INDUSTRY OVERVIEW

VISA

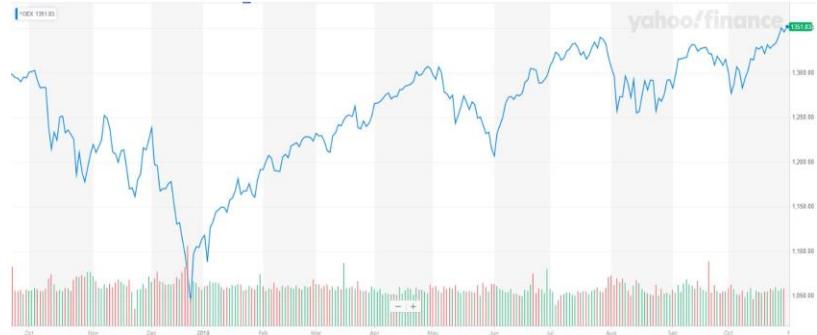

Financial Services

- Credit Card companies simplify transactions between two parties world-wide by providing a user-friendly solution to its clients and its clients' clients.
- A sophisticated and stable verification network is a prerequisite to ensure a smooth and safe payment process.
- The business model can differ.
- While Visa and MasterCard use other banks to offer their service as a license service, American Express does issue the credit card by itself.

Separation of the wheat from the chaff

Current Industry Valuation & Performance

History of Payment Methods

6000 BC

Trade has been made by exchange of goods. Animals, stones, iron and shells have been used to store value temporary.

1700 BC

Code of Hammurabi stated the role of money in society. They set amounts of interest on debt, fines for "wrongdoing", and compensation in money for various infractions of formalized law.

1000 BC

Small knives and spades made of bronze where used in China (Zhou Dynasty)

700 BC

First coins in the Kingdom of Lycian (nowadays in Greece) had been created out of Gold and Silber. The use of coins moved from Anatolia to Europe.

History of Payment Methods

1200 AC

A variety of currencies appeared in Europe because the Kingdoms started to introduce their own coins. At the same time Giro money systems were established by rich families in Italy.

1661

The Stockholm Banco printed the first European banknotes,. However, paper money was already known in China during the **11th century**.

1833

The BOE managed to gain trust into the bank notes by establishing the notes as a legal payment system.

1890s.

The first credit card as general purpose card was established by the founders of the Diner Club.

VISA

History of Payment Methods

20th c.

It was common not to receive wages in cash. Money was transferred directly to the employees' bank accounts or by use of cheques. Later on the online system allowed to be identified and use ones cash to do purchases.

21th c.

New concepts established at a high pace., e.g. online payments, e-wallets, cryptocurrencies and one-click payments.

PayPal was founded in 1998, competing successfully against established payment methods like direct credit authorization or "cash before delivery".

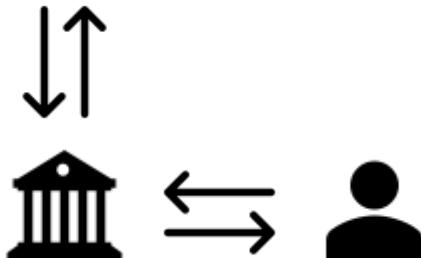

New technologies as the NFC technology in cell phones allowed to us the device to pay. Credit cards or bank accounts can be lodged.

User-friendliness has been increased massively while costs of transactions have been decreased simultaneously. Nowadays Countries like Sweden or Norway barely use cash money in day-to-day life.

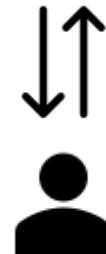

Differences in Credit Card Issuing

Partner-Issuing
(in cooperation with banks)

Self-Issuing
(if cooperation only with brands)

Market Segments

Who uses credit card services?

Business Services:

Businesses hand out business credit cards to employees to conduct predefined business purchases. This procedure makes billing and accounting easier.

Retailers & Wholesalers:

Use the credit card payment method to facilitate the users' purchase decision, shopping experience and payment process.

Private Users:

Simple customers use credit cards to purchase common things or goods. Additionally may be used to do spontaneously expensive purchases, for online purchases or as security for rentals.

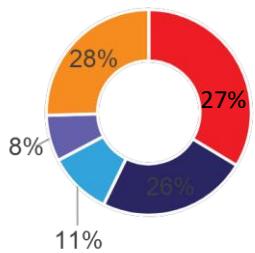

Others:

Third parties as banks offer a simple way for its customers to make a payment. In case customers do not pay back on time high interest fees are applied.

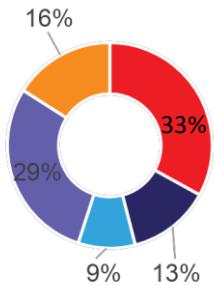

Geographical Markets

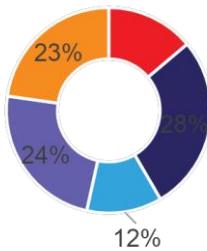

North America

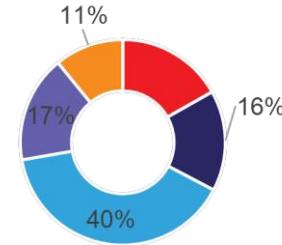

Latin America

EMEA (Europe, the Middle East and)

