MEMORANDUM

ATTENTION	Senate	DATE	December 12, 2024
FROM	Peter Hall, Vice-Provost and Associate  Vice-President Academic, on behalf of Dilson Rassier, Provost and Vice-President Academic and Chair, SCUP	PAGES	1/36
RE:	Program Change for the Master of Publishing (SCUP 24 - 59)		

At its meeting on December 4, 2024, SCUP reviewed and approved the program changes for the Master of Publishing.

Motion: That Senate approve and recommend to the Board of Governors the program changes for the Master of Publishing within the Faculty of Communication, Art and Technology, effective Fall 2025.

For Information

Included with the program changes and approved by SGSC under delegated authority are the following curriculum changes, effective Fall 2025.

New Courses:

1. PUB 603 Journal Management and Editing
2. PUB 604 Technologies and Infrastructure for Academic Publishing
3. PUB 901 Publishing Research Project

Course Changes:

1. PUB 605 (Units, Title)
2. PUB 606 (Title)
3. PUB 607 (Title)
4. PUB 800 (Title, Description)
5. PUB 801 (Title, Description, Prerequisite)
6. PUB 899 (Units, Title, Description, Prerequisite)
7. PUB 900 (Units, Title, Description, Prerequisite, Equivalent Statement)

MEMORANDUM

ATTENTION Senate Committee on University
Priorities (SCUP)

FROM Mary O'Brien,
Chair of Senate Graduate Studies
Committee (SGSC)

RE: Program Changes

DATE November 20, 2024

For Approval: At its meeting on November 20, 2024, the SGSC approved the following program changes and is recommending them to SCUP for approval, effective **Fall 2025:**

Motion:

That SCUP approve and recommend to Senate the program changes for the Master of Publishing within the Faculty of Communication, Art and Technology, effective Fall 2025.

For Information: Included with the program changes and approved by SGSC under delegated authority are the following curriculum changes, effective Fall 2025:

- 1) Calendar Entry Change: Master of Publishing MPub
- 2) New Course: PUB 603 Journal Management and Editing
New Course: PUB 604 Technologies and Infrastructure for Academic Publishing
New Course: PUB 901 Publishing Research Project
- 3) Course Change (Units, Title): PUB 605
Course Change (Title): PUB 605
Course Change (Title): PUB 607
Course Change (Title, Description): PUB 800
Course Change (Title, Description): PUB 801
Course Change (Units, Title, Description): PUB 899
Course Change (Units, Title, Description, Prerequisite): PUB 900

MEMORANDUM

ATTENTION:	SGSC
FROM:	Arne Eigenfeldt, Chair, FCAT GSC
RE:	Items to be added to the SGSC Meeting Agenda
DATE:	October 11 th , 2024

FCAT GSC is submitting a revised package for the Master of Publishing Program that was originally voted on and approved at the FCAT GSC meeting that occurred on June 18th, 2024:

Master of Publishing Program:

- Program Change: Master of Publishing Program – (pp. 3-7)
- Course Changes: PUB800, 801, 899 & 900 – (pp. 8-15)
- Course Additions: PUB603 & PUB604 – (pp. 16-28)
- Course Name Changes: PUB605, 606 & 607 – (pp. 29-34)

These changes have been approved by FCAT's Associate Dean, Academic.

Please add these items and additional materials to your next meeting agenda.

Thank you.

Arne Eigenfeldt, D.M.
Associate Dean, Academic,
FCAT Chair, FCAT GSC

MEMORANDUM

ATTENTION: Arne Eigenfeldt, Chair, FCAT GSC

FROM: Hannah McGregor, Director, Publishing

RE: Master of Publishing Program Changes

DATE: October 9, 2024

On May 21, 2024, following a successful vote, the Publishing Program approved the following changes to the Master of Publishing program:

- Revisions to the Master of Publishing Calendar Entry including a reduction of required units from 47 to 42;
- Revisions to PUB 899: Publishing Internship or Project to include more flexible options for degree completion;
- Revisions to the required courses PUB 800 and PUB 801;
- The addition of two new graduate courses – PUB 603: Journal Management and Editing and PUB 604: Technologies and Infrastructure for Academic Publishing.

