HO, LAWRENCE

Hello one and all, since 1998 I have been fortunate enough to be elected to represent the students of SFU in Senate and numerous Senate Committees. With this experience I have gained a respect for the need for communication and mediation. I am open-minded and will listen to both sides of an argument and find the best answer to any topic. Being a student myself and understanding a student's needs I can bring in new different liberal views that can benefit both student and administration.

STEWART, RYAN

Senate Committee on University Honours (at-large Senator)

The Senate Committee on University Honours plays an important role at the university as it is responsible for selecting and honouring members of the university and larger communities for a fairly wide range of commendable activities. It is charged with designating individuals as officially honoured; in the case of honorary degree recipients, their noteworthy activities are effectively endorsed by the university, and taken by the larger community to be reflective of the university's values. I would greatly enjoy the opportunity to help select those individuals deserving of honour from Simon Fraser University, and would do my best to ensure that SFU's commitment to free and open learning, innovation, and community is reflected in the individuals we honour.

Senate Committee on University Teaching and Learning (at-large undergraduate student)

As a member of the Senate Committee on University Teaching and Learning I would provide a strong and considered student perspective on desired learning outcomes, grading policies, and instructional development needs. By actively seeking input from other students on these issues, I would provide a diverse and reflective picture of 'the student opinion' on university teaching and learning.

TO, SHEK YAN

Senator since Jan 99 Currently Serving on SCAR

Served on SCAP, SCUB SPCSAB, SUAAC, SCIA, DQAC, ESC, Calendar Committee

SCUH

I have been participating in most convocations in recent years as a member of the platform party and as an usher, while witnessing the presentation of honorary degrees to numerous recipients. In 30 years of SFU history, many faculty members and alumni are qualified to be recognized for their involvement in SFU. I believe that more honorary degrees should be given to those who make contributions to the SFU community and have close connections with SFU.

SCUTL

As a student, I take teaching evaluation as an important tool to express my opinions on the quality of the lectures. Supports from the Instructional Media Centre and the Academic Computing Services are important assistance to students' learning. I strive to improve the quality of teaching and learning at SFU.

VANSTON, CLAIRE

I returned to school at the age of 27, completing my B.A.(hons), psychology in three and a half years. The following fall I began my MSc (under special arrangements). My research for this degree addressed the effects of pregnancy on rodent sensorimotor and spatial performance. I successfully defended my Masters thesis in April of this year and began my PhD in the beginning of May.

I have been the recipient of two graduate entrance scholarships (C.D. Nelson - 1997-98; Bert Henry - 2000-01) and a PSG A NSERC Scholarship. I am currently serving as a voting member on the SFU Childcare Society. I am also a member of the SFU employment search committee for a new Director of the Animal Care Facility.

My doctoral work will address the effects of pregnancy on cognitive performance in women, to date research in this area has been extremely sparse.

YAU, DAVID

I am writing to express my interest in representing students in the Senate Committee on University Teaching and Learning (SCUTL) and Senate Committee on University Honors (SCUH).

As a third year student double major in Computing Science and Business Administration, I have volunteered most of my time on SFU community. My community involvements include Student Liaison in Business Administration Student Society, Alternate Undergraduate Representative in Senate Committee on Continuing Studies, and Business Forum Representative in Simon Fraser Student Society.

As the name Senate Committee on University Teaching and Learning imply, both teaching and learning components are equally important for the success of the university. If I am elected, I will work with the committee members towards win-win situation for both teaching staffs and students in SFU.

Thank you for your consideration and I hope you would choose me as undergraduate student representative for the committees mentioned above.