Asia-Pacific

Revenue Growth

Total Revenue in 2019

\$79bn

Industry Employment

155,456

Number of Businesses

4,741

Annual Growth 2014-2019

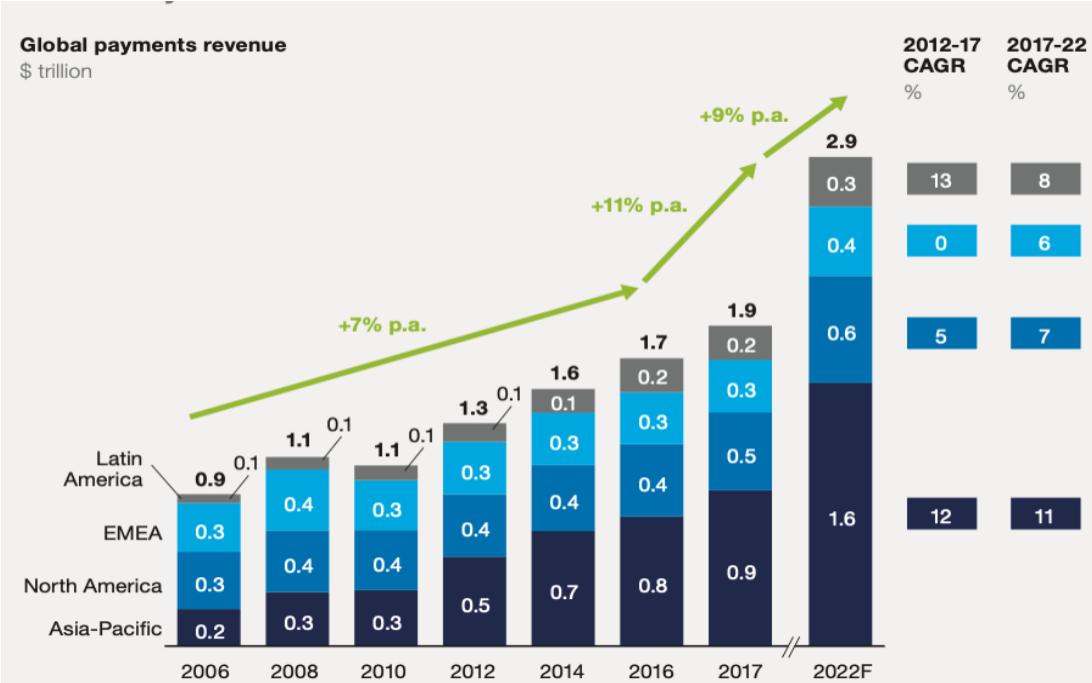

3.0%

- The industry has experienced strong revenue growth over the five years to 2019, as processors have reaped the benefits of large-scale implementation of electronic payment technology and growing e-commerce.
- The industry generates the majority of its revenue through data processing and transaction fees from credit and debit card purchases.
- Thus, the volume and value of transactions made using credit and debit cards determines the fees that operators collect from the merchants they service, establishing a positive relationship between consumer spending and industry revenue.

Market Trends

The Global Revenue in the Credit Card Industry increased 11% in 2017

Trends:

- Strong growth in Asia Pacific and Latin America
- Moderate growth by EMEA and North America
- No decrease in any subgroup

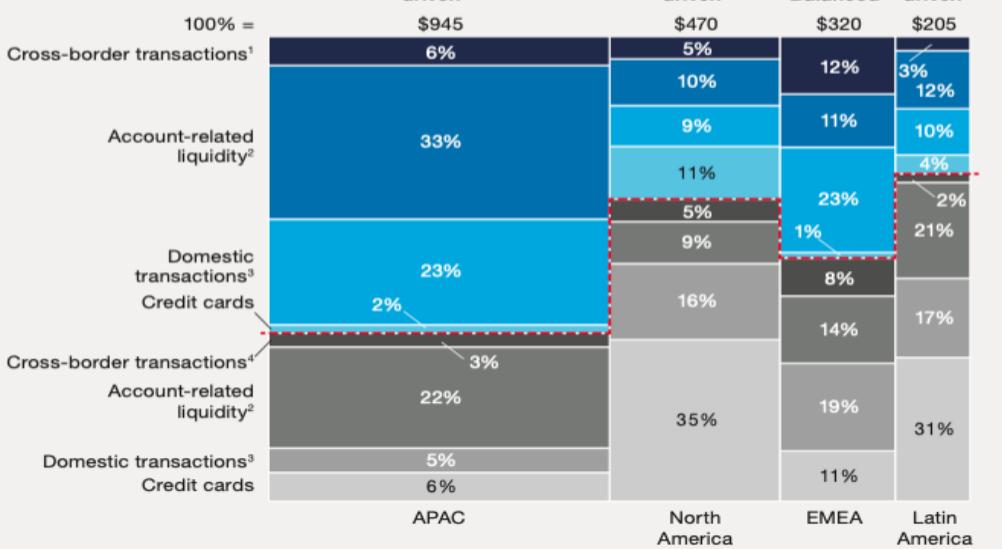

Asia-pacific with great potential for credit card services

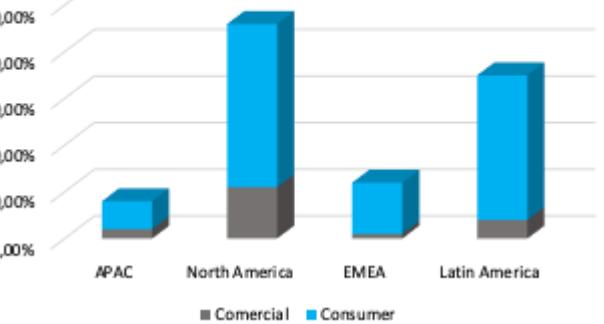

Payments revenue, 2017

\$ billion

Commercial Consumer

Stake of payment revenue by credit card services

APAC:

- Makes up 48.7 % of global payments revenue
- Stake of credit card makes only 8%
- Compared to 46% in North America still potential left/ improvable

Industry Competition

Market Concentration

- Most of the transaction has been concentrated in the North America region, especially in United States.

- The Credit Card Processing and Money Transferring industry has a moderate level of concentration with the top four industry players commanding.

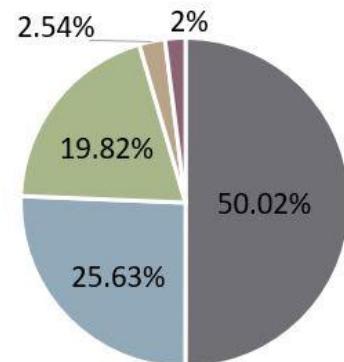

Barriers to Entry

- Difficult to gain significant market share internationally since required capital investment is high

- Also, the major four players in the market makes a huge barrier to enter the market.

