SIMON FRASER UNIVERSITY

DEAN OF GRADUATE STUDIES

Memorandum

TO: W.R. Heath
Registrar

FROM: B.P. Clayman
Dean of Graduate Studies

SUBJECT: Annual Report of the SGSC

DATE: February 3, 1994

I am pleased to enclose the 1993 annual report of the Senate Graduate Studies Committee.

Enclosures

c. M. McGinn

SIMON FRASER UNIVERSITY

Senate Graduate Studies Committee

1993 REPORT TO SENATE

The Dean of Graduate Studies is responsible for the general supervision of graduate work at the University and chairs the Senate Graduate Studies Committee. This report outlines the position of graduate studies at Simon Fraser University, describes some changes made in 1993 and makes recommendations for future directions.

The enclosed copy of the 1993 S.F.U. Graduate Studies Fact Book describes, in quantitative terms, the graduate student body in Fall 1993 and provides some retrospective data on completion rates. It is the fourth edition. It is designed to complement information in the Simon Fraser University Fact Book, produced by the Office of Analytical Studies.

I. Enrolments and Degrees

Table I shows the recent history of graduate enrolments and degrees granted. The FTE enrolment figures should be treated with caution on two grounds. Prior to the Fall 1989, they were determined through a reporting process which was subject to considerable variation between departments. Starting in the Fall 1989, a new, rigorous definition of Part-time status was adopted; this was primarily responsible for the large change in the (Head Count)/FTE ratio between 1988/89 and 1989/90. The official recognition of Part-time status and the introduction of a reduced semester tuition fee for Part-time students were major advances in improving the accessibility of our graduate programs. Programs approved for part-time study are listed in Appendix A.

As requested by Senate in January, 1989, I can report that the introduction of a formal requirement of competence in the English language proceeded very smoothly. A very small fraction of applicants recommended for admission whose first language is not English did not produce TOEFL scores of at least 570. Of these, a large majority submitted satisfactory other evidence of their English language competence. Most TOEFL scores are over 600. I have recently obtained information demonstrating the validity of two other tests, the IELTS and CanTest. Satisfactory scores on either will be also be accepted as evidence of English language competence.

II. Degree Completion/Withdrawal

Degree completion times are presented in the Graduate Studies Fact Book. It should be noted that these data do not take into account the possibility that a student may have been enrolled

part-time for all or part of the program and thus overstate completion times, especially for programs with large numbers of part-time students.

I remain concerned by what appear in many cases to be excessive times for degree completion. When resources are limited, it is especially important that they be used effectively and efficiently. I am actively encouraging departments to ensure both that their degree requirements are realistic and that their students make satisfactory progress, as required by Senate regulations, toward meeting those requirements. The Graduate Studies Handbook, first published in 1991, contains guidelines for supervisors and students that (if followed) should improve prospects for expeditious degree completion. I am also considering more rigorous enforcement of the regulations requiring annual progress reports.

I am also pressing for timely appointment of supervisory committees. In establishing the Graduate Studies Database, I encountered many students who had been here for several years, yet apparently had no supervisory committees. This situation has largely been remedied; each semester, reminders about 'delinquent' students are sent to departments by my office; a minor flood of committee recommendations follows.

Withdrawal rates are also presented in the Graduate Studies Fact Book. There are tremendous variations in rates between programs. The overall rates for the University as a whole are in line with the results of similar studies performed in the U.S. and with a similar study performed by the Canadian Association for Graduate Studies (of which I am past-President).

Nonetheless, I am very concerned about the low completion rates in some of our graduate programs. Withdrawal may be due to any one of or a combination of factors including: lack of ability, lack of motivation, lack of financial resources, health problems, and deficiencies in the graduate programs and/or their implementation. For several years, I assisted a Master's student in Education, Ms. Marianne Yeatman, who, as her thesis research, performed a study of students who withdrew from their graduate programs. The study had both statistical and anecdotal components and made some interesting generalizations about the importance of the factors outlined above. The thesis was successfully defended early in 1992 and is available in the S.F.U. Library. As of January 1, 1993, I have instituted an exit questionnaire to gather information about many aspects of our graduate programs from students who successfully complete their degrees and from those who withdraw. Because of the need for confidentiality, the results are analyzed only statistically, once enough students respond; analysis of the first data-set is now underway.

Meanwhile, I am continuing to press for improved funding for graduate financial aid. There had been some very substantial increases to the graduate scholarships budget in the two years preceding 1992. Unfortunately, in 1992 there was a significant reduction. I argued strenuously to reverse this action and provide increased support for graduate students; although the reduction was not reversed, there was a modest increase in funding for 1993. I am very pleased that the current agreement with Teaching Support Staff Union increased the Teaching Assistant stipend and reduced the workload. The latter factor will both allow students more time for their studies and will create additional teaching assistant positions, allowing more graduate students to receive appointments. Unfortunately, recent cuts to TA budgets have worked against these goals.

2.

III. Grades

The Graduate Studies Fact Book gives information on the S.F.U. graduate grades of the end of the Summer 1993 semester; it excludes students who had not yet taken an S.F.U. graduate course. Data were taken from the Registrar's data files and incorporated into and processed within the Graduate Studies Database system.

The tremendous range in the grade distributions among departments may stem from two causes: (1) differences in grading practices and (2) differences in the abilities of students. I believe that, most likely, it is a mixture of these with the former a larger contributor than the latter. This range is one of the reasons that I moved away from interdepartmental comparisons of CGPA in the ranking of applicants for S.F.U. graduate scholarships.

