MEMORANDUM

ATTENTION Senate

FROM Peter Keller, VP, Academic and Provost and Chair, Senate Committee on Enrollment Management and Planning

RE Enrollment Plan 2019/2020; Undergraduate Admission Targets for 2019/2020

DATE February 15, 2019

Action undertaken by the Senate Committee on Enrollment Management and Planning at its meeting of February 13, 2019 gives rise to the following motions:

Motion 1:

That Senate approve and recommend to the Board of Governors the 2019/2020 Enrollment Plan attached as Appendix A to document titled *For SENATE March 4, 2019*.

Motion 2:

That Senate approve and recommend to the Board of Governors the 2019/2020 Proposed Domestic Undergraduate Admission Targets by Faculty and Basis of Admission – All Campuses (Headcount), as indicated in Table C1 in Appendix C.

Motion 3:

That Senate approve and recommend to the Board of Governors the 2019/2020 Proposed International Undergraduate Admission Targets by Faculty and Basis of Admission – All Campuses (Headcount), as indicated in Table C2 in Appendix C.

This report summarizes the undergraduate enrolment outcomes of fiscal year 2018/19 and the proposed enrolment plan for 2019/20. A brief description of the terms used in the enrolment plan is given below:

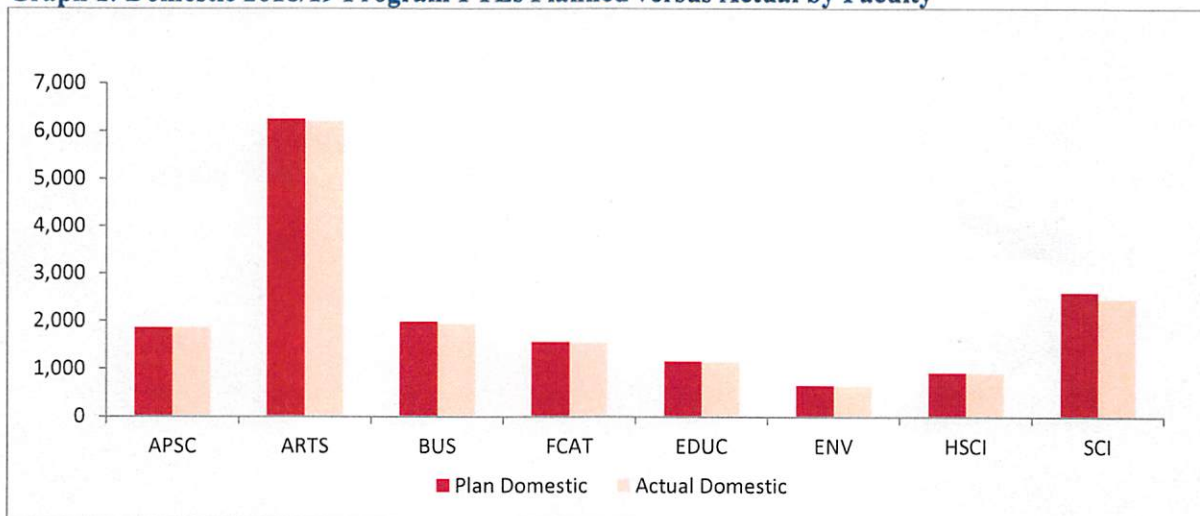

- **PFTE:** An undergraduate program FTE (PFTE) is calculated by accumulating all undergraduate units taken by all students in each undergraduate program and dividing by the applicable full-time load for each program.
- **AFTE:** An activity FTE (AFTE) for a Faculty is calculated by multiplying the number of units for every course offered by the Faculty by the number of students in every course and dividing by 30.
- **COOP:** a Co-op term is defined as a full load for the purpose of counting undergraduate FTEs starting in 2011/12. This definition is consistent with other research universities. The definition of Co-op as full-time was already in effect for graduate students starting 2010/11.

2018/2019 Enrolment Outcomes

Funded Domestic¹ Program FTEs (PFTEs):

Program FTEs are dependent on retention of existing students, student credit load, recruitment of new students and the number of students graduating. SFU was funded for **16,994** undergraduate full-time equivalents (PFTE) in 2018/19 including Co-op FTEs and 40 new FTEs for the Sustainable Energy Engineering program based in Surrey. Our PFTEs were **18,107** a surplus of **6.5%** (1,113) above the Ministry's funded PFTEs. Our enrollment planning is done in terms of program FTEs excluding Co-op. We had **16,676** domestic undergraduate PFTEs this year (excluding Co-op), slightly below our enrolment plan. Graph 1 compares the 2018/19 program FTE plan versus actuals for SFU faculties.

