

SIMON FRASER UNIVERSITY

MEMORANDUM

To: Senate

From: Stephen T. Easton, Chair
Senate Policy Committee on Scholarships, Awards and Bursaries

Re: Annual Report (SPCSAB 08-10)

Date: 15 December 2008

I am pleased to submit the Annual Report of the Senate Policy Committee on Scholarships, Awards and Bursaries (SPCSAB) for the fiscal year 2007-2008.

Overview

SPCSAB is the committee charged by Senate with setting policy for the administration of awards, student scholarships, bursaries and other forms of financial aid at SFU. It should be noted that this is primarily for internal awards. Three other Senate committees, namely SUAAC (Senate Undergraduate Awards Adjudication Committee), SGAAC (Senate Graduate Awards Adjudication Committee) and SCUH (Senate Committee on University Honors) adjudicate awards to students where adjudication is needed. Financial Aid and Awards, a unit within Student Services, processes bursary applications.

For the 2007-08 fiscal year, base undergraduate entrance scholarship funding rose 6.6 percent to \$3.76 from \$3.5 million in 2006-07 as the number of awards increased from 774 to 809. However, total entrance scholarship funding fell by 2.4 percent since \$326,000 in special 40th Anniversary award funding ended. Some 1,359 Open Undergraduate Scholarships were awarded, an increase of 5.1 percent. These scholarships totaled \$1.58 million which constitutes a 9.1 percent increase from the previous year. In the Spring of 2008, Open Undergraduate Scholarship payment per credit hour was increased from \$100 to \$110 and the cumulative GPA cutoff was lowered from 3.70 to 3.67 to be consistent with a grade of A-.

The total value of graduate scholarships and awards funded by the Dean of Graduate Studies increased to \$5.65 million in 2007-08 an increase of more than 25% primarily due to the increase in graduate fellowships. Both the value of the Graduate Fellowship and the President's Research Stipend were increased by 4 percent to \$6,250. There were 665 GF's and 135 PRS awarded. The value of the C.D. Nelson Graduate Entrance Scholarship was increased by 5.5 percent to \$19,000. There were 29 recipients. Of the graduate scholarships and awards funded by GS, 73 percent was awarded through Graduate Fellowships, 15 percent for the President's Ph.D. Research Stipends, 5 percent for the C.D. Nelson Entrance Scholarships, and the remainder for Special Graduate Entrance Scholarships. The total support a graduate student is permitted to receive from University sources was increased from \$42,000 to \$50,000.

In addition to the \$5.65 million from Graduate Studies budget, scholarships and fellowships funded by the Schools and Faculties added another \$371,000. In addition, \$711,000 was awarded to SFU graduate students from other internal sources of funding. Thus the total value of internal scholarships and awards for the period 2007-2008 is \$6.73 million. To put this in context, external funding from national, provincial and other scholarships and awards added an additional \$6.33 million in support. Thus total graduate student fellowship, scholarship, grants and other support to SFU students during 2006-07 was \$13.06 million.

In the 2007-08 reporting year, Financial Aid and Awards saw a fall of 6% in the number of applications for bursaries to 5,884 applications with a total calculated financial need of \$5.96 million. This represents a decrease in student financial need of \$181,000, or 2.9%, from the previous year.

Individual undergraduate student bursaries for domestic and grandfathered international students received bursaries at an average of 95% of assessed need in 2007-08, an increase of 2 percentage points over the previous year. Including fee schedule A international students and all other students meant that the average share of assessed need awarded was 78 percent, a 3.5 percentage point fall from the previous year. The total value of University funded undergraduate bursaries awarded fell from \$4.33 million to \$3.94 million. Graduate bursaries awarded increased by 6 percent to \$724,000.

The number of SFU students applying to StudentAid BC increased by less than one percent in 2007-08. This was accompanied by a similar increase in the total value of awards received. The total number of undergraduates receiving British Columbia Government and Federal Student Assistance student loans and grants remained unchanged at 14,058. These totaled \$41.9 million unchanged from 2006-07. The number of student loans and grants received by graduate students increased by 11 percent while the total amount received remained increased by 9.6 percent to \$2.3 million.

Simon Fraser University continued to fund the Work-Study Program with 409 Undergraduate awards costing \$447,000 and 39 graduate awards costing \$48,700. This is the fifth year in which the University has funded these awards since the Province discontinued them.

Other notes of interest:

- The Province has developed the Pacific Century Graduate scholarship each worth \$10,000 in a program that will run for four years. SFU will receive 202 of these scholarships during this period. Forty-six awards have been made during 2007-2008.
- 13 national, 9 provincial and 14 local winners of the Canada Millennium Scholarship Merit Awards attended Simon Fraser.
- SFU undergraduate students received over \$681,000 in external scholarships, awards and bursaries up 25% from a year earlier.
- Total disbursements of Athletic awards increased by 20 percent to \$600,000 primarily as a result of increases in endowed awards and a doubling of recreation leadership awards.

- The SPCSAB has begun the process of trying to identify what measurable effects financial assistance has on outcomes. A first pass at this question may be found at:
http://www.sfu.ca/irp/special_reports/documents/financial.aid.2006.pdf
- A pilot program encouraging graduate students' travel to undertake their research or to attend conferences to present their results has supported 449 recipients.
- The Graduate International Scholarship initiative supporting master's and doctoral research abroad made 25 awards of \$6,250.

Office of the Dean of Graduate Studies

Report to the

Senate Policy Committee on Scholarships, Awards and Bursaries

2007-2008

REPORT

Graduate Scholarships, Bursaries and Awards Budget

Financial Summary of Graduate SBA Budget Fiscal Year 2007-2008

Office of the Dean of Graduate Studies

Annual Report

Graduate Scholarships, Bursaries and Awards Budget

2007-08 fiscal year

At the October meeting of the SPCSAB last Fall, the structure of the annual report to Senate was discussed. As a result of that discussion the former Dean (Jon Driver) recommended adding the following information to the graduate portion of the SPCSAB's annual report.