Following review of these programs by the Pre-SGSC Committee, we made several small changes, opting instead **not to delete PUB 900** but to use the existing course code for the self-directed project option and to add an additional course, **PUB 901: Publishing Research Project**, so that each capstone project option has a unique course code. We have also increased the units for these project courses from 5 to 6 in alignment with university norms. Finally, we have changed the names of PUB 605, PUB 606, and PUB 607 to eliminate the word “Project” and replace it with either “Simulation” or “Workshop” with the goal of reducing confusion between these experiential learning courses and the capstone project options.

The goal of these changes is to provide more flexible pathways to degree completion for Master of Publishing students. Students will be able to choose more electives and the greater flexibility in course options will also facilitate students completing the degree at a slower pace rather than the current requirement that all course work be completed in two semesters. Additionally, the overall reduction in required units and the added flexibility of three final project options should reduce time to degree completion and increase completion rates.

Due to the reduction in required units, these changes will potentially impact current Master of Publishing students. Any students registered in the Master of Publishing when the proposed changes take effect in Fall 2025 will be given the option of completing a 2000-3000 word report on their internship as per the updated requirements of PUB899, in lieu of completing PUB900. We anticipate as many as 10 Master of Publishing students currently working in the publishing industry will return to complete their degrees in the next two years as a result.

Sincerely,

A handwritten signature in black ink, appearing to read "Hannah McGregor".

Hannah McGregor
Associate Professor and Director, Publishing
Simon Fraser University

Calendar Entry Change for Master of Publishing

Summary of change: We are reducing the number of required courses from 13 to 6 and reducing the unit requirements from 47 to 42. We are also allowing students to choose between three capstone options: an internship, a self-directed project, or a research project. Each of these capstone options will now be 6-credit courses to align with university norms for capstone project courses. In addition, we are adding language that may allow students to take some units from outside the program or SFU.
Rationale for change: The goal of all these changes is to provide more flexible pathways to degree completion for Master of Publishing students. Students will be able to choose more electives and the greater flexibility in course options will also facilitate students completing the degree at a slower pace rather than the current requirement that all course work be completed in two semesters.
Effective term and year: Fall 2025
Will this change impact current students? If yes, what is the plan for current students? The only potential impact on current students will be their new ability to choose a single final project option (PUB899, PUB900, or PUB901). Any students who have completed PUB899 but not PUB900 prior to these changes taking effect will be given the option of completing a 2000-3000 word report on their internship as per the updated requirements of PUB899 and thus graduating sooner. We anticipate this change resulting in many students who never returned to complete their Project Report being able to earn their degree, increasing our alumni numbers.

FROM	TO
<p>MASTER OF PUBLISHING</p> <p>This program leads to a master of publishing degree (MPub) and is designed for those in, or intending to enter print or digital publishing work in trade companies, government or the non-profit sector. The program is composed of a set of seminar and simulation courses, an internship, and a project report, and encompasses a range of print and online publishing activities including marketing, management, design and technology.</p>	<p>MASTER OF PUBLISHING</p> <p>This program leads to a master of publishing degree (MPub) and is designed for those in, or intending to enter, print or digital publishing work in trade companies, government, scholarly communications, new media companies, or non-profit organizations. The program is composed of seminar and simulation courses and a final internship, self-directed project, or research project, and encompasses a range of print and online publishing activities including editing, marketing, management, design and technology. Students may choose to focus their studies on trade publishing, scholarly communication, or innovation and entrepreneurship.</p>

Admission Requirements

Applicants must satisfy the university admission requirements as stated in Graduate General Regulations 1.3 in the SFU Calendar. Meeting the minimum university requirements for admission does not guarantee acceptance. Entering students are expected to have a minimum knowledge of publishing which will be assessed through an evaluation of experience and submitted documents, and in some cases, through interviews and examinations. For further information on additional admission requirements, see the program website or contact pub-info@sfu.ca. ~~Direct admission is only permitted into the Project Option.~~

Program Requirements

This program consists of course work, ~~an internship, and the requirements from either a project or course option for a minimum of 47 units.~~

Students must complete

PUB 600 - Topics in Publishing Management (4)

~~PUB 601 - Editorial Theory and Practice (4)~~

~~PUB 602 - Design and Production Management (4)~~

~~PUB 605 - Book Publishing Project (5)~~

~~PUB 606 - Media Project (4)~~

~~PUB 607 - Publishing Technology Project (4)~~

~~PUB 800 - Text & Context: Publishing in Contemporary Culture (4)~~

~~PUB 801 - History of Publishing (4)~~

PUB 802 - Technology and the Evolving Form of Publishing (4)

PUB 890 - Professional Practices Seminar I (0)

PUB 891 - Professional Practices Seminar II (0)

~~and an internship~~

~~PUB 899 - Publishing Internship or Project (5)~~

~~and the requirements from either a project or course option~~

Admission Requirements

Applicants must satisfy the university admission requirements as stated in Graduate General Regulations 1.3 in the SFU Calendar. Meeting the minimum university requirements for admission does not guarantee acceptance. Entering students are expected to have a minimum knowledge of publishing which will be assessed through an evaluation of experience and submitted documents, and in some cases, through interviews and examinations. For further information on additional admission requirements, see the program website or contact pub-info@sfu.ca.