Purchase Transactions in 2017 (Bil.)

- Visa
- Mastercard
- Union pay
- American Express
- Others

Profit Drivers

Revenue Drivers:

- Number of purchases
- Transaction fees for businesses
- Interest rate by overdraft
- Fees for terminals / usage by retailers

(Different between partner- and self-issuer.)

Expense Drivers:

- Marketing Activities
- Reward System
- Administrative Costs
- Personal

Current Trends

VISA

Emphasis on development of strong inter-connected use of different devices.

Regulatory Forces

Different organisations and institutions regulate the operations of credit card companies.

In Canada applies the *Code of Conduct for Credit and Debit Card Industry*.

Purpose:

1. Ensuring **full transparency** of all costs for merchants linked to the use of credit cards.
2. Providing **pricing flexibility** to merchants to enable customers low-cost payment option.
3. Allowing merchants to **freely choose** which payment **options** they will accept.
4. **Protect** merchants and customer **rights**.

Payment card network rules:

1. Information about all changes related to fees and rates in front of 90 days.
2. All important information need to be easily accessible on the credit card company website.
3. Allowing merchants to offer discounts for different payment methods.
4. Premium Credit Card options are only accessible for strong credit worthy clients.
5. No obligation for merchants to install devices for contactless-payment.
6. Merchants do not have to accept new services or products from card network supplier.

Regulatory Forces

Regulatory Forces

Different organisations and institutions regulate the operations of credit card companies.

European Union:

2017 new law was introduced to protect customers.

(strong co-respondent Jonathan Hill, EU-Commissar)

1. Introduction of maximum limit for fees.
(fee < 0.03 % of purchase volume)
2. Prohibition of extra charges for credit card payments.
3. Reduction of Liability towards credit card users.

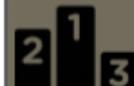

United States:

Bank issues are in general regulated on federal and state level.

Unfair or Deceptive Acts or Practices are a proposal applying to all banks in the US enforcing the *Truth in Lending Act*.

1. Prohibition of interest rate increase on pre-existing credit.
2. Banks need to over reasonable time to pay credit.
3. Prohibition of payments in excess of the minimum in a manner to maximize interest charges.

Economic Driver – Electronic Transactions

Growth rate of electronic transactions, 2016-17

%

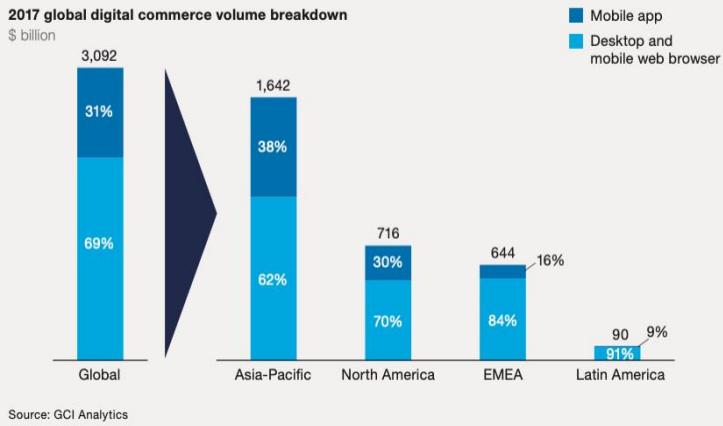

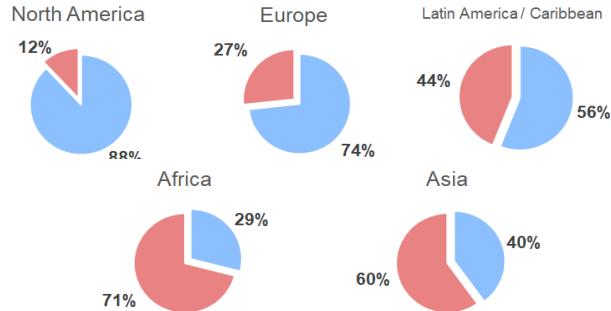

Payments revenue growth rate
%

- Developed countries
- Emerging countries

Size of bubble denotes payments revenue 2017

Economic Driver – Internet

Number of Internet Users by Continent

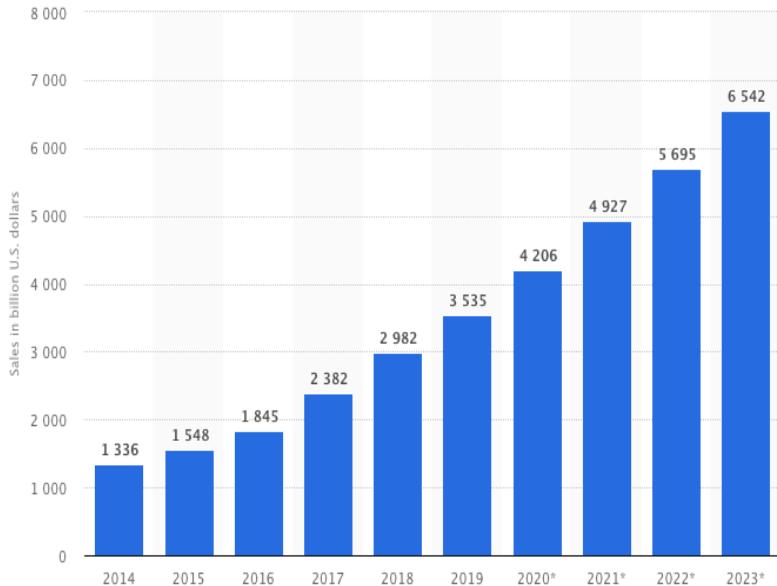

Number of Internet Users

- As the development of the internet, E-commerce and other website-based business will have a higher chance to get higher sales figures.
- The better Internet access will substitute cash transactions to electronic payments.
- The higher electronic payments might boost up the number of credit card transactions, however, there are risks that other platforms can be developed and take over the credit card's market share.
- Mobile apps accounted for more than 30% of global digital commerce volume in 2017.
- The development of the Mobile App market will also stimulate an increase in the demand for Credit Card Purchases due to the convenience.