Graph 1: Domestic 2018/19 Program FTEs Planned versus Actual by Faculty

New Domestic Student Intake: We admitted **5,165** new students which represented **93%** of our new domestic intake target. (See Table 1 for 2018/19 Senate Approved Plan for undergraduate domestic full

¹ For the purposes of this report (undergraduate headcount, PFTEs, AFTEs), a domestic student is defined as someone paying the domestic tuition rate and an international student is defined as someone paying the international tuition rate. These numbers may differ from other reports (for example, the Enrolment Portal) where domestic/international differentiation is based on visa status.

time equivalent enrolments versus actuals and new intake targets versus actuals by Faculty). Despite some Faculties missing their domestic intake targets most came close to their PFTE targets. However, a trend we are seeing continues to be a softening of domestic numbers.

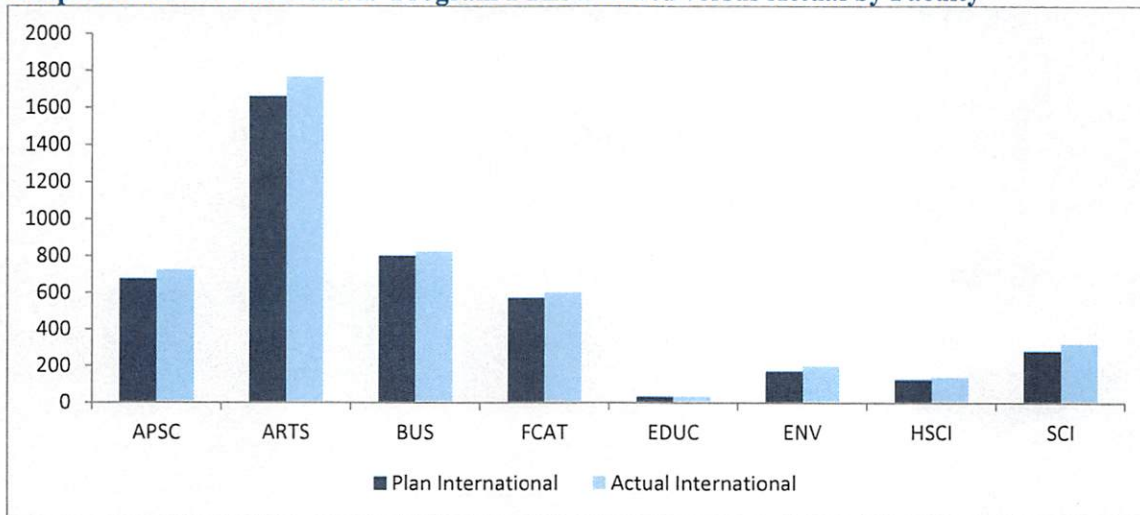

Table 1: Domestic 2018/19 Enrolments and New Student Intakes by Faculty

Faculty	Program Full Time Equivalent Enrolments (PFTEs)		New Student Intake (Headcount)	
	Plan	Actual	Plan	Actual
APSC	1,855	1,858	602	597
ARTS	6,240	6,195	2,573	2,292

SFU Total	16,950	16,676	5,579	5,165

* USPEC= unspecified

International Program FTEs and New International Student Intake: International student enrolment was **4,579** PFTEs which equals **21.5%** of total undergraduate student PFTEs. See Graph 2 for international program FTE plan versus actuals for SFU faculties.

Graph 2: International 2018/19 Program FTEs Planned versus Actual by Faculty

We admitted **1,699** new international students, **29%** more than the minimum we established in last year's plan. (See Table 2 for 2018/19 Senate Approved Plan for undergraduate international full time equivalent enrolments versus actuals and new intake targets versus actuals by Faculty). A portion of this overage was due to a highly qualified pool of international applicants from BC high schools, and post-secondary transfers. The plan approved by Senate last year allowed for some leeway if we were faced with strong non-FIC applicants.

Table 2: International 2018/19 Enrolments and New Student Intakes by Faculty

Program FTEs and New Student Intake Trends: (See Graph 3 and Table 3 for details). Over the past three years, including 2018/19, we have had a very well-qualified pool of international applicants from BC high schools and post-secondary institutions, including FIC, resulting in strong international enrolment outcomes. In contrast, over the last few years, we are seeing a softening in the domestic applicant pool. This trend is partly due to the demographics of declining university-aged population in our catchment areas and partially due to increasing competition from teaching- and research-intensive universities. Many other post-secondary institutions across Canada, including those in B.C., are feeling similar challenges in the recruitment of domestic students. We have chosen to maintain our admission standards in the face of this trend. This emphasizes the need to focus on student success and retention while addressing course access issues, a factor that may be limiting student credit load. Coupled with the recent trend, our long-term enrolment plan has intentionally decreased the excess unfunded by grant domestic PFTEs from 8% down to 6 ½%. At the same time, we have intentionally increased our international FTEs to offset these declines. Lately, we have been stressing growth in non-traditional demand areas such as FCAT and FENV with some success. Further, due to changes approved by Senate last year, the University was able to increase the number of highly qualified international students admitted from Canadian high schools.