1. The total amount of scholarship funding administered through Graduate Studies that derives from the University operating budget, but is not part of the Graduate SBA budget. For example, this would include scholarship programs funded out of departmental or faculty operating budgets.
2. The total amount of scholarship funding administered by Graduate Studies on behalf of external agencies such as the federal Tri-Councils, the BC Ministry of Advanced Education, and private foundations such as the Michael Smith Foundation for Health Research.
3. The total amount of scholarship funding that derives from endowments managed by Graduate Studies.

This data has been compiled and is detailed in the document "Expense Summary of Graduate Award Funds Administered by DGS: Fiscal Year 2007/2008". As well, our annual "Financial Summary of Graduate SBA Budget" Report has been expanded to include the total number of award recipients and corresponding expenses by award category, by academic term, and for the fiscal year. Lastly, a breakdown of GF allocations for the past five years has been included in this report for information purposes.

Also in Spring 2007, the Province announced funding for 2,500 new graduate student spaces in B.C. over the next four years. A portion of this new funding was targeted to the **Pacific Century Graduate Scholarships (PCGS) Program** over four academic years (2007 to 2011). The total number of scholarships SFU received for the four-year period is 202. **Forty-six** PCGS awards of \$10,000 each were disbursed to new graduate students in Fall 2007 and Spring 2008, for a total of \$425,000.

To make improvements to graduate student funding, the following new initiatives and changes were implemented in academic year 2007-08.

Travel and Minor Research Awards Program: Approved by SPCSAB and introduced as a pilot program in May 2007 to encourage graduate students to attend conferences to present their research or to travel to undertake their research. Students can also incur non-travel costs directly associated with their research or conference presentations. A total of \$250,000 was allocated from the Graduate SBA. There were 449 recipients who received awards ranging in value from \$40 (for conference registration only) to \$2,300 to travel to present a paper at a conference. Actual disbursements totalled \$204,177 for FY 2007-08. The SPCAB approved a second year of funding (\$250,000) for the GIS program for FY 2008-09.

Graduate International Scholarships initiative implemented in Spring 2007. These awards, each valued at \$6,250, provide support to master's and doctoral students who must travel abroad in order to undertake research for their degree requirements. Twenty-five awards were allocated during FY 2007-08 for a total of \$150,000.

Award Values: The value of the **Graduate Fellowship** was increased marginally by \$250 to \$6,250 for both masters' and doctoral students to reflect increased costs of living and tuition. In FY 2007-08, 665 GFs were disbursed for a total of \$4,116,250.

The value of the **President's Research Stipend (PRS)** was also increased to \$6,250 to maintain its parity with the GF. The number of PRS stipends is strictly dependent on demand. There were 135 applicants during FY 2007-08 for a total of \$829,250 – an increase of \$133,250 over the 2006-07 FY. The PRS uptake will continue to increase annually due to mandated increases in doctoral enrollments.

The value of the **C. D. Nelson Graduate Entrance Scholarships** was increased by \$1,000 to a total of \$19,000 per annum.

Scholarship Income: The total funds per annum that a graduate student could receive from scholarship/fellowship/awards support was increased from \$42,000 to \$50,000 per annum in AY 2007-2008.

GF Budget Allocations and Expenditures by fiscal year (5 year period)

2003-2004	2004-2005	2005-2006	2006-2007	2007-2008
MA/MSc 332	MA/MSc 395	MA/MSc 295	MA/MSc 293	MA/MSc 330
PhD 164	PhD 216	PhD 240	PhD 224	PhD 335
Total GFs 469	Total GFs 611	Total GFs 535	Total GFs 517	Total GFs 665
@ \$4,800 - \$6,000	@ \$6,000	@ \$6,000	@ \$6,000	@ \$6,250
Cost: \$2,802,000	Cost: \$3,666,000	Cost: \$3,204,000	Cost: 3,102,000	Cost: \$ 4,156,250

Graduate SBA Budget:

The appended Table "**Summary of graduate SBA Base Budget Allocations – Fiscal Years 2004/2005 through 2008/2009**", outlines the annual base budget allocations and corresponding base cuts during the past five fiscal years. While the Graduate SBA Budget has grown in spite of several base cuts, it is not keeping pace with funding needs as a consequence of provincially mandated graduate enrollment targets.

I will be pleased to provide further clarification or explanation at the next meeting of the Senate Policy Committee for Scholarships Awards and Bursaries.

Wade Parkhouse, Dean of Graduate Studies

BALANCE

Net Balance at Fiscal Year End (March 31, 2008) **356,591**

Notes:

(1) Eighteen C.D. Nelson Scholarships are normally awarded each academic year and paid over three terms starting in the Fall term. The figures reported include academic year 2006/2007 award winners (receiving their last award installment corresponding to Summer 2007) and academic year 2007/2008 award winners (receiving their first two installments corresponding to Fall 2007 and Spring 2008).

(2) One C.D. Nelson scholarship was prorated to 1/3 of the value of one full scholarship, in order to keep within the \$42,000 maximum scholarship funds allowed per student.

(3) The award value of C.D. Nelson Scholarships was increased from \$18,000 to \$19,000 effective September 2007.

(4) The award value of Graduate Fellowships was increased from \$6,000 to \$6,250 effective September 2007.

(5) The award value of President's PhD Research Stipends was increased from \$6,000 to \$6,250 effective September 2007.

(6) Funds for the new Travel & Minor Research Awards program were assigned to graduate programs for allocation to students at the discretion of each individual program. The number of award recipients is an approximate figure, and is based on documentation submitted by graduate programs to support funding requests made to the Dean of Graduate Studies.

