

SFU researchers interested in applying for the 2022 CFI Innovation Fund (IF) competition, with SFU as the lead or as a partnering institution, need to first submit an Internal Expression of Interest (iEOI) to SFU’s Institutional Strategic Awards Office. This iEOI will be used to help the ISA and AVPR gauge whether there might be projects with similar and/or competing interests, as well as to gauge how much initial interest there is in the 2022 IF competition to better determine the amount of support needed. This iEOI **will not** be used to determine who will or will not be moving forward in the competition. Please complete the form below, 2 pages maximum in total, and submit to SFU’s CFI Liaison at charlene_allard@sfu.ca by February 28, 2021.

1. Current working title of project:

2. Please list the known research team members in the table below.

CORE RESEARCH TEAM (10)				
Name (family, given)	Area(s) of Expertise	Dept/School Faculty	Institution	Email
Team Leader				
Team Leader*				
Team Members (8-9)				

*CFI now allows the option for two Team Leaders. If there is only 1 team lead include 9 other users (for 10 total) if there are 2 team leads include 8 other users (for 10 total)

3. General research project summary and outcome:

4. Infrastructure needs. *Please address the general infrastructure needs of the project to the extent they are currently known, such as what type of equipment you might need, whether equipment will be housed at other institutions, whether space has already been identified, and whether renovations are required.*

5. Please describe the benefits to Canada and British Columbia that would result from your research project.
