Mr. W. R. Heath

Registrar

S.C.C.S. Annual Report

Subject

From Stephen Duguid, Secretary

Senate Committee on Continuing Studies

Date October 15, 1985

Please find enclosed two statistical/informational reports on undergraduate extension credit courses and programs and credit-free activities of the Faculties and departments of the University for the period May 1, 1984 through April 30, 1985. These documents constitute the annual report of the Senate Committee on Continuing Studies.

Senate Committee on Continuing Studies
Report on
Undergraduate Extension Credit Courses
May 1, 1984 - April 30, 1985

Simon Fraser University is unique in its accessibility to the student seeking an undergraduate degree through part-time study. Half of SFU undergraduates are part-time students and while many attend classes on campus during the day, many others take advantage of the Evening, Downtown, Distance Education, Summer Session and Intersession, and Off-Campus programs which collectively comprise the Extension Credit Program. The full-time student also benefits from this range of programs and formats, being able to construct a more flexible course of study which can accommodate employment or other obligations. For the past five years, Extension Credit courses have accounted for between 26-28% of all course enrollees at the University and the Campus Evening Program alone accounts for 20% of the total undergraduate FTE.

In each of its forms Extension Credit at SFU is much more than a collection of credit courses being offered at different times, locations or in different formats. Each Extension Credit mode offers degree, certificate, or diploma completion academic programs for students who are unable to take full advantage of campus daytime study. Thus students from the Interior of the province and from the urban core of Vancouver, students who work during the day or can only attend university in the Summer, as well as students in prison, all have access to degree completion programs at Simon Fraser University.

This report describes the numbers of undergraduate extension credit course offerings and associated course enrollee figures of the Departments/Faculties of the university for the period May 1, 1984 through April 30, 1985. This data is summarized in Table 1 and in the following graph:

*Off Campus includes SFU Downtown, the Prison Education Program, and Faculty of Education degree completion and PDP courses in the Interior.

A total of 23,157 course enrollees was recorded in 723 extension credit course offerings during 1984-85, 2.4% (563) more enrollees than for the same period of 1983-84. The number of enrollees represented 28.1% of the total number of undergraduate enrollees at the university during 1984-85 (82,374). This increase is accounted for by the inauguration of the Prison Education Program in 84-2, that program adding 1,320 course enrollees in 81 courses to SFU during the 1984-85 year. With PEP data deleted, Extension Credit course enrollees would be down 3.4% from 1983-84, accounting for 26.5% of total university enrollees rather than 28.1%.

On Campus Extension Credit Programs

On Campus Extension Credit programs include the Evening Program which operates each semester, offering an average of 142 courses/semester during 1984-85, and the Summer Semester and Summer Intersession day and evening courses. The number of course enrollees in the on campus program was down 4.9% in 1984-85 (14,849 course enrollees vs 15,616 in 1983-84). As the data in Table 2 and the following graphs illustrate, Summer Semester enrollments account for the decrease both in terms of courses offered (-5.9%, 146 vs 152) and enrollment (-22.8%, 3,882 vs 5,030). The Faculty of Arts had the largest decrease in terms of courses (-18.6%, 48 vs 59) and enrollments (-37.6%, 1,211 vs 1,940) and while the Faculty of Education had an increase in the number of courses (+7.7%, 56 vs 52) the enrollments decreased (-18.6%, 1,228 vs 1,509).

The precipitous decline in the Summer Semester (84-2) is largely accountable to the budgetary uncertainties faced by the Faculties during the previous 6 month period. The Faculty of Arts in particular was reluctant to commit itself to a full Summer program because of the uncertainty about future resources. Stipends available through Extension Credit were able to support a full program in IDS and Business Administration, as well as in some Arts programs.

As the graphs and data indicate, the On Campus Program showed an overall increase for the Fall and Spring Semesters in terms of both courses and course enrollees. These increases are consistent with the fluctuation of data over the past four years. Evening Only students account for 13% of the total undergraduate headcount at SFU and with day students taking evening courses added, a full 20% of the total undergraduate FTE is generated through the on campus evening program.