ENTRANCE SCHOLARSHIPS

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

This report provides entrance scholarship data specific to intake and retention. Entrance scholarships are available to new applicants to SFU, who, at the time of admission to the University, demonstrate academic excellence or a combination of extraordinary personal achievement and academic excellence.

1. New admits

The table below is a summary of all the entrance scholarships and awards that SFU offers to new students.

TABLE 1: AWARD AND SCHOLARSHIP AMOUNTS

Award	Amount
W. Ronald Heath International Entrance Scholarship	\$40,000
BC Secondary Simon Fraser Entrance Scholarship	\$34,000
Simon Fraser Alumni Leadership BC Secondary Entrance Scholarship	\$29,000
Gordon M. Shrum National Entrance Scholarship	\$25,000
Gordon M. Shrum BC Secondary School Entrance Scholarship	\$24,000
Shrum Shad Valley Entrance Scholarships	\$24,000
Lloyd Carr-Harris Scholarship	\$20,000
William M. Hamilton College Transfer Entrance Scholarship	\$10,000
Dean's Scholarships (Applied Sciences, Arts and Social Sciences, Business Administration, Education, Health Sciences, Science)	\$7,000
BC Secondary School Academic Excellence Entrance Scholarship	\$5,000
H. Y. Louie Entrance Award	\$5,000
Lohn Foundation Entrance Award	\$5,000
Jack Diamond National Entrance Award	\$4,500
Kenneth Strand National Entrance Scholarship	\$4,500
BC Secondary School Jack Diamond Entrance Award	\$3,500
BC Secondary School Summit Entrance Scholarship	\$3,500
International Summit Scholarship	\$3,500
Ken Caple College Transfer Entrance Scholarship	\$3,500
Tadeusz Specht Memorial Scholarship In Applied Science	\$3,500
Tadeusz Specht Memorial Scholarship In Science	\$3,500
Aboriginal Student Entrance Award	\$2,500
Community Entrance Awards	\$2,000
SFU Surrey Entrance Awards	\$2,000
TV5 Entrance Scholarships For French Cohort Program Students	\$1,000
Columbia College Entrance Scholarship	varies
Mona F. East Memorial Scholarship	varies

TABLE 1: AWARD AND SCHOLARSHIP AMOUNTS

Award	Amount
Rotary Club of Vancouver Sunrise Entrance Scholarship	varies

Intake for the Fall 2007 (Fall 2007) scholarship cycle

Admission to the Fall term is our largest intake of entrance scholarship and award students. The majority of the students still come from secondary schools in BC, although there has been a slight increase in students who received a scholarship (the Kenneth Strand scholarship) and are studying outside of BC. We have an acceptance rate of approximately 33% of all offers made for Fall 2007.

Starting in Fall 2007, there was a new award (Academic Excellence scholarship) offered automatically to all high school students with an admission average of 95% or higher. This means that students who would have normally received a \$3,500 Summit scholarship (awarded automatically to students with a 90% average) were upgraded to the \$5,000 Academic Excellence scholarship provided their admission average was at least 95%. This accounts for the decrease in Summit scholarships awarded in Fall 2007 compared to Fall 2006 (since students were awarded the Academic Excellence scholarship instead). Other new awards that were launched in Fall 2007 included the \$2,500 Aboriginal Student Entrance Award (for First Nations students), and the \$7,000 Dean's Scholarship in the Faculty of Health Sciences.

TABLE 2: SCHOLARSHIP OFFERS VS FINAL REGISTRANTS (DISBURSED) FOR FALL 2006 VS FALL 2007

Award	Fall 2006		Fall 2007

William M. Hamilton College Transfer Entrance Scholarship	4	4	2	2
Total	2,258	774	2,476	809

The next two tables (Table 3 and 4) show the number of new scholarships and awards offered to students in the Summer and Spring terms. The acceptance rate for Summer 2007 increased from Summer 2006 (45% uptake rate in Summer 2007 compared to a 24% uptake rate in Summer 2006).

TABLE 3: NEW AWARDS DISBURSED FOR SUMMER 2006 VS SUMMER 2007

Award	Summer 2006		Summer 2007	
	Offered	Disbursed	Offered	Disbursed
40th Anniversary Award	8	0	1	1
BC Secondary School Summit Entrance Scholarship	17	3	14	3
International Summit Scholarship	9	5	5	2
Ken Caple College Transfer Entrance Scholarship	11	4	8	6
Kenneth Strand National Entrance Scholarship	3	0	1	1
Phi Theta Kappa International Summit Scholarship	0	0	1	1
William Hamilton College Transfer Entrance Scholarship	2	0	0	0
Total	50	12	31	14

¹ There are fewer recipients for the Tadeusz Specht scholarship for Fall 2007 because the terms of reference for this award, including the amount (from \$3,500 to \$10,000) was being revised and was not approved in time for the Fall 2007 intake.

The acceptance rate for Spring 2008 decreased slightly from Spring 2007 (51% uptake rate in Spring 2008 compared to a 64% uptake rate in Spring 2007). But the total number of awards accepted for Spring 2008 was slightly higher compared to Spring 2007.

TABLE 4: NEW AWARDS DISBURSED FOR SPRING 2007 VS. SPRING 2008

Award	Spring 2007		Spring 2008	
	Offered	Disbursed	Offered	Disbursed
International Summit Scholarship	5	2	13	7

2. Scholarship retention

The success rate for scholarship students getting their second installment (normally requires a 3.0 or higher CGPA except for certain awards) is approximately 75%.

Total	789	589	75%⁶

³ For Fall 2006, there were approximately 27 students who were offered a Summit scholarship, but had a final average of 95% and above. Majority of the Summit scholarship students do not get their 2nd disbursement due to their CGPA falling below the 3.0 minimum requirement.

⁴ Must attain 2.5 CGPA to receive the 2nd disbursement.

