MEMORANDUM

ATTENTION	SGSC Members	DATE	November 13, 2014
FROM	Mary-Ellen Kelm, Acting Dean of Graduate Studies	PAGES	1/1
RE:	Revisions to GGR 1.7 and GGR 1.3.13		

Motion

That SGSC approve the revisions to GGR 1.7 (Residence and Course Requirements) and GGR 1.3.13 (Certificate Programs).

Revisions and Rationale**GGR 1.7.1 and 1.3.13**

- The course requirements for a graduate certificate should be located in GGR 1.7 rather than in the admission section of the regulations (GGR 1.3). GGR 1.7 covers regulations related to residence and course requirements for the various graduate programs.
- The first paragraph of GGR 1.3.13, which includes the course requirements for a certificate, has been moved to section GGR 1.7.1. This allows for the course requirements for both certificates and diplomas to be covered in the same section.
- The second paragraph of 1.3.13 is already included in GGR 1.7.6, and the sentence referring to certificates being awarded at the time of convocation is not necessary within the Graduate General Regulations. As a result, these two sections have been deleted.

GGR 1.7.2

- The title has been changed because this regulation deals with program requirements rather than residence requirements.
- A 30 unit minimum for all master's degrees has been added; when a master's degree is less than 30 units it is challenged by the Teacher's Qualification Service and occasionally by other institutions.
- A 24 unit minimum has been added for a program with two extended essays, or a project, that are examined by two readers; the level of difficulty and length of time required is not the same as a regular project (that is examined as per 1.9.1) so an additional four units of course work has been added.
- The requirement for a final examination was removed from a master's program with 30 course units; this requirement was replaced with an option to add a capstone component.

Proposed revisions to GGR 1.7

1.7 Residence and Course Requirements Minimum course work requirements are defined in 1.7.1, 1.7.2 and 1.7.4. See 1.7.6 for regulations concerning courses completed at other institutions. Candidates must complete the University minimum requirement of 22 units of graduate course work. A graduate program committee may require graduate or undergraduate work in addition to the minimum requirements, either on an individual basis or, with senate ratification, for all students in the program. 1.7.2 Residence Requirement for the Master's Degree Master's candidates must complete the University minimum requirement in one of the following ways: a) successfully complete a minimum of 12 units of graduate course work and submit a thesis; b) successfully complete a minimum of 20 units of graduate course work and submit at least two extended essays, or a project; e) successfully complete a minimum of 30 units of graduate course work and pass a final examination Not all of these options are available for every program. A graduate program committee may require work in addition to the minimum requirements either on an individual basis or, with Senate ratification, for all students in its program.	1.7 <u>Program</u> Requirements Minimum <u>program</u> requirements are defined in 1.7.1, 1.7.2, <u>1.7.4., and 1.7.5</u>.
