Course description
This course provides an introduction to the analysis of discourse and dialogue. Discourse here is defined as the study of the organization of language above the sentence level, but also as any manifestation of language in context. Dialogue is defined as an instance of language that involves interaction between two or more people.

The course will provide an overview of the phenomena included in the study of discourse and dialogue, from linguistic, psycholinguistic and computational points of view. Students will read original and recent work in these areas, and will be encouraged to collect, analyze and process their own data.

Required textbook
Additional readings will be made available.

Course objectives
At the end of the course, students will have learnt the basic aspects of the study of discourse from a functional perspective.
Assignments and final papers will involve analyses of texts from different perspectives. The emphasis is on the identification of patterns and labelling of text structures. The ultimate goal of the assignments is to be able to write a descriptive account of the analysis, and to explain how discourse analysis contributes to a better understanding of language phenomena.

Course expectations
- Students are expected to attend all classes and to arrive on time so that classes may begin promptly. Announcements will be made at the beginning and end of classes regarding the assigned readings and the expectations for assignments.
- Students are expected to have read all assigned readings before class. Because many students will be learning about a new field of study, some of the materials and concepts may seem fairly complex. You should probably read assigned readings and go over the lecture notes multiple times.
- It is very important for students to **participate** in class discussions. Therefore, everyone must come to class prepared. Preparation includes carefully reading of the assigned material, noting any questions that you have, and thinking of how the reading relates to your own personal experiences.

- Students will be **responsible for all materials** covered in the assigned readings and lectures.

- **Late assignments** will not be accepted.

- Students will be **respectful** of other students and the instructor. In particular, students will not talk while the instructor or another student is talking.

- Students should familiarize themselves with the Department’s **Standards on Class Management** and Student Responsibilities at: [http://www.sfu.ca/linguistics/undergraduate/student-resources/department-standards.html](http://www.sfu.ca/linguistics/undergraduate/student-resources/department-standards.html)

- **Cell phones**: please make sure that your cell phone (or any other noisy device, including alarms) is turned off during class.

- **Academic dishonesty** in all forms violates the basic principles of integrity and thus impedes learning. More specifically, academic dishonesty is a form of misconduct that is subject to disciplinary action and includes the following: cheating, fabrication, fraud, facilitating academic dishonesty, and plagiarism. For more information on academic honesty and student conduct, please visit the following websites:
  - [http://www.sfu.ca/students/calendar/fees-and-regulations/student-contract/academic-honesty.html](http://www.sfu.ca/students/calendar/fees-and-regulations/student-contract/academic-honesty.html)
  - [http://www.sfu.ca/policies/gazette/teaching.html](http://www.sfu.ca/policies/gazette/teaching.html)
  - You will be required to complete a plagiarism tutorial through Canvas.
  - A grade of “FD” may be assigned as a penalty for academic dishonesty.
  - Tutors, editors, or any other types of outside help are not allowed. Exceptions are the assistance provided through the Student Learning Commons (see below, under Resources).
  - Please note that students requiring accommodations as a result of a **disability** must contact the Center for Students with Disabilities (778-782-3112 or csdo@sfu.ca).
  - All student requests for accommodation for **religious practices** must be made in writing by the end of the first week of classes or no later than one week after a student adds a course.

**E-mail policy**

You are welcome to submit questions and comments via e-mail. Please keep the following in mind when sending your message.

- I cannot always respond to messages late in the evening or on weekends. If you send a message late on Friday or during the weekend, I might not reply until the following week.

- I can only respond to questions that can be answered in a sentence or two. Questions requiring longer replies should be asked in class or during office hours.

- Please proof-read your e-mail message to make sure that your question is clear. In addition, I would appreciate questions that are expressed in an appropriately polite manner.

- Please always **sign your name and the course number**. Make sure the Subject line contains the name of the course (“Ling 803”). Anonymous messages will not be answered. Further, if your message does not clearly address the content of the course, or the Subject line is simply “hi”, there is a good chance that it will be automatically classified as spam, and discarded before I actually get to see it.
Because of the large number of e-mail messages that I receive, it may be several days before I am able to reply to your message. It is often easier and faster to ask a question in class or during office hours. I may also provide answers in class, instead of replying to individual e-mail messages.

Course components and assignments
The course will consist of lectures, in-class writing, in-class discussion and other hands-on activities. Some group work will be required.

Grading
The final grade will be calculated according to the percentages below.

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Participation</td>
<td>20%</td>
</tr>
<tr>
<td>Assignments</td>
<td>30%</td>
</tr>
<tr>
<td>Presentation</td>
<td>20%</td>
</tr>
<tr>
<td>Final paper</td>
<td>30%</td>
</tr>
</tbody>
</table>

Percentage scores on assignments and other course components will be based on objective criteria. Final letter course grades will be computed from percentage scores on all the course components. The following table provides a rough estimate of grade breakdowns for the final grade. Due attention will be given to the verbal descriptions listed below. There is no university-wide standard scale. An instructor adopts a grade scale appropriate to the level and content of the course.

Resources
A number of resources are available to the students in the class.

The SFU Learning Commons/Research Commons is available to all SFU students, and provides assistance with learning, academic writing and reading strategies (http://learningcommons.sfu.ca/).

All the class material will be available through canvas (https://canvas.sfu.ca). Please check it frequently, and make sure you avail yourself of all the tools that you may need.
Topics and Readings
The following list is subject to change, depending on students’ interests. These are suggestions, and students are encouraged to consult other readings, especially when preparing for assignments, presentations and papers. Note also that readings may be added; you should always consult the Canvas version of the syllabus and schedule.