Program Requirements

This program consists of course work **and a final Internship or Self-Directed Project or Research Project for a minimum of 42 units.**

Students must complete **all of**

PUB 600 - Topics in Publishing Management (4)

PUB 800 - Publishing and the Problem of Capitalism (4)

PUB 801 - Theories of Publishing (4)

PUB 802 - Technology and the Evolving Form of Publishing (4)

PUB 890 - Professional Practices Seminar I (0)

PUB 891 - Professional Practices Seminar II (0)

and an additional 20 units of graduate coursework. Chosen from the following

PUB 601 - Editorial Theory and Practice (4)

PUB 602 - Design and Production Management (4)

PUB 603 - Journal Management and Editing (4)

PUB 604 - Technologies and Infrastructure for Academic Publishing (4)

<p>Project Option PUB 900 – Publishing Project Report (5)</p> <p>Course Work Option Students complete a minimum of eight units from the following list of courses selected in consultation with supervisor or graduate program chair. ---	---

The progress of each student is assessed at the end of each term. A course grade of less than B is considered unsatisfactory. Any student who obtains a grade of less than B in two or more courses may be required to withdraw from the program.

Internship and Project Report

A key component is an internship and project report which integrates the knowledge the student has gained with the demands of an applied setting. This internship is in the workplace, typically in industry, public institutions, or government. An appropriate level of documentation and reporting is required. During the internship, which generally last four months, the student receives academic supervision as required from the student's supervisor. Day-to-day supervision is by designated industry supervisors who have appropriate qualifications and will be appointed by the university. In very small companies, alternate arrangements may be made.

The internship will focus on a specific student initiated project, overseen by one or more supervisory committee members or by the industry supervisor. The student submits a proposal defining the project scope, plans for documentation and reporting, anticipated activities, schedule and conclusion. The proposal is approved by the supervisory committee. Commitment of the company or institution, the industry supervisor and the university will be formalized by a letter exchange.

The student produces two reports: a work report which documents the tasks performed during the internship term; and a project report which investigates a particular problem. The latter serves as a project record and interpretation.

The supervisory committee assesses the project on the basis of the quality of writing and the substance, scope, and relevance of research conducted.

The progress of each student is assessed at the end of each term. A course grade of less than B is considered unsatisfactory. Any student who obtains a grade of less than B in two or more courses may be required to withdraw from the program.

Final Project Options

To complete the Master of Publishing, students must complete either an Internship, a Self-Directed Project, or a Research Project.

The Publishing Internship (professional placement) in the publishing industry generally lasts four months, during which the student receives academic supervision as required from the student's supervisor. Day-to-day supervision is by designated industry supervisors who have appropriate qualifications and will be appointed by the university. Following the internship, the student will submit a 2,000-3,000 word report that summarizes and reflects critically on the work completed during their internship. A supervisory committee consisting of the student's supervisor, their designated industry supervisor, and a second faculty member (generally drawn from Publishing) assess the report based on the quality of writing and the scope of work completed.

The Self-Directed Project allows the student to complete a creative output (e.g. a multi-episode podcast series, an experimental web publication, a new media startup, etc.) under direct academic supervision. Self-directed project topics may not substantively duplicate projects completed during coursework. Following the completion of their project to their supervisor's satisfaction, the student will submit a 2,000-3,000 word report that summarizes and reflects critically on the work completed. A supervisory committee

<p>There is no oral exam. However, a project report will be submitted to the library.</p>	<p>consisting of the student's supervisor and two additional faculty members drawn from Publishing and/or other relevant academic units assess the student's final work based on the quality of writing and the scope of work completed.</p> <p>The Research Project option comprises two extended essays or a single article-length work (10,000 words total). The student will select a research topic in consultation with their supervisor. Essay topics may not substantively duplicate papers presented in coursework. A supervisory committee consisting of the student's supervisor and two additional faculty members drawn from Publishing and/or other relevant academic units assess the student's final work based on the quality of research and writing.</p>

PUB603: Journal Management and Editing

Course Description

Students will delve into peer review processes, publication ethics, journal integrity, content curation, and editorial strategies, equipping them with the expertise to navigate the growing landscape of academic journal publishing. The course will cover the practical skills and tools necessary to operate a journal as well as discussions on the concepts necessary to ensure high editorial quality and integrity.

