic Relations

Moved by R. Brown, seconded by K. Rieckhoff,

"That Senate approve and recommend approval to the Board of Governors, as set forth in S.84-22, the proposed program Extended Studies Diploma - Ethnic Relations"

Given current financial restraints and the fact that PACUP was in the process of developing a statement on mission and academic planning priorities, R. Stewart opposed the motion on the grounds that consideration of new programs should be postponed until such time as PACUP comes forward with a proposal for the long-term planning and development of the university. Senate could then evaluate more clearly whether or not proposed programs are needed and in the best interest of the University.

K. Rieckhoff stressed the fact that this proposal would not cost the University any additional money or resources since it was entirely consistent on regularly offered existing courses and that it simply identified a coherent academic area which could be offered as a package to interested students.

R. Brown expressed belief that this kind of creative use of existing curriculum should be encouraged in times like this and indicated full support for the motion.

Question was called, and a vote taken.

MOTION CARRIED.

iv) EXECUTIVE COMMITTEE OF THE SENATE GRADUATE STUDIES COMMITTEE

a) Paper S.84-23 - Mathematics

Moved by J. Webster, seconded by K. Rieckhoff,

MATH 850-4 Numerical Linear Algebra

MATH 851-4 Numerical Solution of Ordinary
Differential Equations

MATH 852-4 Selected Topics in Numerical Analysis"

Question was called, and a vote taken.

MOTION CARRIED.

b) Paper S.84-24 - Approval of Credit For Short Courses sponsored by the Western Canadian Deans of Graduate Studies

Moved by J. Webster, seconded by N. Grant,

"That Senate approve and recommend approval to the Board of Governors, as set forth in S.84-24, the following motion:

'That the specialist Short Courses sponsored by the Western Canadian Deans of Graduate Studies carry one semester hour of credit' "

Question was called, and a vote taken.
