### **The Darwin Text**

Some titles are preparatory, but this one is the nucleus of the whole text.

### **The text:**

1) Darwin as a Geologist 2) He tends to be viewed now as a biologist, 3) but in his five years on the Beagle his main work was geology, 4) and he saw himself as a geologist. 5) His work contributed significantly to the field. 6) Scientific American, Sandra Herbert, May 1986, p. 116.