⁵ This scholarship is only awarded to high school students studying out side of BC (i.e. out-of-province students). The retention rate may be lower for these students because it may be more difficult for them to adjust to living in another province.

⁶ According to a recent study by SFU's Institutional Research & Planning (published October 2007) regarding Student Retention at SFU; the students' perceptions of the learning environment and academic experience tend to be lower at SFU than at comparable Canadian universities.

The success rates for students to receive their second disbursements are higher in Fall 2007 (75%), as compared to Fall 2006 (70%). This is attributed to the higher success rate for students receiving the International Summit scholarship, as well as the introduction of new awards such as the Academic Excellence scholarship.

Major Award Renewal Data in Spring 2008

The chart below provides a snapshot of the retention rate of major entrance scholarship winners receiving their third installment onwards in Spring 2008 (after their first year). The average renewal rate for these students remains high at 90%. These students need to achieve a 3.5 or higher CGPA and be registered in 12 units; they typically have very high admission averages coming from high school or from a BC College.

**TABLE 12: COMPARISON OF TOTAL EXPENDITURES ON ENTRANCE SCHOLARSHIP
DISBURSEMENTS 2001-2008**

2001-2002	2002-2003	2003-2004	2004-2005	2005-2006	2006-2007	2007-2008
\$1,352,290	\$1,520,810	\$2,812,397	\$2,550,630	\$3,511,999	\$3,858,757 ⁷	\$3,766,615

The table below shows the total number of students receiving entrance awards and the size of the undergraduate population at SFU

	2001-2002	2002-2003	2003-2004	2004-2005	2005-2006	2006-2007	2007-2008
Number of new students receiving entrance awards	284	306	750	582	1,479 ⁸	1415 ⁷	871
Size of first year undergrads	4,936	5,560	5,369	6,742	6,435	6,382	7,504
Size of undergraduate population	20,974	21,968	22,095	23,480	24,368	25,009	26,332

⁷ Figures include the 40th Anniversary award disbursements totaling \$326,000. This was a special award that was discontinued after Summer 2007.

⁸ Figures include 40th anniversary awards that were discontinued in Summer 2007 (includes 804 awards given out in 2005-2006 and 620 awards given out in 2006-2007)

OPEN SCHOLARSHIPS

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

The Undergraduate Open Scholarship recognizes and supports undergraduate students who are highly qualified academically and provides scholarships to students on a term by term basis. No application is required and all undergraduate students are considered for eligibility each term. Students with an Entrance Scholarship are not eligible for this opportunity until all funding for that scholarship is disbursed.

The value of the scholarship is set each year by the University as a portion of the actual tuition costs accrued by those eligible.

Information of interest for 2007-2008:

- Total disbursement over 3 terms was \$1,577,660. Annual budget remained the same at \$1.6 million.
- Cumulative grade point average (CGPA) was changed by SPCSAB in Spring 2008 from 3.70 (same CGPA since 1996) to 3.67
- Value given per unit hour was increased by SPCSAB in Spring 2008 from \$100 to \$110
- Spring 2007 to Spring 2008 comparison in terms of the number of awards given to support students increased by 17.7% due to change in CGPA
- Average Open scholarship disbursement increased by 3.8% from previous year. This was due to the increase in value given per unit hour.
- New for this year's report is a table that breaks down Open scholarships awarded for domestic versus international undergraduate students. There has been a slight decrease in the percentage (less than 1%) of international students receiving the Open scholarship since 2006-07.

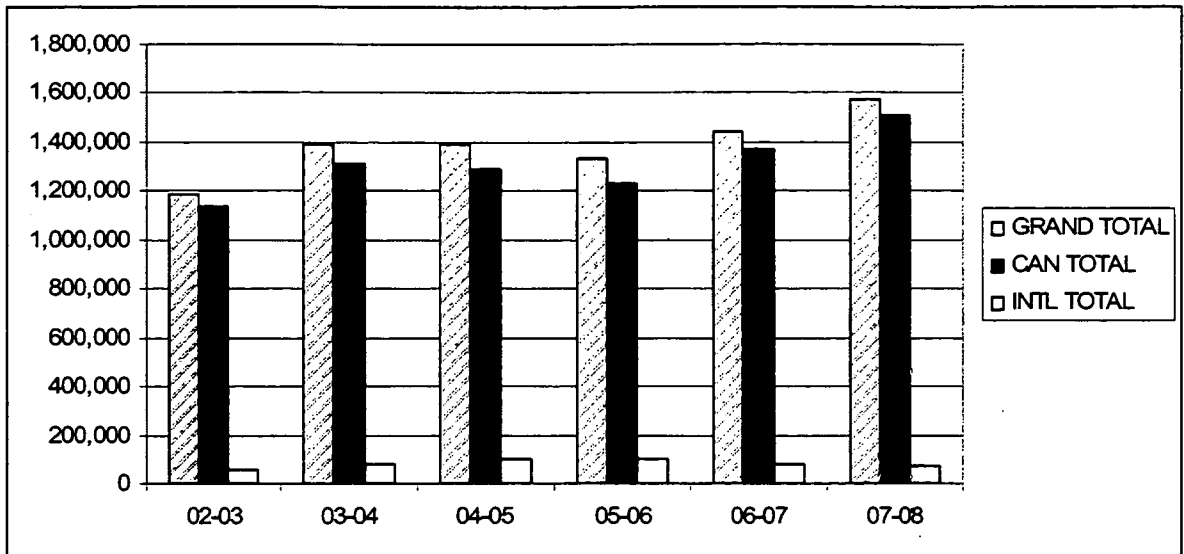

YEAR/TERM	CGPA REQ.	VALUE PER UNIT	# OF AWARD	TOTAL \$	AVERAGE AWD
2007 Summer	3.70	\$100	313	\$263,400	\$842

¹ In Spring 2008, the CGPA was changed to 3.67 from 3.70. Forty-eight more students became eligible with this change.

