## **5. Student Exchange**

For the 2012 Calendar Year, *International Services for Students* received 437 applications to participate in the University's bilateral and multilateral exchange programs (an increase of 41% from 311 applications in the 2011 Calendar Year).

Of the 437 applications, 34% (149) were incomplete or were not approved (compared with 21% (79) in 2011). *International Services for Students* selected 66% (288 out of the 437) to participate (compared with 79% (260 out of 331) in 2011).

Of the applications selected, 79% (228) resulted in completed exchange terms (compared with 83% (216 out of 260) in 2011), and 21% (60) cancelled (compared with 17% (44) in 2011).

The number of applications received that resulted in completed exchange terms in the 2012 Calendar Year increased by 6.5% over 2011 (216 to 228). In addition, 15 students who were nominated for exchange during the 2011 year (and were already captured in that year's application numbers) continued or deferred their exchange term(s) into 2012. Thus, in total, 243 exchange terms were completed in 2012 (an increase of 4% from 234 in 2011).

The large number of applications and incomplete applications this year was reflective of a (now discontinued) internal practice of rolling over incomplete applications to the next deadline. Numbers for the 2013 year will reflect actual applications.

**6. International Co-op Program (information from co-op)**

In the 2011/12 school year there were 182 work practicums in 33 countries, which has been an increase from the same semesters in the previous year (of 128 work practicums).

The international Co-op office has been working on more than the international placements for students. We have also been developing an international Work Integrated Learning and Co-op experiential learning curriculum for students going abroad.
