Actions and Issues

The REB recommended the appointment of Dr. H. Weinberg as Acting Director, Office of Research Ethics in December 2001.

After a university-wide search for the permanent position, the REB recommended Dr. Weinberg's appointment as the Director effective April 2, 2002.

The Board developed and reviewed several documents relating to Ethics Review that were used by the preceding University Research Ethics Committee. The REB confirmed the procedures used by the UREC noting that they conformed to the recommendations of the Tri-Council review of SFU procedures.

Protocols procedures and forms were approved as follows:

Form 1	Request for Ethical Approval of Research
Form 2	Informed Consent By Subjects
Form 3	Informed Consent- minors or captive and dependent populations
Form 4	Subject Participation Feedback
Form 5	Subject Information Document
Form 6	Supplementary Information to Follow by Mail
Form 7	Checklist

The REB clarified the interpretation of several sections of Policy R 20.01 and its procedures during the course of its first year of operation including:

1. What constitutes data in the public domain?
2. When research is considered to be under auspices of the university.
3. The age of consent for minimal risk applications.
4. A monitoring procedure that would ensure the protocols and risks of studies in progress had not changed.
5. Initial discussions in reference to arrangements with the UVic REB for the co-ordination of appeal procedures.
6. The continuation of the TechBC approvals until the SFU REB has reviewed and approved the protocols.
7. Procedures for recording minutes of the REB were approved.
8. Definition of open and closed meeting of the REB: That all meetings of the REB shall be open except when applications are reviewed.
9. Procedure for rotation of REB terms: That one third of faculty members and one third of community members be replaced each year in order to assure continuity of experience on the REB.
10. It was agreed that one member of the REB be designated to develop general procedures for internet surveys.
11. It was agreed that in circumstances where unexpected events occur in a project and informed consent has not and cannot be obtained, the data cannot be used without approval of the REB.
12. It was agreed that if third parties, not under the supervision of the applicant, collect data for an project, there must be methods, approved by the REB, to insure anonymity and confidentiality when those are promised as part of the protocol.

13. It was agreed that normally all communication with research participants, including consent and information documents shall be in writing unless circumstances of the research prevent this. The REB authorizes the DORE to approve non-written consent statements in minimal risk applications.
14. It was agreed the deadline for submission of Course applications to REB for approval is April 1 for Spring Semester and August 1 for Fall Semester.
15. It was agreed that the deadline for submission of REB Ethics Approved Courses be April 1 for Spring Semester and August 1 for Fall Semester.
16. It was agreed to seek legal advice in the consideration of issues related to Limited Confidentiality.