SCHOLARSHIP PROGRAMS

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

Endowed/Annual Scholarships for In-Course Undergraduate Students

Scholarships funded through endowments and annual gifts from donors are available to continuing, full-time undergraduate students who meet specified criteria and have a minimum cumulative grade point average of 3.50. To be considered students must submit applications to Financial Aid and Awards by the end of the second week of classes of the term the scholarship is offered. Most endowed and Annual Scholarships are adjudicated directly by the Senate Undergraduate Awards Adjudication Committee (SUAAC). Some of these scholarships are selected by nomination of the academic department and confirmed by the SUAAC. Information about all of these scholarships is published in the University Calendar and listed on the web site.

Academic & Service Awards for the University Community

Academic and Service Awards are given to students, faculty or staff for outstanding performance in an academic area or outstanding service to the University or the community at large. These awards include the Terry Fox Gold Medal, the BC Sugar Achievement Award, the C.D. Nelson Award, Contemporary Arts Awards, History Book prizes and many others. Academic and Service Awards reported in the table below are funded through donor based endowments, annual gifts or by University operating dollars.

Information of interest for 2007-2008:

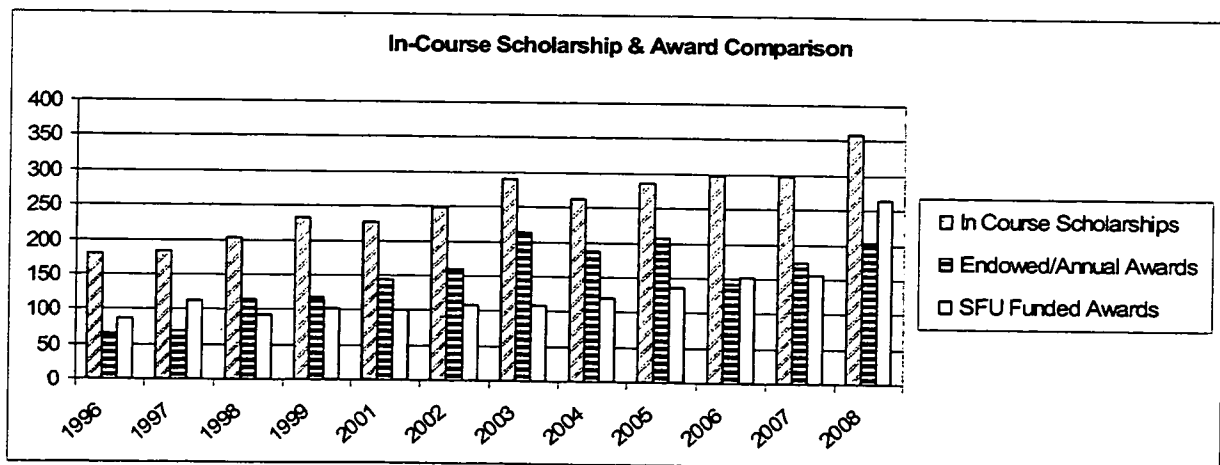

- Six annual and one endowed in-course scholarships established this year.
- Ten new awards, two annual donation, six endowments and two University funded were established in the in-course endowed/annual awards category.
- Two in-course University funded awards were established this year.
- Approximately 26% increase in the amount of in-course endowed/annual scholarships disbursed over previous year. Increase of over \$60,000 in in-course scholarship awards this year. Examples include - Methanex Robert Findlay Scholarship is valued at \$3500, April Allen Memorial Scholarship \$3000, KPMG Annual Award in Accounting \$2500, VSTA Scholarship in Finance \$2000.
- Several endowed alumni scholarships have accumulated sufficient funding to provide scholarships this year. Examples include - School of Criminology Scholarship, School of Kinesiology Alumni Scholarship, Faculty of Science Alumni Scholarship and School for the Contemporary Arts Alumni Scholarship.
- Irving K. Barber British Columbia Scholarship Society provided \$23,000 for the One World Scholarships and Pacific Horizons Scholarships to support students in Mobility programs.
- Approximately 33% increase in the amount of in-course endowed/annual awards disbursed over the previous year.
- Approximately 116% increase in the amount of in-course SFU funded awards disbursed over the previous year. This was in large part due to the establishment of International Mobility and

International Co-operative Education Awards to encourage students to participate in international experience opportunities.¹

- Undergraduate In-course scholarships and awards are available to International students, unless otherwise specified in the terms of reference. In 2007/08, International students were awarded endowed/annual scholarships of \$41,400, Endowed/annual awards of \$7,820 and University funded awards of \$14,300.

BURSARY PROGRAM

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

Bursaries are awarded on the basis of financial need and satisfactory academic performance to full-time undergraduate (9 units or more per term in normally graded courses) and graduate students (in approved full-time programs). Bursaries are funded through endowments and annual gifts from donors as well as through university operating funds. The SFU Open Bursaries and the SFU Daycare Bursaries are funded by University operating funds and are disbursed from one umbrella allocation. SFU Open Bursaries for international undergraduate students includes funding for two groups of students, those entering the university prior to September 2003 and those entering on or after September 2003 (fee schedule A). Bursaries for International students entering on or after September 2003 (fee schedule A) are funded through their own tuition revenue. The Annual and Endowed Bursaries are funded through annual or long-term gifts from donors. Bursaries are adjudicated by Financial Aid and Awards on behalf of the Senate Undergraduate Awards Adjudication Committee. Information about the bursary program is published in the University Calendar and on the Financial Aid and Awards website.