Economic Driver – E-commerce

Retail e-commerce sales worldwide from 2014 to 2023
(in billion U.S. dollars)

Development of E-Commerce

- As the develop of the the business in E-Commerce, customers will get much easier to purchase items using E-transactions, and this will automatically reduce number of cash transactions.
- The better Internet access will substitute the cash transactions to electronic payments.
- The higher electronic payments might boost up the number of credit card transactions, however, there are risks that other platforms can be developed and take over the credit card's market share.

Mastercard Incorporation (NYSE:MA)

US based technology company in the global payment business. Mastercard, Inc. operates as a technology company, which engages in the payments industry that connects consumers, financial institutions, merchants, governments, and business.

Headquarter: Purchase, New York

Founded: 1966

Employees: 14,800 (2018)

Initial Public Offering: 2006

VISA

About MasterCard

MasterCard is a technology company in the global payments business.

We connect consumers, financial institutions, merchants, governments and businesses worldwide, enabling them to use electronic forms of payment instead of cash and checks.

We use technology and data-driven insights to make electronic payments more convenient, secure and efficient for people everywhere.

MasterCard does not issue cards, but develops advanced payment solutions and seamlessly processes billions of transactions around the world every year.

Our business has a global reach—extending to more than 210 countries and territories—and continues to experience growth in a world where 85% of retail transactions are still made in cash and checks.

VISA

Global Present

- MasterCard's reach extends to more than 210 countries and territories.
- MasterCard employs More than 7,500 employees around the world.
- MasterCard is structured in the following regions:
 - Asia/Pacific, Middle East & Africa
 - Europe
 - Latin America & Caribbean
 - North America (United States and Canada)

VISA

History

1966

Company formed under Interbank Card Association (ICA) name

1969

ICA acquired MasterCharge name and trademark circles

1979

MasterCharge name changed to MasterCard International

1990s

MasterCard and Europay International launched Maestro

1997

Launched *Priceless* advertising campaign

2001

Established MasterCard Advisors

Final Recommendation

- Mastercard partnered with Goldman Sachs to launch the new Apple Card, which takes advantage of preventing frauds and this allowed Mastercard to provide higher quality compared to other competitors. This may stimulate the company growth rate.
- Also, Mastercard acquired Ethoca and Vyze, which support to build up a better fraud prevention system. This acquisitions also developed more finance options to consumers and eventually increased the revenue.

Company Overview

- Pioneering electronic payments since 1958
- Currently headquartered in Foster City, California
- Global Presence: Accepted in over 200 countries and territories worldwide
- 3B+ Cards
- Payments volume Q3 2019: 2,230 billion USD

VISA

Visa's Business Model at a Glance

Account Holders

- Individuals and businesses that conduct transactions to pay for goods and services

Issuers

- Financial institutions that issue Visa products to account holders
- Assume account holders' credit risk
- Set and collect fees and interest rates from account holders
- Provide customer service for account holders

Network Processor

- Provides processing and operational systems
- Develops products
- Provides risk management
- Builds and manages global brand
- Develops new market opportunities (acceptance)

Acquirers

- Companies that contract with merchants to accept Visa products
- Generate recurring reports and statements for merchants
- Provide customer service for merchants

Merchants

- Retailers, billers and others who accept electronic payments as a method of payment for their goods or services

Investment Proposition

VISA

Connected Devices Could Drive a Massive Expansion in Use Cases and Acceptance Points

Source: Visa Operating Certificates CY2016. Merchant locations are provided by Visa's issuing and acquiring financial institutions; card counts include cards carrying the Visa, Visa Electron, V PAY and Interlink brands as well as PLUS proprietary cards.

VISA

History & Management

VISA

History Takeaways

- **1958: BankAmericard** – *Bank of America launches BankAmericard, the first card with a “revolving credit” feature*
- **1976: Visa is born** – *BankAmericard becomes Visa – a name that sounds the same in all languages.*
- **1986: What's your currency?** – *Visa develops multiple-currency clearing in 21 currencies*
- **2007: Incorporating change** - *Visa restructures, creating a new global corporation, Visa Inc.*
- **2008: A very public statement** – *The “V” ticker symbol appears on the N.Y. Stock Exchange as Visa becomes the largest initial public offering in U.S. history.*

VISA

Management Committee

Alfred F. Kelly, Jr., Chairman and Chief Executive Officer

- CEO since December 2016 and Chairman of the Board since April 2019
- Previously, he was president of the American Express Company
- Most recently, he was president and CEO of Intersection
- He received a bachelor's degree as well as an MBA from Iona College

Lynne Biggar, Executive Vice President, Chief Marketing and Communications Officer

- Joint Visa from Time Inc., where she was executive vice president of consumer marketing and revenue
- Prior to her role at Time Inc., she spent more than 20 years at American Express
- Ms. Biggar holds a BA in international relations from Stanford University and an MBA from Columbia University.

Vasant Brabhu, Vice Chairman and Chief Financial Officer

- Joint Visa in February 2015, from NBCUniversal Media, LLC, where he served as CFO
- 2004-2014: Mr. Brabhu served as the CFO for Starwood Hotels and Resorts Worldwide, Inc.
- Mr. Brabhu holds a B.S. in Engineering from the Indian Institute of Technology and an MBA from the University of Chicago.

VISA

Management Committee

Chris Clark, Executive Vice President and Regional President, Asia Pacific

- Based in Singapore, he is responsible for business operations, strategy development and management of Visa's business in the region
- Before joining Visa, Mr. Clark served 14 years in senior positions at National Australia Bank
- Mr. Clark is a fluent Mandarin speaker, has a Bachelor of Commerce from University of Melbourne and completed executive programs at both INSEAD and Stanford University.

