## RESEARCH AREA

My primary research area is encompassed within the concept of research utilization. As a scholar in this area I am interested in exploring the use of research generally, as well as applying research to inform policy and practice. As such, my work follows three strands: 1) scholarship examining the use of research by teachers (specifically the barriers and facilitators to such use); 2) applications of research to inform policy and practice (particularly through research syntheses); and 3) policy analysis (analysis and critique of current education policies using a research informed framework).

## KEYWORDS

Research Utilization; Use Studies; Information Utilization; Research and Development; Institutional Research; Educational Policy; Government Policy; Information Policy; Policy; Policy Analysis; Policy Formation; Policy Statements; Public Policy.

**RESEARCH AND PROFESSIONAL PARTNERSHIPS***Synergies: Canada's Social Sciences and Humanities Research Infrastructure*

The International Journal of Education Policy and Leadership is a participating journal in Synergies, a not-for-profit platform for the publication and the dissemination of research results in social sciences and humanities published in Canada. Joined in March, 2006-2013.

*Great Schools BC (formerly Great Schools Project)*

British Columbia partnership focused on identification and promotion of a BC based framework for school accountability. Partners include the BCTF, BC School Trustees, Canadian Centre for Policy Alternatives, and other education organizations (2009-2017).

*The Open Source Structured Abstract Database Project*

A collaborative project of scholars at Simon Fraser University, San Diego State University, and Central Connecticut State University to develop and distribute open source software to support a structured abstract / research review database for use as an instructional tool and research dissemination system. Established April, 2010 (continuing).

*OJS-Dataverse plugin integration project*

A collaborative project between IJEPL editors and the Open Journal System to develop and implement a system plugin designed to facilitate hosting of research data published in the journal in Dataverse, enhancing research accountability and dissemination (2013).

**NEW COURSE PREPARATION AND PROGRAM ENHANCEMENTS***President's Dream Colloquium*

In conjunction with Publishing, Public Policy, Chemistry, and the SFU Library, co-designed and delivered a *President's Dream Colloquium*, "Making knowledge public." Over the course of the thirteen weeks, the colloquium explores important questions about what it means to make knowledge public through public lectures and in-class discussions on three major themes:

- 1) The relationship of research to government,
- 2) Different ways of engaging the public in the research process,
- 3) The role that research plays in the public sphere.

*EDUC 392-3 Introduction to Education Leadership*

Developed and taught a new special topics course in Education Leadership. After successfully presenting the course, I developed a full course proposal that was approved through the Undergraduate Programs Committee in November, 2016. The course proposal was approved by the Faculty at the January, 2017 Faculty Council.

*Graduate Certificate in Educational Studies.*

Assisted in development of the framework for a Graduate Certificate in Educational Studies.

*MEd Leadership Redesign*

Lead redesign of the MEd in Educational Leadership. The redesign aligned the degree with current university degree requirements, added a required research course for all students (MA and MEd) and consolidated core courses. Initiated ongoing curriculum mapping.
