

Senate Committee on Academic Planning

ANNUAL REPORT - 1996

The Senate Committee on Academic Planning held 12 meetings in 1996. Most recommendations of SCAP go forward to Senate for information or further action. Therefore this report presents, in summary form, the major actions of the Committee.

PROGRAMS APPROVED FOR FURTHER PLANNING

When a new program is being considered, it is expected to be forwarded to SCAP for review at an early stage so that information about the program can be factored in to planning initiatives. This can also prevent the development of program plans which are considered beyond the scope and mission of the University. One program was considered for further planning in 1996, a proposed Masters Degree in Public Policy and Management, but this was referred back to the proposers for further consideration.

NEW PROGRAMS APPROVED

- BGS Integrated Studies
- Ph.D. Political Science
- Environmental Studies in the Faculty of Arts
- Co-op Option in MBA Program
- Non-thesis Course Option for M.Sc. Computing Science and Master of Liberal Studies
- Specialist Programs within the B.Sc. Computing Science:
 - Multimedia Computing
 - Software Engineering
- Joint Major in Art and Cultural Studies and Anthropology
- Joint Major in Art and Cultural Studies and Sociology
- Joint Major in Humanities and French
- Joint Major in Political Science and Economics
- Joint Major in Political Science and Women's Studies
- Joint Major in Anthropology and Archaeology
- B.Ed. Specialization in Mathematical Sciences
- M.Sc. in Earth Sciences
- Honors Program in Physics and Physiology
- Bachelor of Resource and Environmental Management (see below)

New degree initiatives are also considered by the Ministry's Internal Degree Program Review Committee and the Degree Program Review Committee (DPRC), before being forwarded to the Minister for approval. The Ph.D. program in Political Science received approval from the DPRC and the Minister, and the BGS Integrated Studies was received by the DPRC for information. The Bachelor of Resource and Environmental Management has not yet been approved by the Ministry.

The partnership agreement between the University College of the Fraser Valley and SFU regarding the Bachelor of Arts degree is being phased out. With regard to the Bachelor of Science program, the partnership agreement will be extended to September 1998 but beyond that UCFV will begin offering its own B.Sc. degree. There is a transition period for both degree programs.

CURRICULUM REVISIONS

This was the first year of a new curriculum revision process, with SCUS and SGSC being given responsibility by Senate to approve new courses and minor program revisions, subject to review by SCAP and Senate.

During the 1996/97 curriculum revision cycle, at the undergraduate level, 38 courses were added and 21 courses were deleted (compared with 91 courses added and 23 courses deleted in 1995/96). At the graduate level, 4 courses were added and 5 courses were deleted (compared with 45 courses added and 19 courses deleted in 1995/6). A further 15 undergraduate courses which had not been offered for six semesters were deleted.

ENROLLMENT MANAGEMENT (SCEMP)

SCEMP recommended targets for undergraduate admissions for 1995/96 which were approved by SCAP and Senate based on the funded enrollment projections. SCEMP also forwarded a recommendation regarding the international student intake targets.

OTHER MATTERS CONSIDERED BY SCAP

- External Review Guidelines
- Diverse Qualifications Admissions Policy
- Dissolution of the Spanish and Latin American Studies Department
- Remote Access (Modem) Policy
- Report of the Ad Hoc Committee on Course Scheduling
- A Context for Academic Planning
- Ad Hoc Committee on Planning Priorities