Outline

Week 1: Introduction to Journal Publishing

- Academic publishing in the university
- The journal's place in academic publishing
- History and evolution of journal publishing
- Version of record, final draft, preprint

Resources

Fyfe, A. (2015). Journals, learned societies and money: *Philosophical Transactions*, ca. 1750–1900. *Notes and Records: The Royal Society Journal of the History of Science*, 69(3), 277-299, [link](#).

Week 2: Journal Organization

- Publishers and societies,
- Editorial boards and other boards
- Editors and journal managers
- Reviewers and readers
- Copyeditors, proofreaders, typesetters

Week 3: Editor Role and Responsibilities

- Editorial workflow
- Responsibilities re: different journal roles
- Different types of editors
- Editors as authors

Resources

Committee on Publication Ethics (COPE). (2022). Ethics toolkit for a successful editorial office, [link](#).

Week 4: Journal Manager Role and Responsibilities

- Journal set up and promotion
- Journal maintenance and reporting
- Editorial operations management

- Publishing services management
- Post-publication promotion
- Journal preservation

Resources

Moscrop, D., Wong, L., & Alperin, J. P. (2020). Have you seen this? Why political pundits share scholarly research on social media. *Scholarly and Research Communication*, 11(1), 21, [link](#).

Week 5: Editorial workflow

- Submission and desk reject
- Peer Review with one of more rounds
- Copyediting, following house style
- Production in HTML, PDF, JATS XML
- Publication, version of record

Resources

OJS Workflow and Platform (schematic), [link](#).

Aries Systems: Editorial and Production Manager, [link](#).

Scholastica Publishing Platform, [link](#).

Week 6: Peer Review

- Review functions and expectations
- Reviewer selection and recruitment
- Reviewer issues and checks
- Review types from anonymous to open

Resources

Smith, R. (2006). Peer review: A flawed process at the heart of science and journals. *Journal of the Royal Society of Medicine*, 99(4), 178-182, [link](#).

Week 7: Publication Ethics

- Correction, withdrawal, and retraction
- Research integrity issues
- Paper mills, citation and review cartels
- Predatory and hijacked journals

Resources

COPE (Committee on Publication Ethics), [link](#).

Hindawi and Wiley to retract over 500 papers linked to peer review rings (2022, Sept 28). *Retraction Watch*, [link](#).

Week 8: Journal Indexing and Discovery

- Role, function, and types of indexes
- Web of Science, Scopus, EBSCO
- Google Scholar, OpenAlex, Dimensions
- DOAJ and Latindex

Resources

Bring to class links to five journals of interest.

Week 9: Copyright and Fair Dealing

- Copyright principles, including fair dealing
- Author and publisher rights
- Creative Commons licensing options

Resources

Creative Commons, [link](#).

Willinsky, J. (2023). Can Changing the Law Lead to Sustainable Universal Open Access? *Against the Grain*, [link](#).

Week 10: Journal Economics 101

- Commercial and non-commercial publishers
- Societies and university presses
- The passing of the subscription economy
- The different colors of Open Access

Resources

Larivière, V., Haustein, S., & Mongeon, P. (2015). The oligopoly of academic publishers in the digital era. *PLOS One*, 10(6), e0127502, [link](#).

Week 11: Data Reporting

- Research ethics reviews
- Data availability and funder compliance
- New forms of data representation

Resources

Dataverse Project, [link](#).

Figshare: store, share, discover, [link](#).

DataSeer: Smoothing the path to shared research data, [link](#).

Week 12: Role of Generative AI

- Brief history of AI
- Generative AI for editors: Article markup, data compliance
- Generative AI for authors: Literature reviews, abstracts
- Intellectual property issues for AI authorship and scraping

Resources

Hosseini, M., & Horbach, S. P. (2023). Fighting reviewer fatigue or amplifying bias? Considerations and recommendations for use of ChatGPT and other large language models in scholarly peer review. *Research integrity and peer review*, 8(1), 4, [link](#).