2019/2020 SFU Enrolment Plan

The Simon Fraser University Enrolment Plan (see Appendix A) shows *actual* student enrolments of 2013/14 and 2018/19, *target* enrolments for 2019/20 and preliminary targets for 2024/25.

SFU's Enrolment Planning Strategy:

Undergraduate: With respect to undergraduate enrolment, the 2019/20 planned Co-op and non-Co-op undergraduate PFTEs enrolment is proposed to be **18,204** (Section 4p) which would be **7%** above the ministry funded program FTE of **17,074**. This goal is intentionally somewhat aspirational to account for the challenges of implementing the new admission requirements for secondary school applicants and declining demographics. However, even if we miss this goal we will easily meet our lower level target of 5-6% above the ministry-funded PFTEs. (See: The SFU Enrolment Plan and detailed tables at:

<https://www.sfu.ca/irp/enrollments/EnrollmentDashboard/restricted/sfu-enrollment-plan-restricted-access-pdf.html>).

As shown in the SFU Enrolment Plan, the 2019/20 undergraduate funded program FTE target for domestic students (excluding Co-op FTEs) is **16,773** PFTEs (see section 6p of the SFU Enrolment Plan). The proposed international FTE target (excluding Co-op) for 2019/20 is **4,535** which equates to 21.3% of all undergraduate FTEs (see section 7p of the SFU Enrolment Plan). Based on the university and faculty enrolment plan, it is estimated that we need to admit **5,414** domestic and **1,391** international new students to meet this enrolment plan. See Table 4 below for a breakdown of the enrolment plan and new intake targets by faculty.

Table 4: Proposed 2019/20 New Intakes and Program FTEs by Faculty

Faculty	Program FTE Targets (Plan)		New Intake Targets (Headcount)	
	<u>Domestic</u>	<u>International</u>	<u>Domestic</u>	<u>International</u>
APSC	1,928	675	641	189
ARTS	6,200	1,750	2,413	589

ENV	650	200	199	83
HSCI	895	135	280	68
SCI	2,438	335	750	69
SFU Total	16,773	4,535	5,414	1,391

Appendix C provides further details of proposed new domestic and international student intake targets for 2019/20 using the basis of admission categories of Secondary, Post-Secondary and Other.

Graduate: The Graduate enrolment plan is established for Regular and Specialty graduate programs. Regular graduate programs generally charge a semester tuition fee, while the Specialty programs generally charge a per credit tuition fee. In 2018/19 SFU received Ministry funding for **2,837** graduate PFTEs (including Co-op and 30 new FTEs for the SEE program) and generated a surplus of 1,072 PFTEs (**38%** above funded target). In contrast to undergraduate enrolments, the ministry does not distinguish between domestic and international students. Due to high demand for graduate programs and being a research intensive university, we are planning for 3,870 PFTEs (excluding Co-op) or 3,720 non Co-op activity FTEs (AFTEs). This breaks down to **1,972** AFTEs (excluding Co-op) for Regular and **1,748** AFTEs (excluding Co-op) for Specialty for 2019/20 (Tables 13a & 14a in Appendix A).

Basis of Admission: SEC= Secondary School, PSEC=Post-Secondary transfers, OTHER= All other admission categories

Note: These new intake targets are contingent on the program FTE (PFTEs) targets. If during the year the PFTE targets are under- or over-achieved, the new intake targets will be reevaluated with the aim of fulfilling the overall PFTE targets.

For EDUC, the new intake targets include students who are only new to SFU and new to the Faculty of Education. This Plan includes PDP intake targets of around 400 students (including the new Ministry funded French cohort) of which on average about 45% students are new to SFU and 55% are SFU students joining the PDP program.

FCAT	610
EDUC	30
ENV	200
HEALTH	135
SCIENCE	335
TOTAL	4,535

Basis of Admission: SEC= Secondary School, PSEC=Post-Secondary transfers, FIC= Fraser International College transfers & OTHER= All other admission categories

Note: Faculties will have the option to exceed their new international student intake target with students who have attended a secondary school in Canada for a minimum of three years including Grade 12 and have achieved an admission average that exceeds the cut-off admission average for domestic students. Decisions will be made by the Registrar and Executive Director Student Enrolment.
