

**Position Title:** Youth Consultant, temporary contract

**Employer:** The British Columbia Lung Association, Vancouver Coastal Health and Fraser Health Authority and the Ministry of Health

### Vaping Youth Consultant

We are developing an educational toolkit to be used by teachers, healthcare professionals and parents to educate youth about vaping. The target audience is youth in grade 8-12. We are looking for a consultant with experience of developing content for the identified age group, and to assist in the development and delivery of the toolkit.

The duration of the employment is January 2020 – April 2020.

### Responsibilities:

- Provide input towards the youth-oriented (grade 8-12) content of the toolkit to reflect the BC school curriculum
- In consultation with the BCLA, FHA and VCH, select schools and determine setting for provider training
- Assist in developing an appropriate PowerPoint presentation and infographic targeting the identified age group
- Pilot test the toolkit in 2 schools (two classes, in each grade level in two schools -lower mainland and in either Interior or Northern BC)
- Must be willing to travel across BC

### Qualifications:

- Experience working with youth
- Preferably, but not necessarily, knowledge about vaping