Information of interest for 2007-2008:

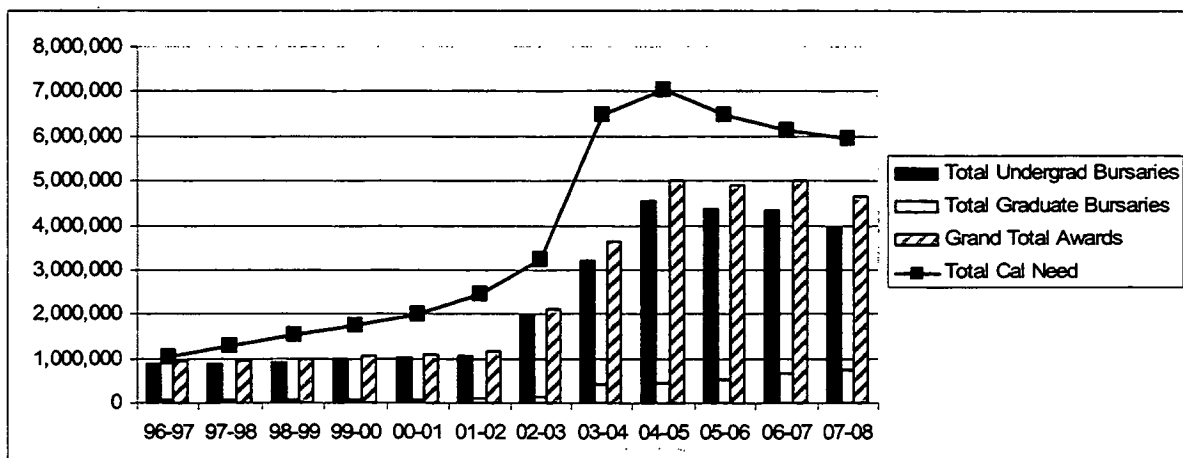

- The number of applications received by Financial Aid and Awards for bursary funding decreased by 387 or 6% from the previous year.
- The total calculated financial need decreased by \$181,365 or 2.95% from the previous year.
- Individual student bursaries for domestic and grandfathered international students were awarded at an annual average of 95% of assessed need, which was 2% higher than the previous year.
- The budget for international fee schedule A students was \$746,750. Fee schedule A international students were awarded at an annual average of approximately 49%, which was 6% lower than the previous year.
- Included in the SFU Open Undergraduate (domestic) data reported below is funding for two World University Services of Canada (WUSC) refugee students for three terms. Simon Fraser University has an agreement with the Simon Fraser Student Society to assist in the support of two students a year identified and immigrated to Canada by WUSC. The University pays for tuition up to 12 credit hours each term, the athletic and recreation fee, the student services fee, residence fees (dorms only), and a \$500 start-up bursary.
- University designated bursaries to encourage internationalization for undergraduate students showed a 25% decrease in bursary funding awarded, over the previous year.
- University designated bursaries to support aboriginal students (both graduate and undergraduate) in high financial need showed a 61% decrease in bursary funding awarded, over the previous year. Aboriginal students also received bursaries from donors and these numbers were included under the undergraduate student Annual/Endowed bursaries portion of the table below. It is a priority to use donor funded bursaries before accessing funds through University funded bursaries.
- There was approximately a 33% decrease in bursary funding awarded, for domestic graduate students from the SFU Open Graduate Bursary compared to the previous year. There was a 21% increase in bursary funding awarded, for international graduate students from the SFU Open Graduate Bursary, over the previous year.
- The SFU Open Graduate Bursary figures reported in the table below include the TSSU Child Care Bursary. This was the seventh year of this bursary program that is included in the TSSU employment contract with the University. This year, 20 bursaries were disbursed which was double the number from 2006-07, totaling \$31,005. This amount was a 52% increase over the previous year. Thirteen bursaries were awarded to domestic students (\$19,145) and seven were awarded to international students (\$11,860).
- In 2007-08, program funded bursaries totaling \$49,364 were disbursed to students in these programs. Four bursaries totaling \$6,860 were given to international students and 29 bursaries totaling \$42,504 to domestic students. In 2007-08, students in these programs have also received bursaries funded by donors. These bursaries were reported under Annual and Endowed Bursaries in the table below.

- Seven new donor funded bursaries were established, four by annual donation and three by endowments.

It must be noted that many of the decreases noted above may be associated with changes made to the bursary eligibility requirements. As of Fall 2007, domestic students must be approved for government student assistance to qualify for bursaries. Domestic students who did not qualify for student loans would not be eligible for bursary funding. In exceptional circumstances, students may appeal for exemption. International student eligibility was not impacted by these changes. Decreases in bursary awarded may also be attributed to increased support through the establishment of donor or University funded awards, where demonstrating financial need is not a requirement to be eligible for funding (i.e. International Mobility Awards, International Co-op Education Awards, and One World Scholarships).

Program Funded Bursaries for Credit Based Graduate Programs

Beginning in the 2004-05 academic year, credit based graduate programs were required to contribute funds toward bursaries for their students from their tuition revenue. These programs are reported below.

YEAR	EXECUTIVE MBA			GLOBAL ASSET WEALTH MANAGEMENT			MANAGEMENT OF TECHNOLOGY			GRADUATE DIPLOMA IN BUSINESS ADMINISTRATION

Note:

- 1) In 2004/2005, GAWM and MOT students have received bursaries funded by donors. These bursaries were reported under annual & endowed bursaries
- 2) The MBA (Day) program tuition had increased significantly in 2002/2003 and 2003/ 2004, the impact resulted in higher demand of bursary funding during the period.
- 3) The 2005/06 EMBA bursary was awarded from the Executive MBA Alumni Bursary Fund.
- 4) Bursaries for Health Science students are funded through an endowed bursary fund.