Paul D. Fabara, Executive Vice President and Chief Risk Officer

- Mr. Fabara is responsible for maintaining the integrity and security of the Visa payment system
- Prior to Visa, Mr. Fabara held a number of key leadership roles at AMEX and served as global chief operating officer for Barclay's credit card business

Jennifer Grant, Executive Vice President, Human Resources and Chief Human Resources Officer

- Prior to joining Visa in 2018, she served as executive vice president and chief human resources officer for Air Products & Chemicals
- Prior to joining Air Products, Ms. Grant served as the vice president of human resources for Pfizer's specialty products and oncology divisions.
- Ms. Grant holds a bachelor's degree from University of Michigan and a master's degree in business administration from the Krannert School of Management at Purdue University.

Management Committee

Charlotte Hogg, Executive Vice President and Chief Executive Officer, Europe

- Most recently, Ms. Hogg served as chief operating officer for the Bank of England, from 2013 to 2017.
- Previously, Ms. Hogg was a managing director for strategy and planning at Morgan Stanley
- Ms. Hogg graduated from the University of Oxford with a B.A. in Economics and History. She is a Kennedy Memorial Trust Scholar from Harvard University, and has an honorary Doctor of Laws from Warwick University.

Oliver Jenkyn, Executive Vice President and Regional President, North America

- Prior to joining Visa in 2009, Mr. Jenkyn was a partner at McKinsey & Company
- Mr. Jenkyn holds a bachelor's degree in economics from McGill University and master's degrees in business and finance from Harvard University and Queen's University.

Ryan McInerney, President

- Prior to joining Visa in 2013, Mr. McInerney served as chief executive officer of consumer banking for JPMorgan Chase
- Mr. McInerney received a finance degree from the University of Notre Dame.

Management Committee

Bill Sheedy, Executive Vice President, The Strategy Group

- He joined the company in 1993 as an executive in Visa's strategy and pricing division.
- Mr. Sheedy holds a B.S. from West Virginia University and an MBA from the University of Notre Dame.

Rajat Taneja , Executive Vice President, Technology and Operations

- Prior to joining Visa in 2013, Mr. Taneja was executive vice president and chief technology officer of Electronic Arts Inc.
- Mr. Taneja holds a B.E. in Electrical Engineering from Jadavpur University and an MBA from Washington State University.

Kelly Mahon Tullier, Executive Vice President, General Counsel and Corporate Secretary

- Prior to joining Visa in 2014, Ms. Mahon Tullier worked at PepsiCo, Inc. as senior vice president and deputy general counsel.
- Ms. Mahon Tullier received her B.A. from Louisiana State University and her J.D., magna cum laude, from Cornell Law School.

Final Recommendation

- In the late 2018, Visa announced the partnership agreement with Western union to implement Visa Direct's payment platform and the company will be able to establish growth in market share.
- Visa also announced the acquisition of Earthport, which is a company that specializes in cross-border payments and money transfer service. This acquisition will improve Visa's process quality and boost up the company's growth.

History

History

History

AMEX received its first computer, an IBM 7070-1401, which enabled the company to switch from manual to automated systems for converting money orders and for its accounting and payroll applications.

1968 - 1984

1961

Series of acquisitions that diversified holdings:
1968 - Fireman's Fund Insurance Company
1981 - Shearson Loeb Rhoades Inc.
1984 - Investors Diversified Services Inc.

1971

Partnered with IBM to introduce Magnetic Stripe, which increased processing speed of charge card transactions at POS systems

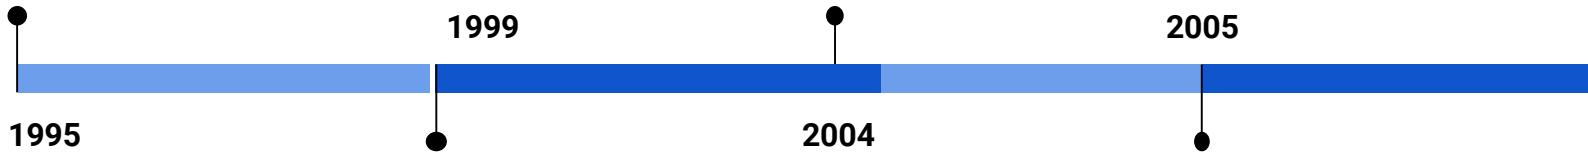

1991

Introduction of Membership Rewards to provide customers with innovative benefits and relevant partnerships

Recent History

Rolled out ExpressNet, the predecessor of AmericanExpress.com which enabled card members to check their status of their AMEX accounts online, pay AMEX bills electronically, enroll in rewards programs, and take advantage of special offers from airlines, hotels, stores and restaurants.

Introduced the Centurion Card, commonly known referred to the "black card", which catered towards a more affluent customer segment.

Co-branded exclusive partnership with Costco

2005

Introduced Clear, the first credit card with no fees of any kind.