Week 13: Course Review and Final Project Presentations

- Review of key concepts and technologies covered in the course

- Student presentations of final projects
- Feedback and discussion on projects and course experiences

Assignments

Midterm Project (30%)

For the midterm project, students will select a specific journal publishing issue faced by journal editors and managers and treat it as a case study in terms of editorial and management responsibilities, based on a story in *Retraction Watch* or elsewhere. This project will involve a paper of 1000-1500 words that builds on and goes beyond the *Retraction Watch* coverage to analyze the origins and conditions contributing to the issue, a description of how it unfolded and was handled and a set of recommendations for its immediate resolution and for longer-term and more widespread improvement, if not prevention, of the situation.

Full-term Project (50%)

Students will gain hands-on experience as an editor/journal manager with a student journal from a journal and contact list provided in week one. In this role, you will seek out ways of improving the editing, managing and publishing processes (based on the material presented in the course), while keeping a record of the steps and strategies. For this project, students will be evaluated on their record of and reflections on efforts to improve both the experience of working with the journal and the quality of its publishing, which might include (a) improving the various steps in the publishing processes; (b) recruiting students for journal positions; (c) discussions with journal staff on scholarly publishing issues and standards; (d) helping with the soliciting of publishable submissions; (e) seeing through the review and revisions of a submission; (f) adding to the explanatory text on the journal's website; and (g) promoting the journal generally on and off campus. The record of this project, which should be between 1,500-2,000 words and can include screenshots of work, should also be shared with those involved in the journal.

Participation and Attendance (20%)

Active participation and attendance are crucial for success in this course. Students are expected to engage in class discussions, participate in group activities, and provide feedback during peer presentations.

NEW GRADUATE COURSE PROPOSAL

Course Subject (eg. PSYC) PUB	Number (eg. 810) 604	Units (eg. 4) 4

PUB604: Technologies and Infrastructure for Academic Publishing

Course Description:

Students will explore the technologies and infrastructures necessary to support the publishing, discovery, preservation, and linking of scholarship. Through a hands-on approach, students will learn about the tools and services that create the “scholarly record.” The course will cover various aspects of academic publishing, including content management systems, metadata standards, digital preservation techniques, open access platforms, and the role of libraries and repositories.

Outline:

Week 1: Introduction to Academic Publishing

- Overview of academic publishing
- History and evolution of scholarly communication
- Key stakeholders in the publishing ecosystem

Week 2: Open Access (OA) Publishing

- Types of OA (Gold, Green, Hybrid, Diamond)
- Current debates in Open Access publishing
- Creative Commons Licenses
- Overview of OA-related platforms (e.g., DOAJ, Sherpa Romeo)

Week 3: Metadata Standards

- Importance of metadata in scholarly publishing
- Common metadata standards (Dublin Core, MARC, MODS)
- Following a metadata trail across systems

Week 4: Persistent Identifiers (PIDs)

- Introduction to DOIs, ORCID, ROR
- Link-rot, disambiguation, and the need for persistence
- Role of PIDs in scholarly publishing
- Centralized versus distributed governance for PID systems

Week 5: Content Management Systems (CMS)

- Introduction to CMS in academic publishing
- Academic publishing workflows
- Popular CMS platforms (e.g., OJS, Janeway, WordPress)

Week 6: Hands-on session: Setting up a journal using OJS

- Configuring journal options and metadata fields
- Metadata responsibilities: authors and editors

- Article production and publishing

Week 7: Hands-on session: Working with Scholarly APIs

- Components of an API call
- Navigating API documentation
- Accessing content from Crossref and OpenAlex APIs using Python and R

Week 8: Preprints, Repositories, and archives

- Role of institutional repositories in scholarly communication
- Differences and similarities between Preprint Servers and Repositories
- PubMedCentral, Zenodo, OSF, and other archives
- Importance of digital preservation
- Preservation strategies and standards (e.g., LOCKSS, CLOCKSS, PKP PN)
- The role of the Internet Archive and of academic libraries

Week 9: Linking and Citation Practices

- Importance of proper citation practices
- Tools for managing citations (e.g., Zotero, EndNote)
- Open Citation Initiative

Week 10: Research Discovery Tools

- How metadata enhance discoverability
- Comparison of Web of Science, Scopus, Dimensions, OpenAlex
- Search engine optimization (SEO) for scholarly content

Week 11: Integration and interoperability

- Overview of (other) scholarly communication platforms and services (e.g. Pre-review, arXiv, OSF, ClinicalTrials.org, Dataverse)
- Intergration and interoperability across platforms