ATHLETIC AND RECREATION AWARDS

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

Athletic Awards

Athletic awards are available to students who are members of varsity teams at Simon Fraser University and are awarded primarily on the basis of Athletic merit, though some awards have an academic achievement component. There are three categories of Athletic Awards: (1) those funded through endowed and annual donations, (2) those funded by University operating funds, and (3) those funded by money raised by the individual teams to support their own athletes (Athletic Tuition Awards).

Information of Interest for 2007-2008:

- B.C. Athletic Assistance Program funding of \$40,000 provided for a second year in a row. This reduced the amount of money required to be used through the Athletic Tuition Awards this year.

Recreation Awards

Simon Fraser University supports a number of awards for students who actively support the University's Recreation Program. The Recreational Leadership Awards are given in recognition of individual participation, leadership and volunteerism in various aspects of Recreation Services. The Recreation Promotion Award, was created in 2004 to further support and promote the University's recreation programs.

Information of interest for 2007-2008:

- Athletics has provided additional support to the Recreational Promotion Awards opportunity. There was an 81% increase in award dollars given over the previous year.

¹ B.C. Athletic Assistance Program funding of \$40,000 given in 2006/07 displaced the use of the Athletic Tuition Awards in that year.

B.C. Athletic Assistance Program

The B.C. Athletic Assistance Program (BCAAP) is funded by the provincial government to support top athletes in pursuing their education while maintaining their sport training.

Information of interest for 2007-2008:

- In 2006/07 SFU received an increase in allocation for the BCAAP awards of \$40,000. This was repeated in the 2007-2008 fiscal year.

WORK-STUDY PROGRAM

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

Like the SFU bursary program, the Work-Study program is intended to be supplemental funding for Simon Fraser students with demonstrated financial need. The program is not restricted to BC residents or to those receiving funding from StudentAid BC only. Most participants are identified through the bursary application process though some are also identified from StudentAid BC data.

Information of interest for 2007-2008:

- Of the \$447,087 in salary (includes benefits) paid to SFU undergraduate students this year, \$71,586 was awarded to international undergraduate students in fee schedule A (entered SFU in Fall 2003 or later) whose work study funding was paid by the international bursary fund budget. These international undergraduate students are included in the chart below.
- Of the number of awards listed, 69 work-study positions awarded to Fee Schedule A international students totaling \$98,070.
- From Spring 2008 onwards, an increase in hourly wage was approved from \$8.75 to \$11.50 (includes approximately 12% in lieu of benefits and vacation)
- Until August 2002 the Work-Study program was part of the BC Student Assistance Program limiting the program to those BC residents who were receiving maximum government student assistance. In Fall 2003 the government program was discontinued and Simon Fraser University funded the Work-Study program. The budget continued to be valued at \$610,000 for this year.

EMERGENCY LOAN PROGRAM
Report to the Senate Policy Committee on Scholarships, Awards and Bursaries
2007-2008 (Summer 2007 to Spring 2008)

Short term (60 day), interest-free loans are available to students who require interim emergency funding while awaiting funds from other sources. To receive an emergency loan a student must demonstrate a guaranteed source of repayment, for example an assessed government student loan awaiting documents or confirmation of part-time employment. Emergency loan values are usually no more than \$500 but individual award values depend on the specific circumstances of the student. Some students may receive more than one Emergency Loan during a term. Students must meet with a Financial Aid Advisor as part of the assessment process. Since the transition to SIMS (2003-2004) bad debt lists from Student Financials have not been available and so are not recorded below.

Information of interest for 2007-2008:

- There was a 15% increase in the number of users of the Emergency Loan Program compared to the previous year but is still quite low compared to years prior to 06/07.

BC GOVERNMENT STUDENT ASSISTANCE PROGRAM (STUDENTAID BC)

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

Domestic Canadian students, graduate and undergraduate, may apply through their home province to receive funding assistance from the federal, provincial and territorial governments. The goal of these programs is to promote accessibility of post-secondary education among academically qualified students who do not have the personal or family resources to meet the costs of education. The B.C. Student Assistance Program was renamed by the government starting in 2007 to Student Aid B.C.

Information of Interest for 2007-2008:

- At Simon Fraser University approximately 25% of all undergraduate students received their primary funding through StudentAid BC government student assistance.
- The tables below report the number of BC Government assistance awards and the total dollars of assistance received by Simon Fraser students from 1995/96 to the 2007/08 award year. The less than 1% increase in the overall number and value of awards for SFU students is consistent with a less than 1% increase in applications from SFU students received by the Student Aid BC (7,918 in 2006-07 to 7,973 in 2007-08).
- There was an overall 8.1% decrease in combined B.C. institutional applications received by Student Aid BC when compared to the previous year.
- According to the government's statistics Simon Fraser remained the second largest user of the assistance programs for the sixth year in a row.
- The BC Loan Reduction Program is still in effect (started in 2004). Under this program eligible students who successfully complete each year's studies will have their BC Student Loan reduced. The loan reduction grants are not reported to the post-secondary institutions so we are unable to report them below. The amount of reduction will vary according to the BC Loan awarded. The grant programs that are still in effect in 2007/2008 are the Canada Study Grant for Students with Dependents, Canada Access Grant for Students with Permanent Disabilities, and Canada Study Grant for Female Doctoral Students. (see report on Part-Time Assistance and Canada Study Grants).

GOVERNMENT PART-TIME ASSISTANCE AND CANADA STUDY GRANTS **Report to the Senate Policy Committee on Scholarships, Awards and Bursaries** **2007-2008 (Summer 2007 to Spring 2008)**

To be eligible for the federal government Part-time Canada Student Loans (PT-CSL), Canada Study Grant for High-Need Part-Time Students (CSG-HNPT), and Canada Access Grant for Students with Permanent Disabilities (CAG-PD) students must be registered between 3 and 8 credit hours and have a demonstrated financial need. These programs assist with educational cost only and do not include support for living expenses.