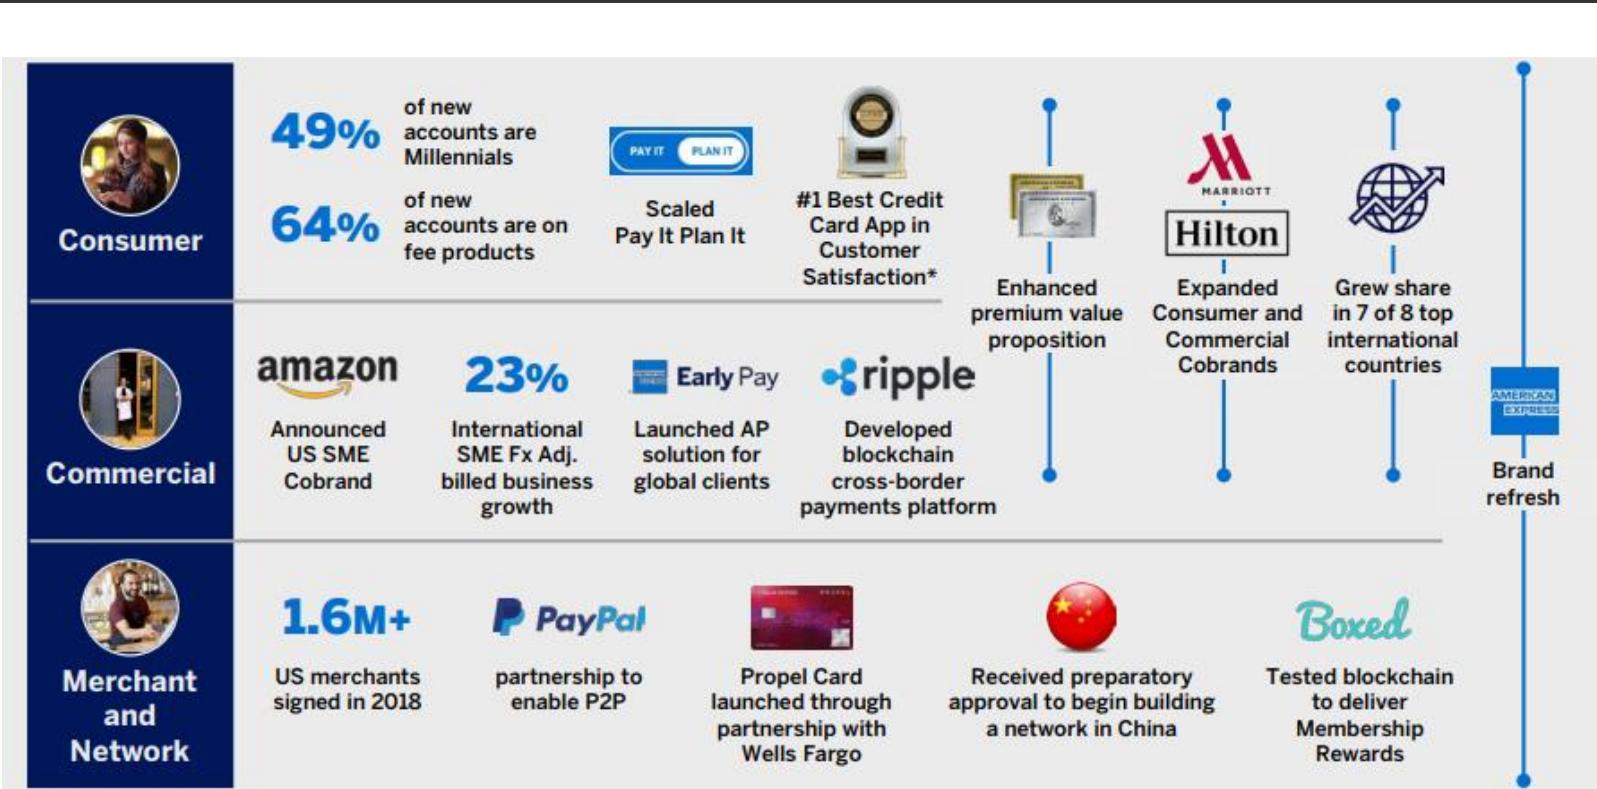

Introduced ExpressPay, a contactless payment system based on wireless RFID

VISA

Recent Developments in 2018

Reported Operating Segments

- Global Consumer Services Group (GCSG)
 - Issues wide range of proprietary consumer cards
 - Provides consumers with travel services and non-card financing products
 - Manages international joint ventures & partnership agreements in China
- Global Commercial Services (GCS)
 - Issues wide range of proprietary corporate and small business cards
 - Provides payment and expense management services
 - Provides commercial financing products
- Global Merchant & Network Services (GMNS)
 - Processes and settles card transactions
 - Acquires merchants and provides multi-channel marketing programs
 - Manages partnership relationship with third-party card issuers, merchant acquirers
 - Manages loyalty coalition business

