Experience

● UX/UI Design JAN 2022 - April 2022

Jumblr App (Academic)

- Successfully created an interactive app with micro interactions and animations using Protopie
- Conducted multiple stages of heuristic evaluation and usability testing to optimize usability
- Created a website using Figma to showcase the app and its features

● UX/UI Design OCT 2021 - NOV 2021

Tyro App (Personal)

- Collaborated with a designer to successfully design a productivity app interface using Figma.
- Conducted multiple interviews and surveys to better understand the users.
- Conducted usability testing to receive feedback from real users

● Animation JUNE 2021 - JULY 2021

Interactive Narrative (Academic)

- Successfully created an interactive website that used animation to build a narrative.
- Focused on user interaction by iterating through multiple wireframing and prototyping.
- Created an engaging script that leads to multiple endings based on user choices.

● Graphic Design OCT 2020 - DEC 2020

Nederlands Dans Theater (Academic)

- Collaborated with a team to design a poster, event ticket and a website mockup for NDT.
- Created user personas, moodboards and journey maps.
- Experimented with color, typography and layering to successfully design different layouts.