Week 12: Future Trends in Academic Publishing

- Emerging technologies (e.g., AI) in publishing
- Implementing transparency and research integrity
- Future challenges and opportunities

Week 13: Course Review and Final Project Presentations

- Review of key concepts and technologies covered in the course
- Student presentations of final projects
- Feedback and discussion on projects and course experiences

Assignments

Midterm Project (30%)

For the midterm project, students will choose a specific aspect of academic publishing to explore in-depth. This project will involve both a written report and a practical component, such as a prototype or implementation. Examples of midterm projects include:

- Compare and contrast two academic CMS platforms (e.g., OJS vs. Janeway) and write a report on their features, advantages, and disadvantages.
- Describe an efficient method for producing JATS-XML for a scholarly article, and use it to create the XML from an author-submitted manuscript in MS Word.
- Conduct a search engine optimization (SEO) audit of a scholarly website and write a report on your findings and recommendations.

Final Project (50%)

The final project will allow you to more fully explore the knowledge and skills gained throughout the course. Students will work on a significant project that addresses a real-world issue in academic publishing. This project will include a detailed written report, a practical implementation, and a presentation during the final week of the course. Examples of final projects include:

- Conduct a usability study of the current OJS platform and identify areas for improvement in the user interface and user experience. Propose specific UI/UX enhancements, such as a redesigned submission form, intuitive navigation, or user-friendly dashboard; Create mockups or prototypes of your proposed enhancements and present your findings and recommendations to the class.
- Conduct a bibliometric study to analyze the citation patterns within a specific academic discipline. Use citation databases and bibliometric tools to gather data on citation counts, collaboration networks, and key researchers or institutions; Write a report on your findings, including visualizations such as citation networks, and present your analysis to the class.

Participation and Attendance (20%)

Active participation and attendance are crucial for success in this course. Students are expected to engage in class discussions, participate in group activities, and provide feedback during peer presentations.

NEW GRADUATE COURSE PROPOSAL

Course Subject (eg. PSYC) PUB	Number (eg. 810) 901	Units (eg. 4) 6
Course title (max. 100 characters) Publishing Research Project		
Short title (for enrollment/transcript, max. 30 characters) Publishing Research Project		
Course description for SFU Calendar (course descriptions should be brief and should never begin with phrases such as "This course will..." or "The purpose of this course is..." If the grading basis is satisfactory/unsatisfactory include this in the description. Max. 50 words) Students must complete two extended essays or a single article-length work. The student will select a research topic in consultation with their supervisor. Essay topics may not substantively duplicate papers presented in coursework. The work will be examined by two faculty members and submitted to the library after approval. Graded on a satisfactory/unsatisfactory basis.		
Rationale for introduction of this course (if more space is required, add a separate page) To provide students with greater flexibility, we are now allowing students to choose between three final project options: an internship, a self-directed project, or a research project.		
Term of initial offering (eg. Fall 2019) Fall 2025	Course delivery (eg. 3 hrs/week for 13 weeks) 3 hrs/week for 13 weeks	
Frequency of offerings/year three times per year	Estimated enrollment per offering 5	

EQUIVALENT COURSES

Courses that replicates the content of this course to such an extent that students should not receive credit for both courses. Please select the one that is most relevant.

<input type="checkbox"/> SEQUENTIAL COURSE [is not hard coded in the student information management system (SIMS).] Students who have taken (place relevant course(s) in the blank below (ex: STAT 603)) first may not then take this course for further credit.	<input type="checkbox"/> ONE-WAY EQUIVALENCY [is not hard coded in SIMS.] (Place relevant course(s) in the blank below (ex: STAT 603)) will be accepted in lieu of this course.	<input checked="" type="checkbox"/> TWO-WAY EQUIVALENCY [is hard coded and enforced by SIMS.] Students with credit for (place relevant course(s) in the blank below (ex: STAT 603)) may not take this course for further credit.
		PUB 899, PUB900

Does the partner academic unit agree that this is a two-way equivalency? ☒ YES ☐ NO

Please also have the partner academic unit submit a course change form to update the course equivalency for their course(s).

Prerequisite and/or Corequisite Prerequisites - PUB600, PUB800, PUB801, PUB802, PUB890 & PUB891	
Criminal record check required? <input type="checkbox"/> Yes (if yes is selected, add this as prerequisite)	Additional course fees? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