Course Enrollees by Semester, 1981-1985
On Campus Extension Credit

Number of Courses by Semester, 1981-1985

Off Campus Undergraduate Credit Programs

The Off Campus Programs during 1984-85 consisted of the Downtown Program, the Faculty of Education degree completion and professional development programs in the Interior of the province, and the Prison Education Program. A summary of off-campus courses and enrollees is presented, by program, in Table 3.

Total enrollment in the Downtown Program was down 16% (1,684 vs 2,008) in 1984-85. This is attributable to there being eight fewer courses offerings (-10.5%) of which three were Business Administration courses with traditionally high enrollments. Preliminary indications from the 85-3 semester indicate that with an increase in the number of courses offered, enrollment has risen accordingly.

The new Prison Education Program mounted 81 credit courses in four centres during 1984-85, with a total of 1,320 course enrollees.

Distance Education Courses (Directed Independent Study)

Fifty-two undergraduate courses were available in this instructional mode during 1984-85. The total number of offerings of these courses was 113, seven more than in 1983-84. The total number of course enrollees was 4,963, an increase of 10.7% relative to 1983-84.

Special Audit Students

The number of people attending classes, day or evening, on or off campus, as special audit students during 1984-85 was 171.

Senate Committee on Continuing Studies

Report on
Credit-Free Activities, 1984-85

This report presents the range of meetings, lectures, conferences, symposia, seminars, media productions, professional development courses and other programs offered by Faculties and departments which comprise the credit-free continuing education activities of the University. In all cases, the focus for credit-free activities is on organizing educational opportunities for adults whose career, professional, and personal intellectual interests cannot be served by the regular credit program.

The report also includes credit-free activities offered by administrative units on campus for faculty, students and staff.

Credit-Free Programming Highlights, 1984-85

While there were a variety of credit-free programs during the course of the year, three developments in this area deserve special mention: the establishment of the School for Liberal and Professional Studies at the SFU Downtown site, the programming associated with the Northern Conference, and the establishment of an Office of Conference Services.

The School for Liberal and Professional Studies was established as a vehicle for organizing and marketing downtown-based (credit-free) continuing education courses on behalf of departments and Faculties. The School was approved by Senate in July, 1984 and began its first series of programs that September. Among new programs initiated this year were The New Enterprise Program, designed to strengthen the management skills of

technical innovators and entrepreneurs (sponsored by the Faculty of Business Administration), The Design Program, (sponsored through an Advisory Committee in the Faculty of Arts), and Liberal Studies for Managers and Professionals, (sponsored by the Institute for the Humanities). At this point in time, school program areas include The Writing Program, Liberal Studies, The City Program, Fine Arts, and Professional and Management Studies. In the Fall of 1985, the School is offering seventy individual courses and events. In its first year of operation the School has begun to establish a reputation in the downtown community and to achieve one of its major goals, the involvement of people in the community with special expertise, in the planning and teaching of programs.

The first event organized by the Northern Conference, "Circuit and Rural Court Justice in the North" was offered March 11 to 16, 1984, in Yellowknife, Northwest Territories. The meeting attracted over 200 delegates from across the North, a unique gathering for that region of Canada, and it met the Northern Conference's goal of establishing an education and information network to assist with the development of community-based justice services in the North. The Northern Conference has attracted substantial support and funding from government departments, legal agencies and private foundations. During this report period The Northern Conference received a major grant (\$180,000) from the Donner Canadian Foundation which, in addition to supporting program development, allowed the establishment of The Northern Conference Resource Centre in the Department of Criminology. The Resource Centre provides materials on program initiatives, resource persons and organizations, and research literature on northern and rural justice.

Within the Office of Continuing Studies, an Office of Conference Services was established to assist academic departments and other units of the University in program development and administration of conferences. As well, the conference office works with agencies, associations, business or other groups outside of SFU who wish to hold a conference or meeting at SFU or who request other kinds of assistance. During this past year eleven conferences were handled by this office, ranging from "George Orwell in 1984" (Department of English) to the "Canadian Association of Gerontology Annual Meeting".

REPORT ON CREDIT-FREE ACTIVITIES
