Professor in Obstetrics, Gynecology and Reproduction  
Université Laval

About Université Laval and the Department.

The Department of Obstetrics, Gynecology and Reproduction is part of the Faculty of Medicine. All its research activities and professors/scientists are located at the CHU de Québec Research Centre. The CHU hospital centre, affiliated with Université Laval, is the largest mother-child centre in terms of births and high-risk pregnancies in Canada and composed of a large research group.

Université Laval, with over 40,000 students, is one of the leading research universities in Canada. It is located in the beautiful city of Quebec, a UNESCO World Heritage City.

Job Description

The Department of Obstetrics, Gynecology and Reproduction invites applications for a tenure-track appointment as Professor in epidemiology and/or biostatistics. The successful candidate will have demonstrated their ability to conduct an independent research program focusing on the pathologies associated with mother and child health. The candidate will take up a full-time professorship career at the Faculty of Medicine. As part of his/her research activities, the successful candidate will supervise graduate students enrolled in Master’s and PhD programs as well as research projects of medical residents in obstetrics, gynecology and reproduction. The person will be involved in teaching activities in various undergraduate programs offered by the Faculty of Medicine.

Selection Criteria

The candidate should hold a PhD and postdoctoral research training in epidemiology and/or biostatistics applied to gynecological and perinatal pathologies.

Have demonstrated an ability to successfully conduct independent research supported by the main funding agencies.

Show strong research performance indicators.

Demonstrate team-work ability and ability to interact with other researchers in perinatology at the CHU de Québec Research Centre.
Demonstrate the capacity to supervise graduate students and to teach at the undergraduate level.

Demonstrate good knowledge of French or agree to acquire satisfactory French language skills within the first year of employment.

**Hiring and conditions associated with the position**

Position of full-time professor according to the current collective agreement (http://spul.ulaval.ca/convention-collective/).

**Application process**

Contest Closing: October 31, 2014  
Start date: June 1, 2015

Anyone wishing to submit their application must send their curriculum vitae, a three-page summary of their research program, a motivation letter and the names of three persons who can provide references before October 31, 2014, to the attention of:

Dr. Jacques Mailloux
