For Information

Simon Fraser University Senate Graduate Studies Committee Annual Report to Senate for 2006 February 2007

Submitted by Dr. Jon Driver, Dean of Graduate Studies

## Composition and Mandate of the Committee

The membership of SGSC in 2006 consisted of the Dean of Graduate Studies (chair), Librarian (or designate), the Director Graduate Records, Admissions and Registration, chairs of the six faculty graduate program committees, one other faculty member from each of the six graduate program committees, two graduate students, and the Graduate Issues Officer of SFSS. The Dean of Graduate Studies' secretary serves as secretary to the committee. The Associate Dean of Graduate Studies attends as a non-voting resource person.

SGSC has established a regular monthly meeting schedule, in an attempt to spread the workload of the committee more evenly over the year.

SGSC is responsible to Senate for admissions (delegated to the Dean), maintenance of academic standards, changes to existing programs, evaluation of new programs (via a subcommittee), and administration of the graduate general regulations. SGSC approves admissions under Special Arrangements (via a subcommittee), and may act as an appeal body for student progress reviews (via a subcommittee).

## Graduate Studies at Simon Fraser University

In 2006 masters programs and doctoral programs were being offered in each faculty (except the newly created Faculty of Health Sciences, that does not yet have a doctoral program). Graduate diploma programs were offered in all faculties. In addition, the Dean of Graduate Studies office administers the Special Arrangements Program that provides a home for students with individual interdisciplinary programs of study and research. Summary statistics on enrollments and award of degrees are available from the Analytical Studies web site (see Appendix B of this report for data on enrollments and credentials awarded).

### Enrollment and Graduation

Graduate enrollments in degree programs increased steadily from the late 1980's to the mid-1990's, remained relatively stable for a few years, and saw renewed increases since 2000 (see Appendix B). The recent increases in graduate degree enrollments early in this decade were probably due to a combination of factors: the development of new programs (such as the Masters of Public Policy or the MBA in Global Asset Wealth Management), the addition of programs at Surrey, the "Double the Opportunities" funding from the provincial government, and the recruitment of graduate students by new faculty members as they establish their research programs.

1

Total enrollments increased again in 2006 (12% increase fall 2005 to fall 2006, or a 6% annualized FTE increase). Pecentage increases were highest in graduate diplomas and in doctoral programs.

Data on credentials awarded are presented in the second table in Appendix B.

#### New Programs

Assessment Committee for New Graduate Programs (ACNGP) is a sub-committee of SGSC, responsible for the detailed assessment of new graduate degree programs, of which the most important element is an external review process. Since September 2004, the Associate Dean of Graduate Studies has chaired this committee. In 2006 ACNGP continued to be busy with new program development. Details are provided in Appendix A, and a summary of all new programs since 1981 is provided in Appendix C.

#### Funding for graduate students

Financial support for graduate students continues to be a concern, particularly as we have to compete for students with universities in provinces that provide a provincial scholarship plan and other provincially-funded recruiting incentives. Locally, UBC's policy of tuition scholarships for most PhD students has caused concerns about SFU's ability to recruit doctoral students, and this has been reflected in comments in a number of external reviews. In view of the increase in numbers admitted to our doctoral programs this concern may be misplaced; however, the Dean of Graduate Studies has collected evidence that some students do not attend SFU because of more competitive financial offers from other universities.

Total held in fall 2006 from federal granting councils are summarized in the following table. The number of awards held has increased by 34 since fall 2005. In addition to these awards, it should be noted that in 2006 an SFU master's student was awarded a Julie Payette NSERC scholarship. A doctoral graduate won an NSERC doctoral dissertation prize (only 4 awarded annually), the sixth year in a row that SFU students have been winners or runners-up of this prestigious prize.

SSHRC	SSHRC	NSERC	NSERC	NSERC	NSERC	CIHR	CIHR
MA	PhD	PGS-M	CGS-M	PGS-D	CGS-D	Masters	Doctoral
46	47	38	19	31	16	3	5

In 2002 the Dean created a small working group to examine graduate student funding at SFU. In 2003 the Working Group consulted with the university community on principles of graduate funding, undertook a survey of graduate students, gathered data on graduate student funding, and prepared a draft report. (See <u>http://www.sfu.ca/dean-gradstudies/survey.htm</u>) The report was made public (February 2004) and comments were received. Based on these comments, a plan was prepared for consideration by faculty deans, and following a number of discussions with that group a proposal was submitted to SPCSAB in early 2005. In 2006 Graduate Fellowships (forming about 75% of the SFU graduate scholarship budget) were allocated in a new way, with more emphasis placed on programs' success in graduating students.

