SUBJECT: Graduates

DATE: 25 May 1988

As promised at the May Senate meeting, I am pleased to provide data on the composition of persons recommended for Master's or Doctoral degrees from S.F.U. in 88-1. These data were collected by Ms. M. McGinn of the Registrar's Office.

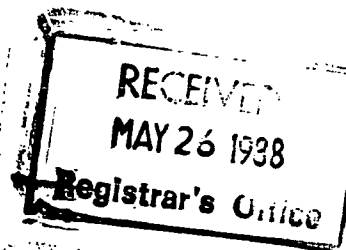

Without discriminating between Masters' and Ph.D. graduates, I divided the 99 graduates into the four categories shown below:

<u>Previous Degree From:</u>	<u>Number</u>
S.F.U.	32
Other Canadian	42
United States	6
Other	<u>19</u>
	99

There were three persons who received all three degrees (Bachelors', Masters', Doctorate) from S.F.U. If a more detailed breakdown would be useful, it would be possible to refine these data further.

It is interesting to compare these results with the data I reported to you in January 1986 on the composition of the graduate student body as of the end of semester 85-2:

<u>Previous Degree From:</u>	<u>Percent (Of 1,517 students)</u>
S.F.U.	34.1
Other Canadian	46.7
United States	5.9
Other	<u>14.3</u>
	100.0
