would be interpreted as follows, in accordance with usual procedures:

3 Faculty Members - Elected by and from faculty members jointly with no more than one to be elected from any Faculty

SIMON FRASER UNIVERSITY

MEMORANDUM

To: Senate and the
Board of Governors

From: Joint Ad Hoc Senate-Board
Committee to Review the
Composition and Terms of
Reference of the Presidential
Search Committee.

Re: Report on Formation of
Presidential Search Committee.

Date: May 15, 1995

The joint ad hoc Senate-Board Committee has reviewed the composition and terms of reference of the Presidential Search Committee approved by Senate and the Board of Governors in 1978 (Attachment A).

The ad hoc committee invited comments from the University community, subsequently deliberated at length and is now pleased to recommend to Senate and to the Board of Governors some proposed changes to the composition and terms of reference. Revised procedures are attached for your consideration.

The total membership recommended is 14 which is 2 less than previously. We have recommended the removal of one Board member, one Dean and one student and have added a representative from the Vice-Presidential group. It is our recommendation that, if the Vice-President, Academic is not a candidate for the presidency, the Vice-Presidents be encouraged to select the Vice-President, Academic to sit on the Presidential Search Committee. We have added this position because of the close working relationship the University President has with the Vice-Presidents. Contributions at the Vice-Presidential level will be of great value in the search proceedings.

Reducing the size of the Committee to 14 members means the Committee will be small enough to enable every member to be available for most meetings and yet large enough to allow for the necessary representation from campus constituencies.

When the Committee membership selection process is underway, we recommend that members of the Board of Governors who are not Order-in-Council appointees be encouraged to seek election through their constituencies.