IV. Special Arrangements

The Senate Graduate Studies Committee serves as the Graduate Program Committee of students enrolled under Special Arrangements. I have given special attention to these students. With the goal of ensuring their satisfactory progress, I have brought all their supervisory committees into compliance with Senate's regulations and require up-to-date progress reports as a condition of registration. The response of students and supervisors has been excellent.

I am pleased to report that the defences of theses completed under Special Arrangements, which I chair, have all been quite successful. Table II provides data on degree completion.

Historically, Special Arrangements have been a high risk area; students either succeed or fail spectacularly. The number of students enrolled have remained roughly constant around 25. Degree completion has been highly variable: 3 in 1993, 4 in 1992, 6 in 1991, 2 in 1990, 3 in 1989, 4 in 1988, 7 in 1987, 6 in 1986, 2 in 1985, 6 in 1984, 1 in 1983, 2 in 1982, and 4 in 1981. Some other students have dropped out and others encountered health problems. By the steps outlined above and by continued rigorous adherence to the criteria for entrance into Special Arrangements, I hope to improve the success rate.

V. Administration

In September 1993, I agreed to accept a one-year acting appointment as Vice-President, Research, retaining responsibility for the Graduate Studies portfolio as well. Dr. Phyllis Wrenn of the French Department accepted a one-year half-time appointment as Associate Dean of Graduate Studies.

In September 1993, a \$40 application fee was introduced. Revenues are directed to General University Revenues and to my office in the proportion of 30:70. Most of the funds directed to my office are transferred to departments to assist in meeting the costs of recruiting, processing of the applications and student travel for research and conference attendance.

VI. S.G.S.C. Motions

A summary of the motions passed by the S.G.S.C., prepared by the Office of the Registrar, is presented in Appendix B.

VII. The Future

I remain cautiously optimistic about the future of graduate studies at SFU. Over the last several years, we introduced a number of new programs which are in the process of implementation. Several other exciting new program initiatives are presently in the planning process; some of these have received approval from the Senate Committee on Academic Planning to proceed with detailed planning. Others are before the Assessment Committee for New Graduate Programs, a subcommittee of the Senate Graduate Studies Committee. It will be essential to ensure that sufficient resources are allocated to support present and future programs, while maintaining high quality.

The quality of our existing programs is high, as is the quality of most of the thesis defences which I have attended. With rare exception, applicants recommended by departments for entry into Ph.D. programs have been very strong. Through aggressive recruiting of excellent applicants with the aid of entrance scholarships, rigorous enforcement of the present requirements for satisfactory progress, improved financial aid and careful monitoring of student supervision, it should be possible to improve further the quality of our graduate programs, and to decrease degree completion times and withdrawal rates, thus making more effective use of our resources.

At the time of writing (early February, 1994), a final decision on the continued combination of the positions of Dean of Graduate Studies and Vice-President, Research has not yet been made by the President.

B.P. Clayman
Dean of Graduate Studies

SIMON FRASER UNIVERSITY

MEMORANDUM

Report to Senate of the Activities of the Senate Graduate Studies Committee from January 1993 to December 1993.

Number of Meetings - 4

1. A sub-committee of the Senate Graduate Studies Committee was established to consider two graduate student appeals. Both appeals were denied.
2. Changes to the degree and supervisory committee requirements in Women's Studies were approved.
3. New Graduate Courses in History, Engineering Science, Kinesiology, Education and Psychology.
4. A Change in credit hours (from 3 to 5) was approved for Educ 864 and 867.
5. Graduate Curriculum Changes in the Schools of Computing and Engineering Science and the Faculty of Education.
6. Proposed programs for a Joint MBA/MRM, a Joint Ph.D. Program in Philosophy, M.A. in French and a new Ph.D. Program in English.
7. One Recommendation for Admission under Special Arrangements was approved.
8. The following motion to delegate authority was approved:

"That Senate delegate to the Senate Graduate Studies Committee the authority to grant final approval to all changes in prerequisites of graduate courses and changes in course titles and course descriptions where, in the opinion of the Dean of Graduate Studies, these represent minor changes in course content.

9. A change to Regulation 1.5.4 was approved as follows:

From:

A graduate student is required to maintain a CGPA of at least 3.0. A student failing to maintain a CGPA of 3.0 is automatically dropped from the program and required to withdraw from the University unless the Supervisory Committee or the Chair of the Graduate Program Committee recommends continuation in the program. Such recommendation is made to the Graduate Program Committee which, if it concurs, sends it to the Faculty Graduate Studies Committee for approval.

To: A graduate student is required to maintain a CGPA of at least 3.0. Failure to do so is evidence of unsatisfactory progress and the matter will be considered by the Graduate Program Committee as required under the procedure for the Review of Unsatisfactory Progress in Regulation 1.8.2

Simon Fraser University

Graduate Studies Fact Book

The Graduate Studies Fact Book provides a snap-shot of the Fall Semester student population, as well as retrospective data on program completion. The information is derived from enrolment data provided by the Office of the Registrar, supplemented by information gathered and processed in this office. It is largely complementary to the S.F.U. Fact Book prepared by the Office of Analytical Studies. Minor differences in enrolment figures exist between the two publications due to differences in the data collection interval. For the same reason, the data should not be used for inter-year comparisons.

Each section is headed by a graphical summary. In some cases, the summaries omit programs where the numbers reported are too small to be significant; the tabular data are complete.

It is hoped that this Fact Book will be a useful source of information for the campus community. This office can provide additional more specialized reports, if these are required.