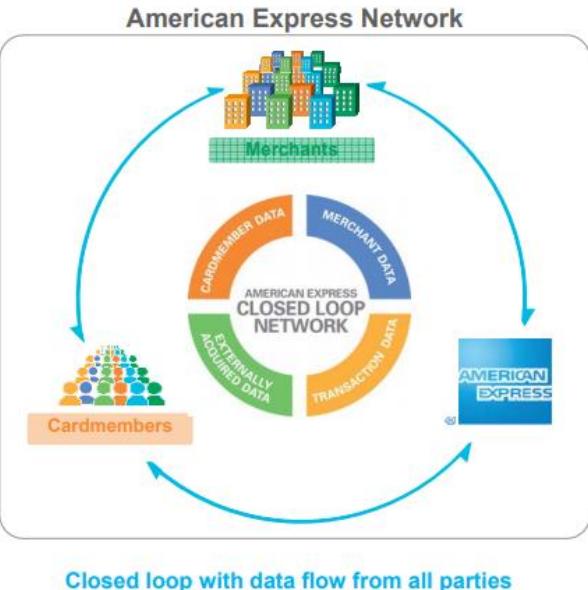

VISA

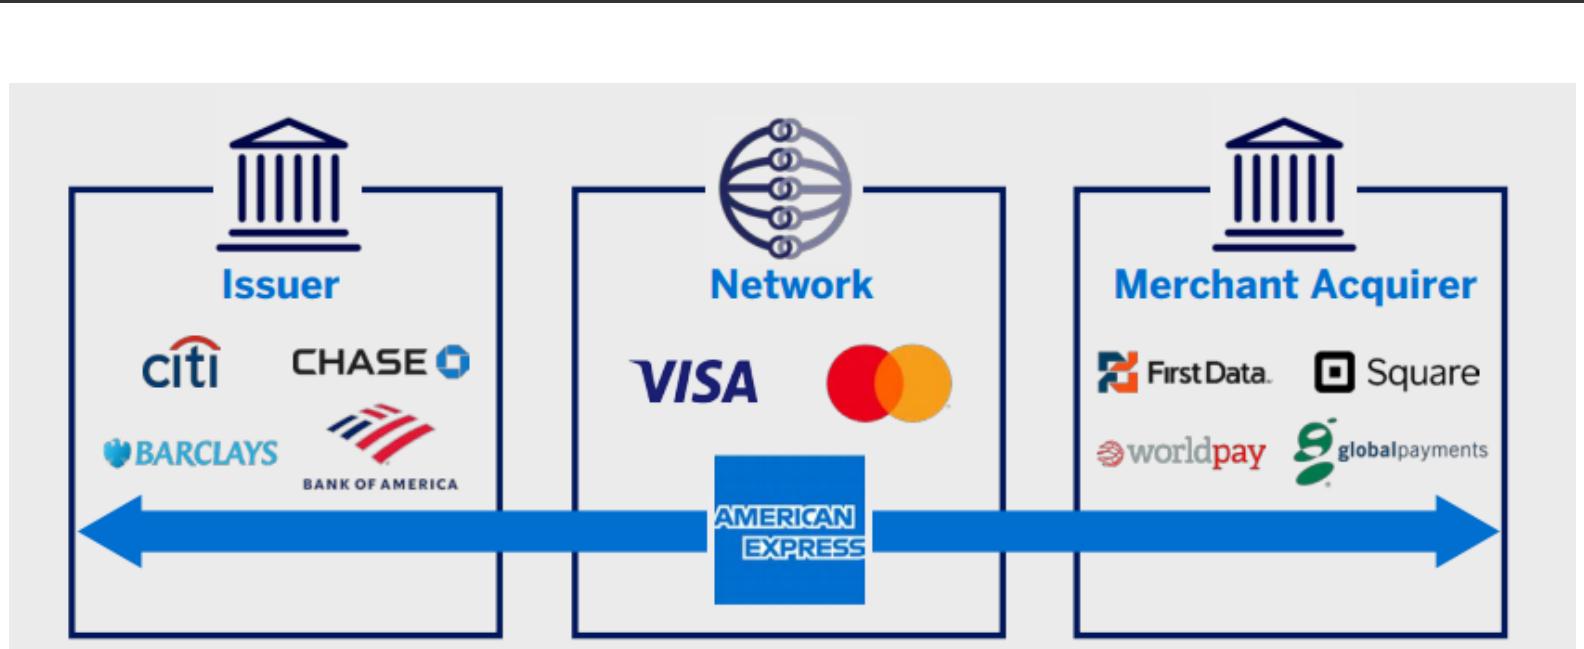

Business Model

- Integrated End-to-End, Payments Platform operating a closed-loop network
- Spend-centric business model that focuses primarily on increasing customer spend per transaction

2018 Revenue Stream

Revenue Breakdown			
FY 2018 (Fx Adjusted)	Growth YOY	Contribution to growth	% of Total
Discount Revenue	8%	5%	61%
Net Card Fees	12%	1%	9%
Other Revenue	1%	0%	11%
Spend & Fee Revenue	8%	6%	81%
Net Interest Income	19%	3%	19%
Total Revenue	10%	10%	100%

- 61% of total revenue is derived from **discount revenue**, the fee charged to merchants for accepting AMEX cards
- 9% of total revenue is derived from **net card fees**, primarily driven by growth in Platinum, Delta and Gold portfolios
- 11% of total revenue is classified as **Other Revenue**, which consists of delinquency fees, foreign exchange conversion revenue, as well as joint-venture revenues
- 19% of total revenue is derived from **Net Interest Income**, which includes card member loans

2018 Revenue Stream by Geographic Regions

(Millions)	United States	EMEA ^(a)	JAPA ^(a)	LACC ^(a)	Other Unallocated ^(b)	Consolidated
2018						
Total revenues net of interest expense	\$ 29,864	\$ 4,419	\$ 3,656	\$ 2,584	\$ (185)	\$ 40,338
Pretax income (loss) from continuing operations	6,696	1,212	764	782	(1,332)	8,122
2017						
Total revenues net of interest expense	\$ 27,187	\$ 3,927	\$ 3,464	\$ 2,505	\$ (205)	\$ 36,878
Pretax income (loss) from continuing operations	6,412	1,150	763	806	(1,706)	7,425
2016						
Total revenues net of interest expense	\$ 26,339	\$ 3,570	\$ 3,275	\$ 2,360	\$ (106)	\$ 35,438
Pretax income (loss) from continuing operations	7,943	698	556	635	(1,790)	8,042

(a) EMEA represents Europe, the Middle East and Africa; JAPA represents Japan, Asia/Pacific and Australia; and LACC represents Latin America, Canada and the Caribbean.

(b) Other Unallocated includes net costs which are not directly allocable to specific geographic regions, including costs related to the net negative interest spread on excess liquidity funding and executive office operations expenses.

Margin Analysis

- Gross Margin, Operating Margin has decreased slightly since 2016
- Net Profit Margin decreased in 2018 following the Tax Cut and Jobs Act, primarily driven by a \$2.6bn tax-related charge, including taxes on deemed repatriations of overseas earnings