In order to be eligible for grant funding, students must not only demonstrate financial need but also meet specific criteria for not studying full-time. The list of acceptable conditions for maintaining part-time studies includes: permanent disability, medical issues, being a single parent, being parent from a low income family, caring for an elderly dependent, taking prerequisites to enter a full-time program and requiring less than nine credit hours to fulfill graduation requirements. The CSG-HNPT program has a maximum award value of \$1,200 per program year and is well used by Simon Fraser students.

The federal government offers a grant program to support female doctoral students in specific programs. The goal of the program is to encourage female students with financial need to continue studies to the doctoral level in fields that have an under representation of females based on national statistics. From 2001/02 onwards, these grants were assessed as part of the B.C. Student Assistance Program application and a separate application is not required. For those students who meet the criteria for a CSG-FD, the grants are automatically calculated and the award replaces federal loan funding. In other words, students do not receive additional funding but have a portion of their debt (loan) converted to grant.

Information of interest for 2007-2008:

- Eighty six part-time studies funding applications were received. Of those students, sixty-one qualified for grant only, loan only, or a combination of grant and loan with a total assessed need of \$105,388.
- Twenty-eight students were awarded part-time loans totaling \$35,154 and twenty-five students accepted the funding totaling \$30,728, which was a 70% increase over previous year. Part-time loans require that you begin to make payments on the loans while you are still in school.
- Thirty-seven students received grant awards totaling \$41,690, which as a 4.8% decrease from the previous year.
- In terms of the Canada Study Grants for female doctoral students, there was a 98% increase over the previous year in terms of debt (loan) converted to grant.

OUT OF PROVINCE AWARDS

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2007-2008 (Summer 2007 to Spring 2008)

Out of Province and United States Student Loans

The tables below report students who are receiving funding through other Canadian provinces or territories and from the United States. Not all provinces advise the institutions of assistance granted to students, particularly grant awards.

The funding received by U.S. students includes subsidized and unsubsidized government loans, private loans, and parental loans. Subsidized loans do not have to be repaid until students cease attending school or drop below ½ studies. Students must begin repaying unsubsidized loans while they are still in school. U.S. students receive separate disbursements in each term of their loan period and an increasing number of students are accessing private loans to supplement their government loans.

Information of Interest for 2007-2008:

- The increases in awards for out of province undergraduate student assistance can be attributed to the 2.7% increase in out of province undergraduate student enrollment at the University in 2007/08 over the previous year.
- There were increases in the number of loans awarded for undergraduate (96%) and graduate (28%) from the U.S., over the previous year.

EXTERNAL SCHOLARSHIPS AWARDS AND BURSARIES
Report to the Senate Policy Committee on Scholarships, Awards and Bursaries
2007-2008 (Summer 2007 to Spring 2008)

Each year Simon Fraser University students receive scholarships, awards and bursaries that are administered and adjudicated by organizations and corporations external to the University. Scholarships, awards and bursaries in this category include: Canadian Merit Scholarship Foundation Awards, Canadian Millennium Scholarship Foundation Merit Awards, Terry Fox Humanitarian Awards, Canada Trust Scholarships, awards administered by the Association of Universities and Colleges of Canada, and many others. The awards have been categorized by the definitions used for our internal programs: scholarships are based primarily on academic performance; bursaries are based primarily on financial need; and awards are based on community service, excellence in a specific endeavor or a combination of criteria.

Financial Aid and Awards also actively promotes the availability of and assists students with the application process for numerous external awards that are not reported in the table below. These awards support students' educational goals during and after studies at Simon Fraser University but are not disbursed through the University. Awards programs in this category include the Rhodes Scholarship, the Queen Elizabeth II BC Centennial Scholarship, and many others.

Graduate students receive a variety of external awards that are administered through the Dean of Graduate Studies Office and are included in the Graduate Awards report. The external scholarships, awards and bursaries for graduate students listed below are those that have been received by the University for disbursement to students who are currently registered as graduate students. These awards are adjudicated by community groups and foundations without University nominations and may have been awarded on the basis of undergraduate accomplishments.

Information of interest for 2007-2008:

- SFU students received 388 external scholarships, awards and bursaries totaling \$681,770 which was approximately a 25.4 % increase in the amount awarded, over the previous year.
- Canada Millennium Scholarship Merit Awards - 13 National Award winners attending Simon Fraser University, 9 Provincial/Territorial Award winners, and 14 local award winners
- World Petroleum Congress and Canadian Millennium Foundation offered an award to recognize students enrolling in studies related to the petroleum industry who demonstrate academic merit and financial need. Four SFU students received these awards, totaling \$12,000.
- Canadian Millennium Foundation National In-Course Scholarship recognizes upper level post secondary students who demonstrate academic merit and leadership. Nineteen SFU students received a total of \$73,000 from the National In-Course Scholarship program
- Canadian Merit Scholarship Foundation provides awards to graduating high school students on the basis of academic excellence, community service and leadership. Two Loran winners (under CMSF), finalist and provincial, are in attendance and receive a total of \$5,000.

Non-SFU Administered Bursaries (Graduate)	4	\$ 3,500.00
TOTAL EXTERNALLY MANAGED OR SUPPORTED FINANCIAL AID AND AWARDS	31,029	\$ 68,842,009.00

Notes:

- (a) Number of awards disbursed for entrance scholarships only includes new awards offered in fiscal year 2007/2008.
- (b) Total entrance scholarship disbursement figures include new scholarship offers as well as scholarship renewals for continuing students
- (c) Bursary - Designated - includes Field School, Exchange, International Co-op, and Aboriginal (Ugrad/Grad)
- (d) Emergency Loans - temporary funding that the student must pay back within 60 days
- (e) StudentAid BC funding for full-time students include both federal and provincial loans along with possible grant funding
- (f) Non-SFU administered financial aid and awards normally just requires proof of enrollment from institution. Funds are then pushed to student's account.
