As students, we all deserve a better SFU.

My name is Corbett Gildersleve and I’m running for SFU Board of Governors as the Undergraduate Student Representative with SFU Progressives. I’ve had a long history with SFU; working as a student temp, completing my first degree in Computing Science, and now I’m working on a diploma on Social Policy out of Sociology and Anthropology. I also served as a board member in the Simon Fraser Student Society in 2015 and chaired the granting committee, providing funds for student clubs and unions to hold events.

I’m running for the Board of Governors to work on four things

- Continue to push for an affordable education
- Divest SFU from Fossil Fuels
- Increase funding towards bursaries and a push for an open process
- Continue to support the SFU Gondola project through its next phases

**Affordable Education**

How would your academic life change if was actually affordable? How would that improve your mental health? Your social life? International students shouldn’t have to wonder if their tuition will go up 6% one year and 20% the next. SFU is not run sustainably and students shouldn’t be on the hook for that. I will work with the SFSS and GSS on their Affordability Plan, push to change SFU’s archaic “consultation” system, and fight for a Tuition Freeze.

**Divestment**

SFU is still lagging behind other universities when it comes to divestment from fossil fuels. I will work with SFU350, SFU Dogwood, and other groups to push for an actual divestment plan from SFU.

**Increased Funding**

With rising housing and education costs, low-income bursaries are needed now more than ever. Not only will I push for more funding, but also ask for a review of SFU’s criteria on who qualifies for bursaries. Students are falling through the cracks.

**SFU Gondola**

The SFU Gondola is needed, not just for the snow days, but as SFU grows. I’m happy to support the project and work with SFU and Build the Gondola in moving the project forward into its next phase.

Thank you for reading my platform. Please remember to vote on Feb 11-13, and you can contact me at cgilders@sfu.ca and on FB @voteCorbett4SenateAndBoG
Dear students,

My name is Jas Randhawa, and I am running to represent undergraduate students on the SFU Board of Governors. In the past few years, I have served on the SFU Senate twice as one of seventeen elected SFU faculty undergraduate student representatives. First off, I would like to thank you for taking interest in our University’s academic governance and voting on matters that directly affect your education.

I am currently a fourth year BBA student at SFU’s Beedie School of Business and am in the process of completing my degree. I have also served on the Simon Fraser Student Society. I have held a few roles across campus from SFSS President to SFSS At-Large Representative on the student society board. I look forward to continuing to bring my experience to the university board and helping to enhance the campus experience.

If elected I will use Board protocols and processes to address the following:

**Freeze Tuition**

With rising costs of student tuition due to annual general fee increases, students need increased government funding to ease the financial burden of higher education. Let’s hold the university accountable to its new agreement that limits international undergraduate student fee increases to double the domestic general fee increase.

This will prevent drastic increases in international undergraduate student fees. I will be vocally opposed to any unnecessary student fee increases and promote student consultations. Together, these strategies will ease the burden of tuition at SFU for both domestic and international students.

**SFU Gondola**

SFU students still don’t have a safe passage on and off Burnaby campus in the case of an emergency where the Gaglardi Way road is closed. Bringing this innovative project to the next phase and ensuring its development will support student commutes in extreme weather while also decreasing the amount of commute time on and off campus.

**Sexual Violence Prevention**

To prevent sexual violence and misconduct and to support victims I will advocate for prevention through education, campaigns promoting a consent culture and allocation of appropriate resources and funding. I will work with students, staff, and admin to ensure that SFU is a safe and inclusive environment.

I aim to advocate for the inclusion of the Sexual Violence and Misconduct Prevention Policy in all SFU courses in the same way that many courses include the Code of Academic Integrity and Good Conduct. This will act as a constant reminder that no form of sexual violence and misconduct is tolerated at SFU and will contribute to promoting a consent culture.

You can **VOTE** in the BOG Elections from **February 11-13th, 2020** via SFU mail. Don't forget to check out the SFU Elections website ([sfu.ca/students/elections/students](http://sfu.ca/students/elections/students)) for more information on platforms, candidate bios, and other election related information! If you have any questions about my goals or previous work on the Senate, please don’t hesitate to contact me at jaskarnr@sfu.ca.

Thank you, and happy voting!

Jas