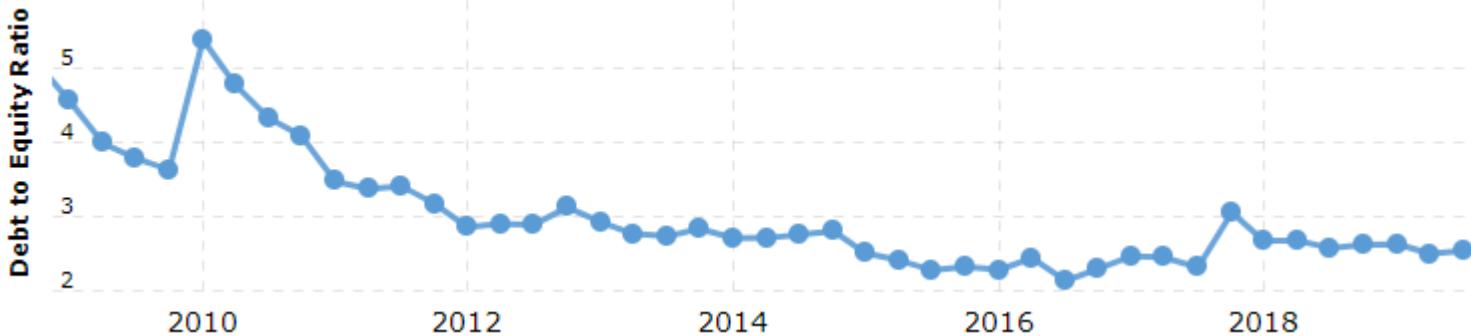

Profitability Analysis

- ROE has been stable over the years post-2008 financial crisis

Financial Leverage & Liquidity Analysis

- Debt-to-Equity ratio has been relatively stable over the past 5 years, and have halved since the peak in 2010

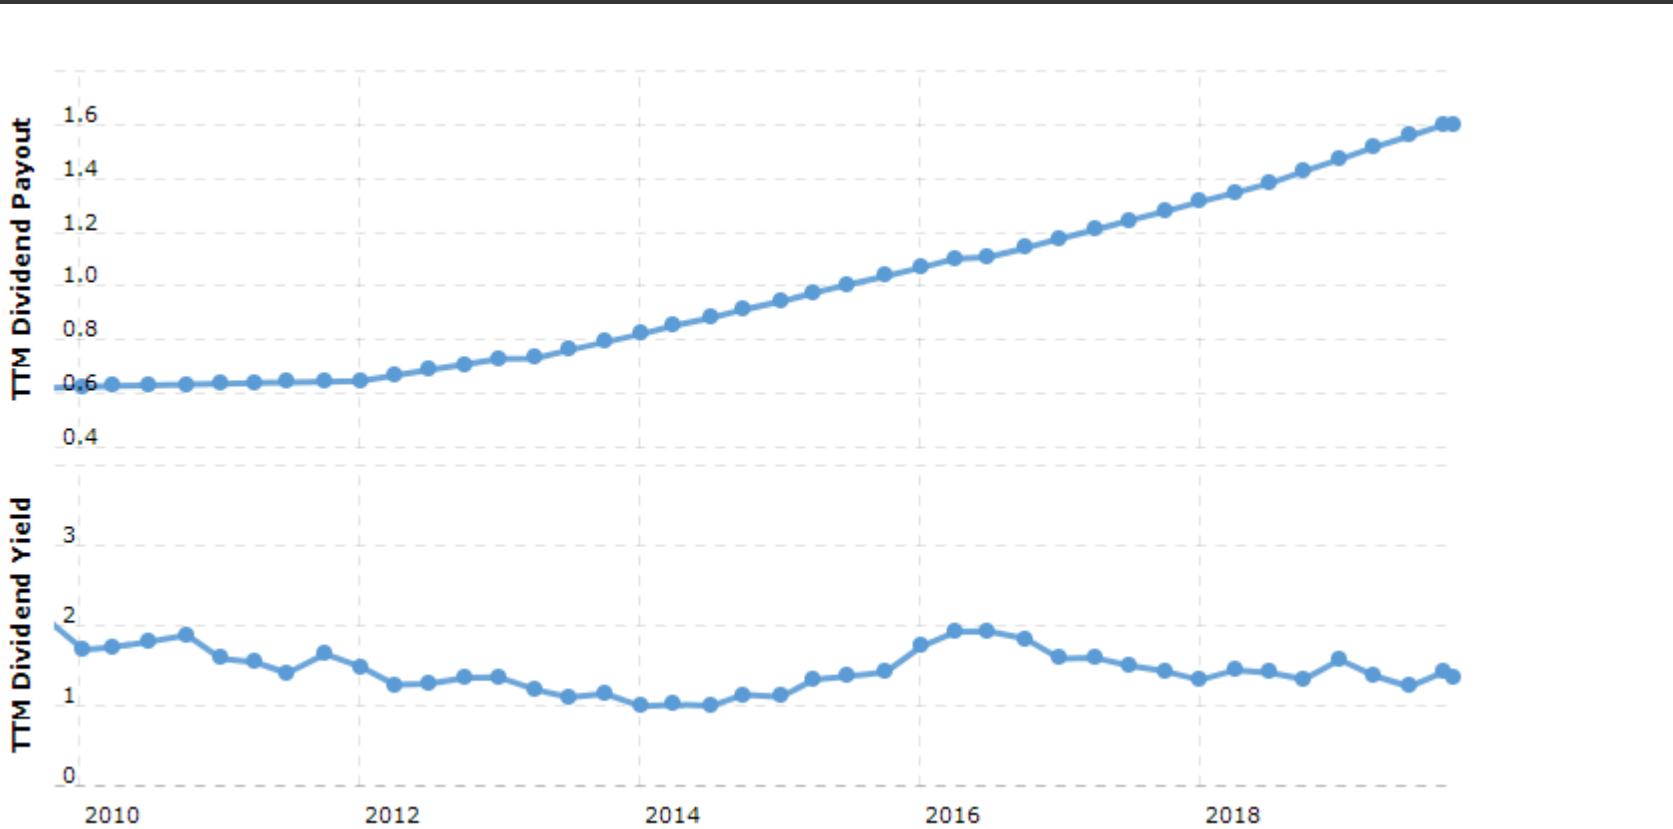

Financial Leverage & Liquidity Analysis

Final Recommendation

- Poised to capitalize on the secular tailwind of the digitization of payments through strategic partnerships (Apple Pay, Venmo/Paypal)
- Differentiated premium offerings attracts more affluent customer base, which in turn increases resilience towards economic downturns
- Consistent EPS growth, current P/E (~14x-15x) trades slightly below last 5-year average P/E (~17x)