The Dean of Graduate Studies has also attempted to make graduate student enrollment and funding management a more central concern of the University. As one step in this process, all graduate programs are now required to present their graduate student funding policy on a web site, so that potential applicants have clear information on financial support.

## Student Information System

2006 was the third full year in which Graduate Studies operated under the new student information system (introduced in October 2003). It was the third year in which we administered new tuition rules that were implemented because of the new information system. The third year of operation has seen improvements. Most students who were "grandfathered" under old tuition rules have graduated. Submission of electronic grades has become routine. The quality of transcipts has improved.

In 2005 we introduced an on-line application process for graduate programs. For 2005/2006 this was being run parallel to the paper application process. For 2006/2007 all applications are routinely received online. In 2006 more than 5000 applications were received, most of them electronically.

We have also been taking advantage of the database function of the student information system, and have supplied all programs with enrollment and completion statistics.

#### Appendix A Senate Graduate Studies Committee, Activities 2006

Meetings and content are described in the attached spreadsheet. Numerous minor program details were approved (new courses, new Calendar language etc.)

#### New programs

There is a two-stage process for approving new degree programs. A notice of intent and preliminary proposal is approved by SGSC and SCUP. The full program proposal is then developed, reviewed by ACNGP (including external review), and then approved by SGSC, SCUP and Senate. Graduate diploma programs and Graduate Certificates are approved by SGSC, SCUP and Senate.

In 2006 the following programs were given preliminary approval by SGSC: MA Humanities MA Applied Legal Studies MA Teachers of English Master of Digital Media Master of Financial Risk Management

No full program proposals were approved by ACNGP, although a number are currently being considered, and will probably be approved in 2007.

No graduate diploma program was approved by SGSC.

#### Cohort Special Arrangements

These programs are offered on a short-term basis, either to fill an immediate need for a specialized program or to allow a "trial run" of a proposed program. None was approved in 2006.

The appeals subcommittee of SGSC heard two appeals in 2006.

# Appendix B. Graduate Enrollment and Credentials Awarded

Note: figures refer to headcounts; no allowance is made for full-time, part-time and onleave status

% Ph.D.	14.1	16.1	12.4	17.0	14.0	12.9	12.2	9.5	11.5	13.9

The number of doctoral degrees awarded seems to be increasing, and we would expect a significant increase within the next few years, based on an overall increase in doctoral enrollments. The number of master's degrees awarded declined in the Faculties of Education and Business Administration. This is likely due to the dip in enrollments in those programs in 2003-2005.

## Appendix C. New program activity

Year of ACNGP approval	Program
1981	PhD, Education
1982	PhD, Computing Science
1983	PhD, Communication
1984	PhD, Criminology
1984	MA, Women's Studies
1984	MEng, Engineering
1984	MASc, Engineering
1985	MSc, Statistics
1985	MBA, Business Administration
1990	PhD, Engineering
1990	MPub, Publishing
1992	MA, Latin American Studies
1994	MA, Gerontology
1994	PhD, Linguistics
1994	PhD, Resource and Environmental Management
1994	MSc, Molecular Biology and Biochemistry
1994	PhD, Molecular Biology and Biochemistry
1995	MSc, Earth Sciences
1995	PhD, Political Science
1996	EdD, Education
1997	MET, Biological Sciences
2000	MBAMOT, Business Administration
2002	Masters of Public Policy
2002	PhD, Women's Studies
2003	PhD, Earth Sciences
2004	PhD, Business Administration
2004	MA, Interactive Arts and Technology
2004	MSc, Interactive Arts and Technology
2004	PhD, Interactive Arts and Technology
2004	MBA Global Assets and Wealth Management
2004	Master of Urban Studies
2005	MA Educational Technology
2005	PhD Educational Technology
2005	MSc Population and Public Health
2005	Graduate Diploma in Foundations of Global Health Studies

Note: all dates since 1985 refer to the year in which ACNGP approval was given. Dates for final approval and first admission of students may be slightly later.
